## Important Statement From A&P **About War Days and Food Prices**

& P's policy will remain unchanged. That policy is simply this-A & P will provide good foods at lowest prices possible. As always, we will operate our stores and markets with the interest of our customers principally in mind. We know the hardships that increased food prices can bring to countless families. Therefore, our prices will be adjusted only to the extent that is absolutely necessary.

If owing to the laws of supply and demand, the price of foods

e purchase moves upwards, obviously we will have to higher cost and change retail prices accordingly.

You have our assurance, however, that A & P's margin of profit will continue to be very low and normal in every respect. Thus, we pledge to you and our six million loyal customers the best efforts of our widespread organization to keep our prices as low as sound business judgment will permit.
