

Over The County News

John Bechtel, of State College, World War veteran, may be taken to the Veterans Hospital at Aspinwall, Pittsburgh, due to an illness that seems to require hospital treatment. John is a brother of William of Millheim, and George, of Woodward.

P. Byron Musser, of Millheim, is the agent taking the place of R. N. Wimer at the Pennsylvania Railroad station at Coburn for the ensuing two weeks. Mr. Wimer has his vacation period at this time. Mr. Musser just completed several months in an extra capacity at Williamsport.

Rev. G. A. Fred Griggs, Millheim, accompanied by Elder L. E. Barries, left last Monday for Maxatawny, where they attended the sessions of the one hundred and ninety-third meeting of the Eastern Synod of the Reformed Church in the United States, which is now an organic part of the Evangelical and Reformed church. The sessions were in Zion's Reformed Church, Maxatawny.

Harry F. Shires, of Highland Park, Michigan, was an arrival in Millheim last Monday evening called there by the illness of his mother, Mrs. Ellen Shires. Mrs. Shires, who has been housekeeper in the S. M. Campbell home for many years, had had a breakdown. It is likely that she will be taken to Michigan to recuperate after she is able to travel. Mrs. Alice Couse, of Rebersburg, will take her place in the Campbell home for a few days.

Lumbering operations are now in progress on three timber tracts along the base of Seven Mountains, west of Potters Mills. Thomas A. Davis is operating on the Ripka tract, the Ruhl Lumber company on the Mothersbaugh tract and O. W. Houtz cutting and sawing on the Neff tract. The three tracts join, but on each tract a complete mill is located and is being operated. The three tracts have a variety of trees.

The executors of the estate of C. Grace Smith, deceased, late of Centre Hall borough, W. Harrison Walker, attorney, sold the Smith residence on Main Street and a plot of five acres bordering on the east side of an alley running parallel with Main Street, for \$2880 and \$460, respectively. The house and lot was purchased by William Luse, farmer and builder, east of Centre Hall. He and his sister, Miss Cora Luse, erected two houses in the south section of that town, and it is presumed Mr. Luse will convert this newly acquired property into apartments. The five-acre plot of ground sold was owned by Miss Smith and Mrs. Lavon Smith, widow of the late Clyde Smith, a deceased brother of the heirs. The purchaser was Eugene Colyer, of Lewistown, a son of Mr. and Mrs. W. F. Colyer.

Marvin Ishler left Centre Hall on Sunday evening with a large truck and trailer, carrying ten kiddie autos and a large quantity of equipment for use in a concession at Olympic Park, at Newark N. J., where in past seasons he has been operating successfully. His house trailer was sent to the park in advance and on Saturday Wilbur Stover transported several Shetland ponies, a very albatross, to the concession. To that point, Olympic Park is located within twelve miles of New York City.

Mr. and Mrs. J. R. Miller motored to State College last Sunday and there witnessed the Scholastic Day exercises in which their son, John, was one of the winners of a fraternity scholarship—John being the recipient of the Phi Eta Sigma freshman honorary scholarship. Another student from that end of the county who was named among the winners was Mrs. Jean Rishel, of Spring Mills. Miss Rishel was awarded one of the State Federation of Women scholarships that are given to students in Home Economics.

There has been a slight change in the survey of the Potters Mills-Old Fort road over Route No. 53, at the B. W. Ripka farm. On leaving the Red Mill bridge over Sinking Creek the road was shifted somewhat to the east and will make a curve as it crosses the old road at the Ripka building. The curve, of course, will be long and in no way interfere with driving. The change is so slight that it is scarcely noticeable. It is now stated with certainty that the road from the intersection with No. 322 at Potters Mills to the bridge at the Carson store will be concrete, 20 feet wide. From the bridge to Old Fort the driving surface will be asphalt. The asphalt will be produced at Pleasant Gap by the Suburban Construction Company of Ardmore. J. Dean Clark, who was awarded the contract for the sum of \$131,250, will submit the heavy shovel work, it is understood. He is now engaged in building the road between Hubersburg and Jacksonsville, expecting to complete it within a month.

