Turn portation policy.

In the legislation that has been slices of egg. so advanced, it is quite definite that regulation has been increased, whereas many interests believe that transportation is now over-regulated and that a program of relaxation to be said for this point of view, ped. but if the provisions of the Senate and House bills can be resolved in conference and agreed to by both houses early in January, there will then arise the opportunity to consider relaxation without prejudice, ents in the order given. Shape as since all competing services will desired. Fry in hot fat, have been brought under the same regulatory restraint.

REINFORCE TREES TO HOLD UP HEAVY LOAD OF FRUIT

Many apple trees in Centre county require bracing to prevent their breaking under the heavy load of fruit, says County Agent R. C. der. Beat well. Blaney, although this is not an ideal season for the work.

It would have been much easier to do the work before the weight of the fruit spread the tree. However. if it has not been done earlier, it will be much easier and more prof-Itable to brace the tree now than repair it later. It is impossible, in many cases, to repair a split tree. which often results in a considerable loss.
