Joe Stalin is said to be irked at the failures of the Finns to let themselves be conquered.

The Finns will probably be the first nation in the history of the world to lose a war through too many victories.

Maybe if the Congressmen cut the farmers this spring, the farmers will be able to cut the congressmen this fall.

About the only time some of the men folk in Bellefonte go to church is at their funeral. This is, perhaps, a bit late.

The interests which raise the cry, "keep the Government out of business," are not concerned with the welfare of the people, but with their own profits.

As an economy measure, the Danes hurled turnlps instead of hand grenades at their war games. Maybe a little thrift among belligerents would simplify things.

"The Devil Wagon is a good name for the automobile. It is a dangerous plaything. More than 270 persons have been killed the last year in automobile accidents," The above words were printed in a newspaper just 30 years ago. The automobile may have ben considered a plaything at that time, but today it has become a necessity. Yes, it is still dangerous and thousands of people are killed every year in automobile accidents. But, wouldn't it be a strange world without them?

reveal them, and the farmer, in whose defense probably the Congressman takes his stand, would be the leading beneficiary of such a trust-busting trip.

Active man and any

Approximately \$255,000,000 in dividends were declared in January-the largest for that month since 1938-by 964 corporations. Public utilities led the list, with dividends totaling \$44,603.919. Not bad for a poor country.

An engineer on Pennsylvania's "dream high-way" says that road is designed for "comfortable, safe driving at 100 miles an hour. No red lights; no cross roads; no interruptions to the free flow of traffic." From an engineering viewpoint he may be entirely right. But how are we to equip drivers with thinking apparatus that will work as fast as a car moving 100 miles an hour?

According to a survey of the American Institute of Public Opinion, of which Dr. George Gallup is director. President Roosevelt and the Democratic party still remain the favorites for the Presidential election this year among labor union members, although he is less popular than he was in 1936. The test vote was 59 per cent for and 41 per cent against the Roosevelt administration.

Probably few persons know that church property not used for religious purposes is liable for taxation, Judge Thomas stated the fact in a ruling in Pittsburgh court last week, rejecting the appeal of a church in that city from an \$8000 assessment on a vacant lot adjoining the church, declaring the lot was not used for religious purposes despite the church's contention it was necessary to insure light and quiet for services.

Joe Louis is still sitting on his heavyweight throne but he's a disgusted, bewildered king and his crown is as tarnished as the three balls on a bowery pawnshop. He's disgusted because he falled to stop, or even floor, Arturo Godoy, a Chilean with an iron jaw and a cream puff hand, in 15 ludicrous rounds in Madison Square Garden last Friday night. And he's bewildered because for the first time in his life he heard a crowd roar out the Bronx cheer over his poor showing and the split decision that saved his title. The only one hot disgusted with the whole affair is promoter Mike Jacobs into whose till 15,657 customers poured \$88,523 for the privilege of seeing a bout that might well have aroused the envy of a Hollywood script writer.

The more we see of some movies the more we wonder where they get their inspiration and just what the idea is. In nearly forty years' newspaper work the writer has come in contact with many reporters, both of the city and the country newspaper. In all those years we have never met up with any of the type regularly typed by the movies-the drunken bum type ready to sell out their paper for a song. We know, of course, that the life of a reporter is a wearing, tearing job, but we have never encountered a reporter who didn't keep himself in condition to handle one of the most difficult jobs there is to handle, if the work is to be done competently. It is about time the movies come to their senses on the subject, but that is possibly too much to expect.

Jim Terrance, Republican State chairman, will

find himself sitting out on the political sidewalk if John A. Derenzo, Altoona publisher and candidate for the Republican nomination for U.S. Senator, has his way. Derenzo announced last week that if he is nominated he will ask for the removal of his party chairman. He declared: "If I am nominated for the office of United States Senator on April 23, I shall immediately ask for the removal of James E. Torrance. His actions do not justify retention in office. The member of the Republican state committee did not grant the chairman authority to meddle into choosing candidates and using the facilities of the Republican state headquarters for furthering their selfish motives. Today the American people aim to eradicate dictator policies and not foster them. The Republican party in Pennsylvania can do without

# THE CENTRE DEMOCRAT. BELLEFONTE, PA.

## Fate of a Girl Reporter (Smokehouse Poet) Nina went out to report a fire, But two there proved to be instead,

The weather went down to sub zero And she nearly froze, 'tis said. Now Nina's long suit was red flannels,

But she'd left 'em on her bed. Covering two fires failed to thaw her, Mayle 'twasn't only her face was red.