William Luse, in building new houses and buying old homes in Centre Hall and repairing them, is following the traditions of his ancestors. It was Mr. Luse's grandfather, the late A. P. Luse, and son, Clement, father of William, together with two other sons of A. P. Luse, namely Milford and John Luse, who were responsible for the building of more homes in Centre Hall than any individual or group of individuals. Forty and more years ago the Luses began building operations in the south section of the town, and about ten houses were constructed by them. Today, William Luse has completed two fine duplex homes in the south section; has remodeled the old Hellercher home where his mother lives, and with the purchase of the Smith property will repair and alter it to accommodate in modern style two families. Another builder in this class was the late J. O. Deininger, father of Mrs. Lucy Henney. He operated in an earlier period. Brick structures erected by him are the Harper and Spitzer homes, and also a number of frame buildings.

STUDENT NEWSPAPER LISTS
NEW EDITORIAL BOARD

A. William Engel, Jr., of Sewickley, a junior in journalism, has been elected editor of the Penn State Collegian, student newspaper at the Pennsylvania State College. C. Russell Eck, of Pottstown, will serve as business manager and Helen L. Camp, of Roaring Spring, was named women's editor.

Others named to next year's editorial board were Emanuel Roth, Swoyersville; Robert L. Wilson, Sunette; Bernard A. Newman, Scranton; George B. Schless, Emporium; Paul S. Haldeman, York; Herbert Nipson, Clearfield; and W. Bradley Owens, Scranton.

The man who reads poetry may be a stony, but the man who ignores poetry is a sap.

A fish pond, 7x4 feet, and 2 feet in depth, was built of concrete by Eugene Burkholder for Mrs. F. V. Goodhart at Centre Hall. The pool will be stocked with rare fishes as soon as the acid from the concrete disappears.

A sedan driven by Harold Speicher, proprietor of the service station near Wagner's mill just south of Bellefonte, had one front fender damaged last Sunday night when it struck a large hog that had wandered onto the highway from the Roy Oylet farm along the Jacksonville road. The hog was not seriously injured. Had the car not been traveling at a moderate rate of speed it might have been wrecked by the impact.

A total of 1042 anglers, 207 less than the opening day's record crowd, were whipping the mile and a quarter of heavily-stocked trout stream at the Fisherman's Paradise on Spring Creek last Saturday. In spite of the cold damp weather conditions which made heavy clothing imperative necessary for warmth, the largest trout caught in the project so far this season was a rainbow measuring 23 1/2 inches and weighing 5 1/2 pounds.

Mr. Baughman, secretary of the Lebanon Valley Insurance Company, made an adjustment of the fire loss sustained by B. Gardner Grove on his farm barn east of Centre Hall. Mr. Baughman, a resident of Lebanon, is remarkably spry for his 83 years, and drives his own car. Mr. Grove has decided to rebuild the barn destroyed by fire, and will erect it on the old site. It will be approximately 40x65 feet in dimensions, and modern.

caped injury. The camels also went through the ordeal without injury. They stood in a nearby field seemingly enjoying themselves as if nothing had happened.

Three lions escaped. One was captured quickly and caged, another was lassoed and tied to a tree by a colored attendant of the show, but the third escaped and was captured later.

All the vehicles, chariots, wagons, etc. were destroyed. Nothing was left of the circus, and the iron and firewood. The whole train was considered by those in the business as the best equipped on the road.

Visitors to the scene witnessed many touching sights as the wounded animals cried out in pain and fright. A pitiful incident was a little week-old Shetland pony, whose mother was killed. The little animal, weighing only twenty-five pounds, was wandering disconsolately among the horses looking for its mother.

The loss to the owner probably aggregated \$200,000. The entire equipment had been purchased new before starting from its winter headquarters several months before. Notwithstanding the heavy loss sustained by Walter L. Main, the plucky showman at once secured new equipment and continued to operate his circus for many years.

freight moved through the crossing. As soon as the freight cleared the tracks, an automobile waiting in front of Ulmer started across and Ulmer followed. Ulmer's machine stalled.

Ulmer urged Mrs. Cable to jump but she was unable to get far enough from the car to be clear of its path when the engine struck it. Both Mrs. Cable and the car were thrown about 225 feet east of the crossing. According to reports, both cars proceeded across the tracks despite efforts of the flagman on the freight to make them understand that a fast passenger train was bearing down.

Mrs. Cable is survived by three children, her parents, one sister and a brother.

Subjects completed by the inmates are dairy husbandry, poultry husbandry, automobile repairing, business English, radio construction and repair, electric welding, meat cutting and curing, and informal non-credit work in music.

