In the closing days of the present campaign for nomination for county offices it is quite clear to the Republican voters of the county that Clyde Lee is the logical man to lead the ticket for County

Commissioner Having spent many years of the farm he is familiar with the problems of the rural tax payer. He knows full well what t means to pay heavy taxes. for he paid them himself and continues to pay them. The farmer is entitled to a reduction of the expenses of running the County because it is only by such reduction that the taxpayers can get relief from the present overburden of taxes. Clyde Lee is pledged to work for such a reductionwaste and extravagance on the part of those who have the business affairs of the county in hand only increase the burden of the taxpayer.

As an active representative of the raim bureau Mutual I Company, Mr. Lee has had a wide business experience which has brought him in close touch with the people. In the towns of the

county where he has worked he is well and favorably known Mr. Lee's active campaign has enabled him to meet many of the voters and talk over the political situation with them. Wherever he has gone he has been well received. It is impossible for any candidate to meet all the voters personally and Mr. Lee wishes to thank all those who have extended to him so many courtesies as he has traveled about over Centre County seeking votes and to ask those whom he has been unable to see personally to support him Septem-

ber 12th, for the Republican nomination for Commissioner Mr. Lee believes that every township in the county of Centre should have fair and equal consideration with every other township in matters handled by the Board of Commissioners which directly affect the conduct of township affairs.

Furthermore, Mr. Lee believes, that the job of Commissioner is a full time job and that it can only be handled properly by the Board so considering it. With Mr. Lee it will be a full time job. Let Clyde Lee have your vote on September 12th.
