

Council Approves Building Plans

(Continued from page one)

over the marquee of the Brockerhoff Hotel. Vincent Flynn and Alexander Haag were approved as drivers for the Mack quadripole combination of the Undine Fire Company; authorization was given for the purchase of a new uniform for Officer Donald Johnson, and the Fire and Police Committee was instructed to ask for bids for new tires for the Undine's Mack truck. The present tires on the truck at the time it was purchased 10 years ago, are unsafe because of age.

In a letter read at the meeting a Glennide resident who recently spent a night in a local hotel, complained about the noise on Bellefonte streets at night. He claimed that from 8 to 11 p. m. and again at about 3:15 a. m. when a midnight show dismissed, the noise was so great that he and his party were disturbed. He claimed that shouting, and the sounding of automobile horns was most annoying. Several Councilmen admitted that there is considerable unnecessary noise at nights, but no official action on the letter was taken.

James Marshall, borough dog catcher, asked to be considered as an applicant for the position of manager of the sewage disposal plant.

The Street Committee reported that with cars parked at an angle with the curb on both sides of Howard street, as is the case on Wednesday and Saturday nights, it is impossible for two lines of traffic to pass on the street, and it also is impossible for apparatus from the Logan House to answer alarms. The matter is to be investigated.

That part of the Phoenix Mill which until recently was occupied by the State Motor Police mechanical unit has been leased to the Elmer Decker garage on the same terms, it was reported. The Street Committee was authorized to have a large dead tree in front of the Mrs. Lunger Wion residence, East High street, removed.

The secretary was instructed to ask Bellefonte school officials to provide some kind of protection for school children at the intersection of Lumb and Water streets. It was reported that children, many of them 6 and 7 years old, run across Water street with no heed for traffic and that several accidents there have been narrowly averted.

The report of the Health Officer, submitted by the Sanitary Committee, showed that there are no communicable diseases in Bellefonte, and no quarantines in effect at this time.

The Finance Committee reported as follows: Borough Department: balance \$349.58, and bills, \$2,707.51. Water Department: balance, \$1,594.92, and bills, \$396.20. Arrangements were made to take care of the deficit in the Borough Department.

The Finance Committee was instructed to ascertain the condition of the account between the Borough and County Commissioners for the rental by the county of the Borough Poor Home, on South Porter street.

A budget report submitted by Councilman Henry Brockerhoff, indicated that the borough is operating well within the budget requirements. A slight deficit in the Health and Sanitary Committee was caused through the transfer of funds to another department. The shortage will be remedied by a transfer from an account in which there is a surplus, it was reported. The budget summary follows: Borough: annual budget, \$5,590; expended to date, \$2,321.38; balance remaining, \$3,268.62.

Fire and Police: annual budget, \$8,985.88; expended to date, \$4,929.82; balance remaining, \$4,056.06. Highways: budget, \$18,623; expended to date, \$10,439.91; balance, \$8,183.09.

Health and Sanitation: budget, \$1,610; expended to date, \$1,633.42; overdrawn to date, \$53.42. Miscellaneous: budget, \$1,550; expended to date, \$654.90; balance, \$895.10.

State Officers To Address Clubs

(Continued from page 1)

Mrs. Magee, during the first year of her administration, led to a successful end a campaign for syphilis control legislation in our state, and she will talk of the method of education necessary to make this legislation effective.

Mrs. Gougler, whose experience in club activities has been wide and varied, will preside at the Bellefonte meeting. All club members of the entire Centre County Federation are urgently requested to attend this meeting which promises to be of interest and benefit to everyone.

Clear Docket As Criminal Court Ends

(Continued from page 1)

tion of the firearms act and was placed on probation for three years. The charge resulted from the fact that police found a revolver and some shells in Dunkle's car at the time of his arrest. He had no license to carry the weapon.

Charles E. Powell, of Blandburg, was acquitted by a jury of a charge of false pretense. Powell, it was charged, sold a mine mule to Thomas G. Braith, of Phillipsburg, and although a money-back guarantee was given with the mule, Powell failed to live up to the agreement when Braith found the mule was deaf. Costs in the case were divided equally between Powell and Braith.

Ray B. Henry, of Pine Grove Mills, was found not guilty of drunken driving but was directed to pay the costs of prosecution. Fred Oberer, of Half Moon township, charged with larceny by bailment, was acquitted by a jury. Oberer was said to have refused to return some property of a relative who has lived at the Ghaner home for a time.

