

# WE PROMISE!

If elected, a businesslike, honest, and economical administration of your County government.

To bring to the management of the County the same careful, sober, dependable administration we have used in our own personal business dealings.

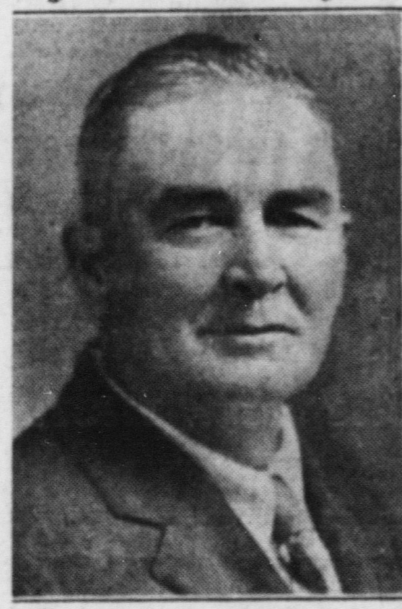

We do not seek to step from one important County office into another important one — none of us is seeking re-election. We entered the campaign with clean hands, and are under no obligations to any past or present administration.

We are prepared to begin with a clean slate — and we are pledged to give as economical a government as is consistent with the proper conduct of the County's business.

Your vote can help! Your vote can return to the Court House the same time-tried, sound principles that you would expect to be used in your own business!
