Local Industries On Upswing
(Continued from Page 1)
Carloadings in the Bellefonte area showed a sharp increase in September over the total for August. Last month a total of 878 cars were loaded and shipped from Bellefonte in comparison with 711 during August. Similarly, in-bound shipments showed an almost proportional increase. In September the total was 316 cars, while in August the inbound cars totaled 246. Car loadings are conceded to be one of the best indications of general business conditions. Railroad officials yesterday said that there is no indication of a slump in the general trend.

Mixed Vegetables.