Arthur Gearhart, of Pine Grove Mills, was found not guilty of a charge of molesting an officer in State College borough, but was ordered to pay the costs of prosecution.

A not guilty verdict was returned in the case of Emer Fike, of Phillipsburg, who was charged with larceny by a Phillipsburg service station.

A jury found Ernest Tate, of Bellefonte, guilty of a charge of drunken driving and he was sentenced by Judge Walker to serve 30 days in the county jail, in addition to paying the costs of prosecution. Thomas Carson, of Ocochea Mills, found guilty of a charge of assault with intent to ravish, was directed to pay the costs and to serve 60 days in the county jail.

Robert Hockenberry, of Milesburg, entered a plea of guilty to a charge of larceny, and was sentenced to pay the costs, to make restitution of the items taken, and to undergo probation for three years. Ira Robinson, of Howard, pleaded guilty to a charge of larceny and was sentenced to pay the costs, make restitution, and to undergo probation for three years.

Other cases on the docket, disposition of which was reported in last week's issue of The Centre Democrat, are summarized below: George Howard, Bellefonte, violation of vehicle code, plea of guilty, sentenced to pay the costs and serve 30 days in jail; John Klett, Ehrenfeld, plea of guilty to statutory charge, usual sentence for support of child; William Rhinehart, State College, plea of guilty to charge of indecent exposure, costs and 30 days; Jay Williams, Port Matilda, plea of guilty to violation of firearms act, costs and \$10 fine; Norman E. Blankman, Lancaster, plea of guilty to operating car without owner's consent, costs and fine of \$100; Mrs. Fred Johnson, State College, fraudulent check, not-prosecuted upon making restitution; George O. Anderson, Bellefonte, obtaining money or relief falsely, not-prosecuted upon making restitution; B. Byron Leathers, Howard, was found not guilty of a drunken driving charge, but was directed to pay the costs.

Chapters Observe Constitution Day

(Continued from page one)

can Creed and the singing of the Star Spangled Banner, and requested the members of the different visiting delegations to stand for a moment in their places. She then introduced the officers of these Chapters and called attention to the bouquet of white flowers in the center of the speakers' table placed there in memory of Frances E. Willard who was one of the organizers of the first Chapter Daughters of the American Revolution in Chicago. Mrs. W. A. Broyles, a member of Bellefonte Chapter, then gave some of the highlights of Miss Willard's life in a very pleasing manner.

The meeting was then turned over to the Sons of the Revolution, of which Judge M. Ward Fleming is vice president. He then introduced Mr. John Wilson, of Lewistown, a soloist, who rendered three fine selections. After this, Judge Fleming called upon the speaker of the evening, Rev. J. W. Claudy, Chaplain of Rockview Penitentiary, who held the rapt attention of the audience in a very fine and timely address on world conditions and our privileges as American citizens under the Constitution.

After the singing of one verse of America, the meeting adjourned.

Swengel Smith Scores Hole-In-One

(Continued from page one)

he scored the triumph to which all golfers aspire, but which only a few ever attain. Teeling off, Smith clouted the ball for a beautiful drive to the green 156 yards distant. The ball landed on the right side of the steeply-banked green, and looked as though it would roll over into a trap, but instead circled around the bowl-like plot and rolled into the cup from the back. It struck the pin and dropped into the hole for a perfect shot.

His score card was endorsed by all his fellow players who witnessed the spectacular shot, and was sent to the State Golf Association, which has a standing offer of a gold golf ball trophy to any Pennsylvania golfer who makes a fully accredited hole-in-one.

What is the use of a man staying in his office if nobody comes to his office?

Milk Producers to Vote Secret Ballot

(Continued from page 1)

in on time." Mr. Harmon said all ballots returned to his office at 95 Madison Ave., N. Y., must be in envelopes postmarked on or before 11:59 p. m. September 21 if they are to be counted in the referendum.

Ballots together with copies of the amendment to the Federal State orders have been mailed to dairy farmers in New York, Pennsylvania, New Jersey, Connecticut, Massachusetts, and Vermont who produce milk for the New York marketing area.