The work at Rockview is but a small part of the college's extension activities. At a recent count the college gave instruction of various kinds in no fewer than 225 communities throughout the state. Its agricultural extension service annually makes more than 1,000,000 contacts, and more than 15,000,000 persons are enrolled each year in various class centers.

The excitement aroused when Harry J. Kumelak, 23, dropped down a few feet of Albert Farley, 42-year-old milkman in 1918, from an eight-floor railing, at Milwaukee, brought on a cerebral hemorrhage and caused Farley's death an hour later. Kumelak, the third person to make the death leap in 11 months, died instantly.

It is amazing how many excites a light wand can give for not spending money.

PENN STATE IS HOST TO MANY CONVENTIONS

May and June are "convention" months at the Pennsylvania State College. It has been estimated that over 20,000 persons will visit the campus during these months to attend eleven conventions and several special events sponsored by the College.

Over a hundred leaders and managers of Pennsylvania's industries attended the industrial conference arranged by the School of Engineering early this month. Other May convention at the Rural Electrification Conference, at the Pennsylvania Press Conference, to be held May 26-27. The press conference is sponsored jointly by the department of journalism and the Pennsylvania Newspaper Publishers' Association.

Over 4000 persons visited the campus over Mother's Day week-end. Commencement activities and alumni class reunions are expected to bring over 6000 guests to the campus June 10-12.

Next month conventions at the College include those of the Society for the Promotion of Engineering Education, June 19-24; the Pennsylvania Millers and Wood Dealers, June 7-9; Farmers' Field Day, June 15; the Future Farmers of America, June 13-15; the Institutional Laundriesmen, June 15-16; the Town and Country Pastors, June 19-23; the Pennsylvania Water Works and Sewage Operators Association, June 26-30; and the Institute of Social Relations, June 26-30.

A Memorable Train Wreck

(Continued from Page 1)

One of the escaped girls made its way to farmer Alfred Thomas' home and entered the yard where Mrs. Thomas was engaged milking her cows. The animal leaped upon one of the cows and killed it instantly. The terrified woman screamed, whereupon Mr. Thomas appeared on the scene with his shotgun and sent charges through the tiger's head and body, ending its career.

A large blacksnake took refuge in a brush pile which attracted a large crowd. As an attempt was being made to dispatch the reptile, one of the circus women appeared and with tears in her eyes shouted, "don't kill him." Calmly walking into the brush pile she, eye-like, picked up the snake, pressed it to her bosom and walked away.

Three lions escaped. One was captured quickly and caged, another was lassoed and tied to a tree by a colored attendant of the show, but the third escaped and was captured later.

All the vehicles, chariots, wagons, etc. were destroyed. Nothing was left of the circus, and the iron and firewood. The whole train was considered by those in the business as the best equipped on the road.

Visitors to the scene witnessed many touching sights as the wounded animals cried out in pain and fright. A pitiful incident was a little week-old Shetland pony, whose mother was killed. The little animal, weighing only twenty-five pounds, was wandering disconsolately among the horses looking for its mother.

The loss to the owner probably aggregated \$200,000. The entire equipment had been purchased new before starting from its winter headquarters several months before. Notwithstanding the heavy loss sustained by Walter L. Main, the plucky showman at once secured new equipment and continued to operate his circus for many years.

freight moved through the crossing. As soon as the freight cleared the tracks, an automobile waiting in front of Ulmer started across and Ulmer followed. Ulmer's machine stalled.

Additional Deaths

MRS. JOSEPHINE RECORDS
Mrs. Josephine Records, mother of Mrs. Hershel Smith, of Pleasant Gap, died last Wednesday at the Phillipsburg State hospital where she had been a patient for 12 days. Deceased was born 32 years ago at Kylesburg, the daughter of Mr. and Mrs. Joseph Eslington. Her husband, Archie Records, died three years ago. In addition to Mrs. Smith, four other children survive. Funeral services were held Saturday afternoon with burial in the Kylesburg Presbyterian cemetery.

MRS. JAMES K. SHELAR
Mrs. Josephine Shelar, wife of James K. Shelar, of Shippery Rock, a student at Penn State, died at 20 o'clock Saturday morning at the Centre County Hospital, Bellefonte. A son, who survives, was born to Mrs. Shelar last Thursday. The deceased was born in Butler county on March 31, 1917, making her age 22 years, 1 month and 19 days. Surviving are the husband; her parents, Ralph and Mrs. Mary Ann Mackey, of Shippery Rock, and the infant son. Funeral services will be held at Butler today.

