The ordinance was suggested some time ago by Borough Solicitor M. Mr. Harvey was graduated from the Bellefonte Academy in 1928, took a post graduate course at Deerfield Academy in 1929, 1930, and 1931, and the University of Pennsylvania law school in 1936. He was admitted to practice in the Centre County Courts and in the State Supreme Court in December 1936. While in college he was a member of Beta Theta Pi social fraternity, the John H. Johnson Law Club and the Order of Coif, both professional fraternities at the University of Pennsylvania. 3000 COURT CASES MAY BE REVIEWED Former U. S. Circuit Court Judge Martin T. Manton's conviction at New York as a bribe taker has raised the unprecedented possibility that the 3,000 cases in which he participated in his 21 years on the appellate bench might be reopened for review.

Loosing litigants have already filed petitions to reopen five cases since Manton was indicted. Lawyers familiar with federal procedure said there was no existing legal machinery to cope with a task of such magnitude as a review of all cases in which Manton acted, such an inquiry, involving hundreds of litigants and millions of dollars, might take months or years to complete.

Freight Train Begins Test Run

(Continued from Page 1)

ments can be made in the construction of freight cars was made last Thursday morning between Altoona and Lock Haven. This was merely a test run and no special speeds were attained. It is reported.

Saturday they brought the outfit over the same 156-mile route, and unofficial reports have it that they reached a peak of 90 miles an hour on that test.

Tuesday the train was scheduled to do the 78 miles between Altoona and Lock Haven in 84 minutes, with a five-minute stop in Milesburg. In other words, the train was given "79 minutes" running time to cover 78 miles, and it reached Milesburg on schedule on both trips.

Within a short time the association will conduct five or six tests a week over a period of time expected to approximate a year. The train consists of two cars equipped with special freight car trucks for test purposes and two American Association of Railroad cars, with a passenger coach bringing up the rear.

The purposes of the tests are to bring about; still greater improvement in safety on the nation's railroads; continued improvement in service to the public by expediting still further the movement of freight; reduced maintenance, both to equipment and roadbed, and increased efficiency in operation. The tests are under the direction of W. L. Cantley, mechanical engineer, mechanical division of the association.

W. E. Gray, engineer of draft gear of the association, is in direct charge of the tests.

Railroad freight car manufacturers located in various parts of the country have turned over to the association about a dozen different types of freight car trucks for testing purposes. Each one will be given a separate and thorough test under varying conditions, both as to load and as to speed.

During the days when test runs are not made, the time will be devoted to installing the various freight car trucks and to making changes in the load of the cars used in the test runs.

The train is drawn by a model K-4 passenger locomotive, which is in general use. It has four large driving wheels, giving it exceptional speed. During the stop in Milesburg, members of the test train crew examine the trucks and other running gear to determine whether it is overheating or otherwise proving unequal to the strain. So far, it is reported, everything has been progressing most satisfactorily.

While speeds up to 100 miles an hour are no rarity for main line and streamlined passenger trains, few freights ever attain such speeds and never on branch roads. The Bald Eagle Valley has been practically rebuilt to assure safety of operation.

620 Ride on BCRR Excursion

(Continued from page one)

lers" passed through the cars continuously distributing refreshments to the travelers over the historic 19-mile route.

Capturing the imagination of old and young alike, the excursion idea met with greater popularity here than had been expected. On May 10 when a similar excursion was run from State College to Bellefonte and return, a total of 515 passengers were carried. Bellefonte's total was 105 in excess of that number.

Seven full-sized Pennsylvania Railroad test passenger coaches and the BCRR's combination coaches were crowded to their seating capacity. Two additional coaches were available, but were not needed.

Passengers vied with each other for a place on the rest platform of the last coach, and from every window heads peered out upon what to most of them was strange scenery. None of the youngsters had ever before been over the Bellefonte Central's right-of-way and many of them had never before ridden in a train.

Most persons on the trip got a new conception of the Bellefonte Central Railroad. There were no stops while cows were shooed from the road; the conductor did not halt the train to gather a mess of dandruff; the engineer did not stop to visit with his cousin Charlie, up Waddle way.

After passing through the Bellefonte yards, and parking two extra coaches near the Bellefonte Central roundhouse at Coleville, the train got under way and jogged at a steady but steady pace through Buffalo Run Valley, around the scenic "Horseshoe Curve," across the Barrens and into State College.

The ride was smooth and the starts and stops were without the soul-rending jerks which have long been associated with word-pictures of rides in "Parky's Boat."

At State College the special was met by a reception committee from the Commerce Club, and by dignitaries of Penn State, who had prepared a series of tours through the college grounds and buildings. Most persons availed themselves of the tour, itineraries of which were furnished on mimeographed sheets distributed in the train shortly after it left Bellefonte. A few passengers spent the two-hour stop in State College with relatives and friends. The children—most of them enjoyed games and contests at New Beaver field.

The Bellefonte High School Band in full uniforms, occupied one coach, and during the trip to and from State College, members of the band visited the other coaches to provide music.

Aboard the special were a number of dignitaries, including the following: C. S. Wesley, of Philadelphia, president of the Bellefonte Central; T. D. Geoghegan, of Washington, D. C., traffic manager of the road; Claude Wagener, Philadelphia director and member of the executive committee of the BCRR; S. E. Resley, Superintendent, and Frank Steele, master mechanic of the Huntingdon and Broadtop Railroad; Wilbur F. Leitzel, Burgess of State College; Ross Edmiston, President, and Henry Elder, member of the State College Commerce Club; Mayor Hardman Harris, Bellefonte; George E. McClellan, vice president and general manager, and Earl Cartwright, assistant treasurer of the railroad; E. L. Plumb, president, and Karl Kusse, secretary of the Bellefonte Chamber of Commerce; and Harry D. Zuerch, George Young, J. H. Smith, James Williams, Blair Davis, Clifford Hess and wife, James Green, Joseph Wagner, Les Tice, A. B. Everett, Helen Smith, Greig Watson, Mr. and Mrs. Geo. Shuey, Mrs. J. E. Dubbs and Philo Shoencker.

Members of the train crew were: Harry McMurtrie, engineer; Boyd Thomas, fireman, and John Neese, conductor. Reuben Cronmiller, repaired maintaining water in the train and regaled newspapermen with tales of the days when the Bellefonte Central was the chief means of transportation between Bellefonte and State College.

Owing to some slight delay in leaving Bellefonte, the excursion did not reach State College until shortly after 3 o'clock.

who is judged as being most likely to succeed in future life. As a matter of fact, the prize list hasn't been completed at this time, but there will be a dozen or more awards given to the contestants upon an equal basis.

Judges will probably be out-of-town residents, who have no speaking acquaintance among this community's younger element.

The baby show will be conducted along informal lines. Babies and their mothers will assemble at the show place, to be announced later.

Refreshments will be served. An entrance fee of 25 cents will be charged for each baby, and each specialist will be charged 25 cents admission.

Any baby, five years old or younger, is eligible to be entered, regardless of the place of residence of its parents. In lack of the Service League extends a hearty invitation to all Centre County mothers to enter their young hopefuls in the contest, pointing out that in an affair of this kind, the old saying "The More the Merrier," is particularly fitting.

Entry blanks will be released, at places to be designated next week.