Producers who are not members of a cooperative or who belong to a cooperative which has elected to have its members vote individually may cast individual ballots in the referendum. Qualified cooperatives have the power to vote for their members if they so choose under the State and Federal laws governing the issuance of orders for milk markets. Producers who are eligible to vote but who have not received their ballots by Monday may get one by writing immediately to Mr. Harmon, it was explained.

The amendment on which producers will vote provides for the following minimum prices, handlers would be required to pay for each class of milk for any month up to May 1, 1940.

For Class 1 milk \$2.22 per hundredweight, an increase of 57 cents over the Class 1 price of \$2.25 now in effect under the Federal State orders on the basis of the price of butter.

For Class 2-A milk—1.06 per hundredweight, an increase of 35 cents from the August price of \$1.50 under the orders.

Class 2-B and Class 3-B would be increased by 30 cents per hundredweight over existing prices under the orders. To encourage increased consumption of milk among low-income families and at the same time provide farmers with a more remunerative outlet for surplus milk, the amendment provides for a special price of \$2.25 per hundredweight for Class 1 milk sold or disposed under any approved program which requires payments from Federal funds.

Approximately 60,000 farmers in the six states produce milk for the New York marketing area. Producers of milk located in the State of New York will mark two ballots, indicating on one whether they approve the issuance of the amendment to the Federal order, and on the other their approval of the amendment to the New York State order. Producers of milk located outside of New York state will vote only on the amendment to the Federal order.

Giddap, Dobbin, There Goes the Fire Siren

(Continued from page one)

fore the fire had reached uncontrollable proportions. After that the Fire Department strongly recommended the purchase of a new alarm.

But Council likes the old one. Monday night the Fire and Police Committee reported that an expert electrician had inspected the siren and found that because the siren is sounded so infrequently the oil drains off the bearings, causing the failures. He suggested that when the siren is tested on Saturdays, the switch should be closed only for a short time so the bearings won't get too hot. (The practice now is for the exchange girls to close the switch for a period of about 20 seconds or less.) In the winter time the siren should be sounded more frequently for shorter intervals to keep the bearings properly oiled, the expert said.

One Councilman's reaction to this report was summed up in a statement to the effect that even though the siren is 23 years old, it has not been used much and should be good for more use. Suppose you had a 1916 model automobile, which you had used only once a week for short drives—or which you had parked in your garage the day you bought it and had never used it since. Would you depend upon it to rush your ailing child to a hospital? Would you crank up the old bus to take your family to safety in time of flood? Would you, even, take your family for a Sunday outing in the j-lopy?

You would not! And yet Council apparently would have the lives and properties of all Bellefonte citizens placed in the senile machinery of a decrepit, undependable fire siren which was beginning to age when our soldier boys returned from the World War.

Electric motors, like automobiles, have improved since 1916, they say. They even have motors, nowadays, with enclosed bearings which never need lubrication after they leave the factory. Siren manufacturers, no doubt, have kept pace with the times.

But Council, which still likes the old siren, did nothing Monday night.

Someone did suggest that they might give the old mousetrap atop the jail roof an extra shot, of oil once in a while.

GOVERNOR GRANTS RESPITE TO SEVEN CONDEMNED MEN

Governor Arthur H. James has granted respites to seven condemned murderers whose clemency pleas scheduled to be heard by the Pardon Board this week, were postponed until October 18. The respites:

Paul Ferry, Erie county; Willie Bailey and Ira Redmon, both of Philadelphia, from September 25 to October 23. Walter Tankard and Charles E. Golden, Philadelphia, from October 2 to October 30. James Fuller and Fletcher Legend, Philadelphia, from October 9 to November 6.

Seek \$80,000 In Damages

(Continued from page 1)

Hamilton car made a right turn off the road without any signal to the car in the rear, and as a result the Flynn car struck the car in which the Jennings were riding.

Flynn is set forth to have been traveling at a high and dangerous speed under the circumstances; did not have his car under control, the machine had faulty brakes, and there were three other persons in the front seat of the coupe in addition to the driver. Hamilton is said to have been careless and negligent in that, among other things, he made the right turn without warning or signaling the car behind.

Emma Jennings, the statement continues, suffered bruises, contusions and lacerations of the head, face, neck, back, legs and other parts of the body, some of which are of a permanent nature. She also suffered permanent disfigurement of the face and head, and suffered permanent injuries of the nervous system. She has spent large sums for medical treatment, it is alleged.

