AN UNCOMMITTED SIN.

For many years my enemy and I have not spoken to one another; or, to put the matter correctly, I have not spoken to him. Of course he knows the reason. He did something which a friend or an utterly inhuman person would not have done—so I thought. Need I go into details? Ever since that time I have classed him as a separate individual, one who is not like an ordinary human being. It had never occurred to me that he could wear the same kind of clothes, think the same thoughts, or say the same things I do.

I guess people don't look upon their enemies as ordinary citizens, individuals with everyday aims and thoughts. I cannot feel that I am an exception to the rule. To me he has been just somebody to hate with an hatred violent enough to make me disapprove of and see his every action as base.

I shall probably never feel justified in liking him; but such thoughts as are mentioned above, in my guarantee, will never again beset me. For a long time I have been looking for a way of revenge. About a month ago the opportunity seemed to present itself. He received for a present a little terrier puppy. A thought seemed to flash across my mind. I put it out, but it recurred again and again. I was obsessed with it. It seemed to rule me and to be my master completely. Believe me, I realized how horrible it was and fought it. I was going to poison his little dog—can my thoughts be forgiven? Last week I bought the poison from a criminal city and have been waiting for a suitable opportunity to present itself.

Today he passed my house with his puppy on a leash. A car swerved around the corner, and he snatched the frightened little dog out of the way just in time. The little thing started crying and whimpering; he started it up into his arms and comforted it for awhile. It soon recovered and started licking his face to show its affection. If it hadn't been for that incident his little dog would have been dead now.

Today I look upon myself as his inferior in all ways. I shudder to think that I was going to take the life of the little dog who means more to him than life itself. My sin would have been infinitely more painful to him than his has been to me. There would have been an empty place in his life, and I would have been a murderer. If there is any power in heaven that cares about such things, or if there is any punishment for uncommitted sins, I am deserving of such. When he showed his affection for his little terrier, I realized how unfounded my judgments were; he is a normal person, not the fiend he has always been in my mind.

I wonder if he would forgive my intentions and sinful thoughts, if I were to reveal them. If I could ever feel that he would, I would forgive him a thousand fold for his misdeeds. I gladly thank him for teaching me a great lesson; all people no matter how criminal, or strange they may be, have as many good traits as they have faults.

MOVIE REVIEW.

"The Hound of the Baskervilles," which is now playing at the Plaza Theatre, is the movie version of one of Sir Arthur Conan Doyle's famous Sherlock-Holmes stories. Sherlock Holmes, who is portrayed by Basil Rathbone, and Dr. Watson, Nigel Bruce, are called in to solve the tragic death of Sir Charles Baskerville and to save the next heir from a similar fate. Richard Greene, Wendy Barrie, and E. E. Clive are also included in the cast. The picture is directed by Sidney Langford.

ATTEND PRESS CONFERENCE.

The Annual State High Press Conference which was held on Saturday, April 29, at State College, was attended by several members of the Staff. The program was very extensive and contained valuable information for improving the school paper. The meeting was opened by the presidents of the Journalists' fraternity and shortly followed by short addresses given by Miss Gloria Paul, of the Carriek High School, Pittsburgh; Miss Anne Jane Phillips, school page editor of the Pittsburgh Post-Gazette; and Professor John Henry Prissell, Division of Speech, of the Pennsylvania State College. "What a Newspaper Expects of Its Reporters" and "Values" were the subjects discussed by the last two speakers.

Following the general assembly, the representative journalists divided into three main discussion groups: editorial staffs, business staffs, and faculty advisors. At a luncheon immediately following the meeting prizes were awarded to the winner of the High School Reporter's Contest. Announcements of scholarship winners were made and certificates of merit were presented by the Sigma Delta Chi. A member of the variety quartet

sang several tenor solos. Special sight seeing trips were sponsored by the men's and women's fraternities, while a tea for adults and women members of publication staffs brought the convention to a close.

SCIENTISTS TO MAKE TRIP.

Mr. Ward's science class last week engaged in a discussion of a field trip. Before the end of the period it was decided that the first trip would last only one period. Mr. Ward stated that if the first expedition were successful, several other trips would be taken at some future time. Here's hoping for the freshman class that the first one is successful.

GLEE CLUB BANQUET SUCCESS.

The annual glee club banquet was held at 8:15 on Friday, April 28, in the Lutheran Church basement. The banquet was attended by forty-seven members of the glee club, Miss Morgan, and guest of honor, Mrs. Schad. The toastmistress, Dorothy Kline, opened the program for the evening as soon as everyone had finished eating. The first number on the program was a violin solo by Mrs. Schad. She was accompanied by Phyllis Hillegas. Mrs. Schad played Schubert's "Ave Marie," and several other numbers. Betty Ann Teaman favored with a solo, "Little Sir Echo." One of the seniors, Jean Gaum, gave a short talk on "School Day Memories." After the Jean Christening played Chopin's beautiful "Waltz in C Minor." At the close of the program, Miss Moran gave the seniors roses as a token of her appreciation for their work and of her regret in losing so many by graduation.

FALSE ALARM!

One day the 10th period Civics class was just settling down to honest labor on the government when three sharp rings from a bell near the door expressed their regrets at losing one of the nicest and most valuable group of seniors the glee club has ever known.

BOOK REVIEW.

"The Yearling" by Marjorie Kennan Rowlings. This story concerns the life of a family living in the scrub regions near the St. John River in Florida. It especially deals with the life of Jody Baxter and his pet fawn. The plot is very simple and in the latter third of the book the reader will have to get his excitement out of two great hunts and the constant interest of the personalities. This is a story that every one will enjoy for

its people are altogether human and lovable. "The Yearling" has just been awarded the 1938 Pulitzer prize of \$1000 for the best novel depicting some phase of American life.

ONE OF US.

You probably knew all the time who the boy and girl were for last week; but for a few who might not have known, they were Stella Confer and Bob Curtin.

The boy for this week has brown curly hair, blue eyes, wears glasses, and is tall. He is a confirmed jitterbug, wears a green sweater, and is a junior.

The girl has dark curly hair, blue eyes, is president of her class, and a drum major. She is fairly tall, has a light complexion, and is very well known. Guess these if you can.

THE HAUNTED HOUSE.

Ed. Note.—Peggy Gross is still poetically inclined. Here's another of her amazing verses. It has always been thought that Dame Spring brings out the poetical instinct; but when people write about haunted houses and fallen ghouls rather than pretty posies and budding leaves on the rosebushes, the urge to write must come out in every season of the year.

THE HAUNTED HOUSE.

Catching sunlight's fading glow The windows blankly stare As though to hide the thousand Tender memories they share. Clinging to the vines climb round The banisters and posts And whisper gently among themselves Of long departed ghosts. The aged roof grows gray with mold, And the night and gloom descend Nothing there but troubled thoughts And the wailing of the wind.

NEWCOMB TO BE MAY QUEEN.

Today we pay tribute to Mother. The one whom we all hold dear. With flowers, candy and gifts. We try her day to cheer. Hyacinths, roses and tulips. She is fairer than them all. And her visible sweetness. On us will never pall. God gave to us our mothers. Ambassadors are they. They taught us how to live aright. And taught us how to say: Now I lay me down to sleep. I pray the Lord my soul to keep. If I should die before I wake. I pray the Lord my soul to take. I've thought of a plan I think will work. With a little co-operation. Let's make everyday Mother's day. For the Mothers of our nation. And to those whose Mother is gone. Revere her memory. And try to live your life. As she would like it to be. L. S.