MRS. MARY J. GUSEWITE
Mrs. Mary Jane Gusewite, 75, widow of J. F. Gusewite, died at her home in Loganston last Wednesday, following a long illness with complications. She was a native and lifelong resident of Sugar Valley and for many years was a member of the Lutheran church. She is survived by two sons, R. P. Loganston, of R. F. D., and J. E. of Rebersburg; four grandchildren; three great grandchildren; two sisters, Mrs. D. N. Price of Loganston and Mrs. G. A. Bierly of Jersey Shore. Funeral services were conducted at the Morris Funeral Home at 2 p. m., Saturday by the Rev. Arthur F. Yeagy. Interment was in the Lutheran cemetery at Loganston.

MISS LOUISA E. TURNER
Miss Louisa E. Turner died at her home in Unionville at 9:45 o'clock last Thursday night after a two days' illness with pneumonia. She had not been in good health for the past two years. Miss Turner was a daughter of William B. and Elizabeth Neiman Turner and was born in Unionville, Pa., on September 30, 1873, making her age at time of death 63 years, 4 months and 18 days. Surviving are two sisters: Mrs. Harriet Askins and Miss Mary E. Turner, both of Unionville, and a nephew and niece, Raymond Snook, of near Unionville, and Mrs. Thomas Jarrett, of Pittsburgh. Miss Turner was a lifelong member of the Unionville Methodist church. Funeral services were held from the home of the sister, Mrs. Askins, on Monday afternoon, with the Rev. D. D. Kuffman officiating. Interment was made in the Oak Ridge cemetery near Unionville.

JOHN R. MEESE
Funeral services for John R. Meese, former well known Bellefonte liverman, were held Saturday afternoon from the John Rice home, South Spring Street, with the Rev. William C. Thompson officiating. Interment was made in the Pleasant Gap cemetery. Mr. Meese passed away suddenly at the Rice home, where he had resided for some years, at 7:30 o'clock last Wednesday night. Death was attributed to a heart attack. He had not been well for some time, but his death came unexpectedly. Mr. Meese was a son of John H. and Annabell Harrison Meese and was born at Potters Mills on December 24, 1864, making his age at time of death 74 years, 4 months and 23 days. He was never married. Surviving are a brother, Scott Meese, and a sister, Mrs. Elmer Gager, both of Bellefonte.

MRS. MARY ELLEN WILLIAMS
Mrs. Mary Ellen Williams, widow of the late John P. Williams, passed away at the home of her daughter, Mrs. W. T. Patton, with whom she resided at Port Matilda, at 4:20 o'clock Saturday afternoon after a nine weeks' illness with a complication of diseases. Mrs. Williams was a daughter of Jacob and Mary Spayd Spotts and was born near Martha on October 4, 1856, making her age at time of death 82 years, 7 months and 16 days. She was united in marriage with John P. Williams who passed away 31 years ago. Surviving, in addition to the daughter, Mrs. Patton, with whom she resided for some time, are three other daughters and five sons, namely: Mrs. Margaret Harpster, Mrs. Vergie Weaver and Jacob Williams, all of Port Matilda; Bernard Williams, Julian; Ralph Williams, Wardens Mark, R. D.; and J. O. and Dewey Williams, both of Tyrone. Also surviving are 40 grand children and 20 great grandchildren. Mrs. Williams was a member of the Port Matilda Baptist church. Funeral services were held on Tuesday afternoon at the Baptist church, Port Matilda, in charge of the Rev. A. G. Herr, Bellefonte. Interment was made in the Williams cemetery, Port Matilda.

GOOD ROADS BRING BETTER EDUCATION TO CHILDREN
The little red school house is fast disappearing from the American educational system and its place is being taken by the consolidated rural schools throughout the country. Teachers no longer are attempting to teach a half dozen grades in a single room as was done in the scattered little schools.

This improvement in the American educational system was made possible by the building of good roads and the development of motor vehicles. According to the American Petroleum Institute at Rockefeller Center, more than 80,000 school buses are now in use in the United States. They transport 3,000,000 children to and from 34,000 schools at an average of less than 50¢ per week per child. The routes of these American school buses embrace more than 1,000,000 miles of road.