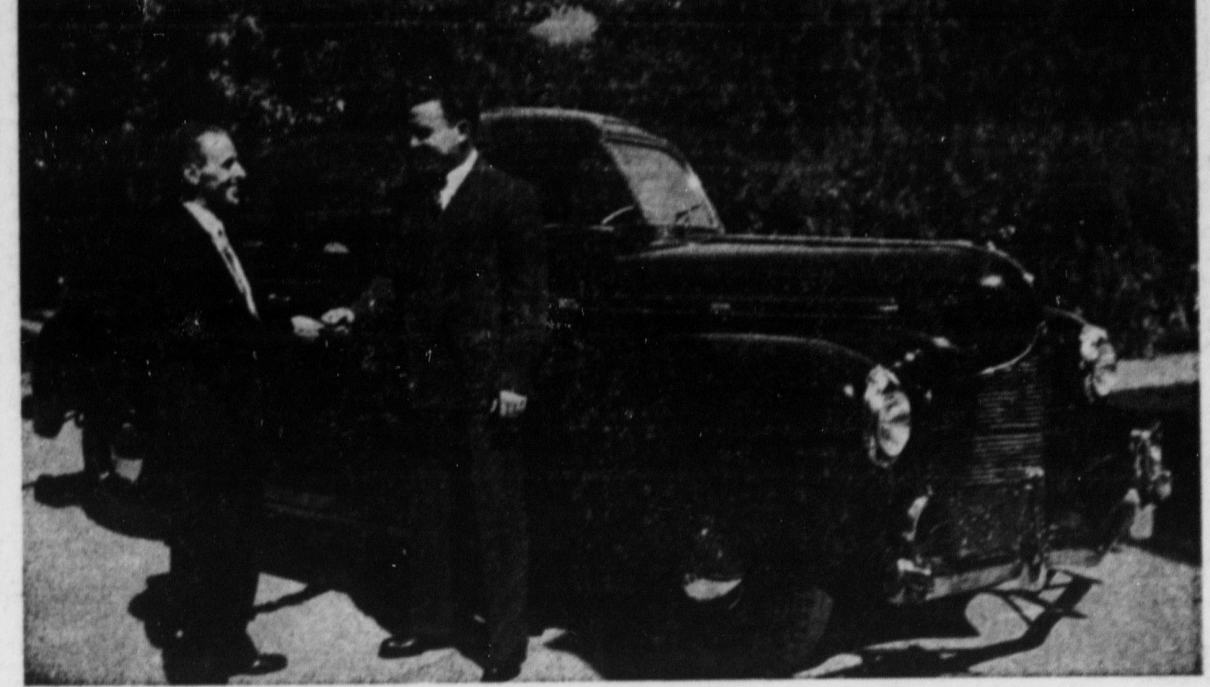

Mr. Jennings' claim for \$10,000 is based on the fact that he was deprived of his daughter's services, association and society because of her injuries. His car was damaged to the extent of approximately \$425.

Fleming & Litke, Bellefonte law firm, represents the Jennings interests in the matter.

The man who is too busy to take care of his health will soon have little health to care for.

The human race is not composed of identical specimens and you can't treat everybody alike.

Motor Police Officer Buys First 1940 Dodge

In the above photo Russell Goodhart (left), salesman for the Decker Motor Company, Bellefonte Dodge and Plymouth agency, is seen handing the keys of the first 1940 Dodge sold in Bellefonte to Private Howard R. Hancock, of the State Motor Police station at Pica and Gap. The machine in the background features many new improvements in design and continues the Dodge reputation for sturdy construction and trouble-free performance.

Husband Causes Accident

When Carl Moeller, of Buffalo, whose wife was driving their car, feared she would not be able to make the sharp turn at the approach to the East Troy bridge, near Canton, he grabbed the wheel and gave it a sharp twist. The car veered across the road, missed the bridge and dropped 20 feet to the creek bed. Both were injured, the husband suffering a bad lip laceration and a fractured jaw, and the wife fractures of left leg and left arm, and severe scalp lacerations. They are patients at the Robert Packer Hospital, Sayre.

Religion is something to live; not an issue to be debated.

Exciting new mystery story of a young man who found love, fame and fortune under the weird spell of an ancient talisman. One of many features in The American Weekly, the big magazine distributed with the Baltimore Sunday American. On sale at all newsstands.