Many a business man thinks he has the solution for all public problems, as a matter of fact, he is only concerned with the permanency of his profits.

GOOD SANDWICHES HAVE PLACE IN PICNIC LUNCH

Lunch boxes will soon cease to swing in hands of children as they turn their steps away from the schoolroom, but thoughts of the lunch will remain. Instead of school lunch sandwiches, children will demand filling sandwiches for hikes and picnics and we must satisfy their desires.

Any sandwich suitable for a picnic lunch may be used for a picnic, says Miss Helen S. Butler, home economics extension representative of Centre county. Instead of sliced bread, a bun may be used. It will hold its shape better.

An appealing, colorful filling and one which will not soak into the bread is important for the picnic sandwich. Often sandwiches may be made at the picnic instead of at home. This gives us a chance to use a mixture that could not be put in a long time before eating.

If sandwiches are made at home, wrap each one separately in wax paper, or dampened cloth and then pack carefully in the box or other container.

Day-old bread cuts more easily than fresh bread, and is more healthful. Crust gives added nourishment and also helps to hold the sandwich in shape.

Another hint for successful picnic sandwiches is to cut the bread with a sharp knife; the thickness will depend upon the type of sandwich. Spread each slice of bread with softened butter. Buttering both slices will prevent the filling from soaking into the bread and making the sandwich wet and soggy. A soggy sandwich is unappetizing and unattractive.

Almost any kind of yeast or quick breads may be used for sandwiches. White, graham, Boston brown bread, rye, nut, and fruit breads are those most often used.

Filling for picnic sandwiches should be nourishing as well as colorful and appetizing. Egg, meat, poultry, fish, cheese, and vegetables make excellent fillings. There are any number of different combinations for each of these foods. Here are a few which Miss Butler suggests:

Slices of hard cooked egg, water cress, and a small amount of salad dressing. Cottage cheese with strawberries. Jam. Any chopped raw green with salad dressing. Cubed leftover meat mixed with mayonnaise, diced celery, seasoning, and lettuce.

Additional hints for successful sandwiches and fillings are given in Circular 211, "Successful Sandwich Secrets." You may have a copy by writing or calling Miss Butler, at the Agricultural Extension Office in Bellefonte.

Walked 25 Miles to Jail
James Puburmeister, of Philadelphia, walked into the sheriff's office at Coatesville and said: "I understand you want me." He was right. The sheriff had been hunting for him with a warrant charging he failed to pay costs as he was ordered by the court to do so. He had traveled on foot from his Philadelphia home—a distance of 25 miles.

Girls may not be gorgeous or glorious, but there are men who think they are.

BETTER to the Editor

FROM FAR-OFF HAWAII
Honolulu, Oahu, T. H.
April 19, 1939.

Editor, The Centre Democrat, Bellefonte, Pa.

Sir: I have been receiving your paper for almost a year and a half, and, as I am a native of Bellefonte and Centre county, it gives me great pleasure to read the news of my home town and vicinity.

I have been in the Islands almost two years and intend to return home in July or August of this year.

Honolulu, the largest city in the Hawaiian Islands, has often been spoken of as "The Melting Pot of the World" and "The Cross-roads of the Pacific." It is truly so, since nearly every race of mankind is represented here, and this port is a stop-over for ships plying between the United States and the Orient.

We have a moderate climate here the year 'round, the Islands being semi-tropical, and not as warm as many people believe it to be.

Normally, there are about fourteen steamships and at least two clipper in and out of Honolulu every week, and I always receive your paper in about ten or twelve days.

Thanking you for the part the Centre Democrat plays in keeping me posted on the latest news in and around my home town, I remain, Respectfully,
HAROLD H. ARMSTRONG.

100-MILE LIGHT FLASHES FROM RCA BUILDING ROOF
From atop Rockefeller Center's 280-foot RCA Building flashes nightly the most powerful searchlight in America.

This light, employing mercury vapor arc lamps, is a further development of those lights especially built by Westinghouse engineers.

EXTRA PROFITS

The difference between selling stock "for what you get" and selling it after you have telephoned the markets and found your buyer, often amounts to many dollars.

For example, one farmer called a long buyer in the morning. He liked the price and closed the deal over the telephone. Later he found that had he waited to go to town at noon, the price would have been 10 cents a hundred less.

It pays in good hard cash, to use your telephone to find your markets!