## Taken For a 'Buggy' Ride

Izzy was seated in a coach of a train enroute to Danville, Looking across the aisle he saw a cop seated beside a wild-cycd fellow who had his hands hand-cuffed behind his back. Izzy leaned over and asked the officer what was wrong with his friend.

"He's bugs," the officer answered.

Evidently Izzy did not understand and again he asked what was girl and yourself, the better off you ong with his fellow companion.

"He's nuts," snapped the cop, in a most emphatic manner,

Even Izzy could not understand the cop's language and for a third time he queried the officer.

"He's crazy, and I hope you understand that," was the sharp reply,

"Oh," said Izzy, a light dawning upon him, "No vonder he's crazy, Vid bugs and nots, and his hands tied behind his back. I say, who vouldn't be crazy?"

## So That's How It Is

Two colored boys who had been pals died the same day. One of them went above and the other down below. The devil's rookie phoned his Dear Louise: friend in the clouds not long after and asked: "Say, Sam, whut's it lak up dere?"

"Oh," came the reply, "it ain't so bad. Ah polishes off de sun, Ah dusts off de moon, and Ah hangs out de stars at night, an' pulls 'em in de nex' mawnin'.'

"Boy," said the other, "it ain't nuthin' lak dat down heah. We shoots craps, we play cards, an' de gals hugs an' kisses us between deals. Shucks-wheah yo' are-dat's work."

"Guess yo' is right," niftled the dark angel, "but we's awful short and be treating my wife wrong if I of help up heah."

#### A Smart Dog

A family purchased a new-dog, recommended to be a super-intelligent animal and well trained in the matter of house conduct.

The first time they left it alone in the house they found the dog on the davenport when they returned. The animal was punished.

The next evening the dog was left alone again in the home. When the family returned, he was sitting in front of the davenport-but the davenport was warm to the hand. So the animal was again punished.

The next evening, left alone again, upon the return of the family, they found the dog sitting in front of the davenport, blowing on it.

# Innocent Though Guilty

A certain professor hadn't married until quite well along in life. year or so after the event he became the proud father of a lusty boy. The following morning, as he entered the classroom, members of the class rose and cheered. The professor was puzzled. He didn't associate the cheering with the addition to his family,

"Young men," he queried, "am I to understand that I am-er- the innocent cause of this demonstration?"

As the cheers redoubled in volume, a voice rang out from the back of the room: "We're hoping you are, sir."

# Gone With the Wind

The talkative workman was in conversation with an admiring audience in one of the local stores the other day. He was explaining that even in his job, which people might think dull, there was sometimes quite a lot of excitement.

# Louisa's Letter

## Dear Louisa:

loves me. He has dates. I don't think he cares anything about me. He wants me to come back to him. I can't trust thim. What would you do about going back to him? Lonesome Worried Mother. Alabama:

ANSWER

Car Marchan

Why did he leave you? It i hard for me to advise you what to do without knowing all the circumstances of the case. However, if he goes with other women and you feel sure that you cannot trust him, it seems to me that you are well rid of a worthless man and the sooner you start out to make something of your life for your little will be. Does he support the little girl? He certainly should and the law of most states will require him to do so if he left you without legal cause

I would think a long time before I went back to a man who left me while I was so young. What will he do when you are old and have several children?

Good luck. LOUISA

I am a man of 21. I have been married only one year. I am stay-

ing with my mother. I have my own furniture and I want to move by myself because my mother

all can't get along as we should. I want to move but I feel like if I do. I will be treating my mother wrong.

don't move. But if I move my mother won't

have any furniture but her bed room suft. She is working just like anybody else, so what would you

advise me to do? A FRIEND North Carolina.

## ANSWER

You poor thing, you are certainly in a spot: You love your wife and mother, and they both love you. but the three of you are too much for one house and happiness, as is usually the case when two out of three people in a house are women.

Your mother probably thinks she is very kind to your wife and your with a lot.

helped you buy? In the latter case,

The best thing, I think, is for Gardiners Island, N. Y., in June, 1914, was found dead at the same place you and your wife to live by yourin June, 1935. One of the oldest birds recorded in the past few years selves, for a while at least. Couldn't was a 17-year-old Louisiana heron, which was banded at Avery Islands your mother rent a room and the La., in August, 1920, and retrapped at the same place in January, 1937.

use of the kitchen from some L. P. B .- What is the earliest date on which Easter has been obfriend? Or if she owns her own home, she could reserve what she

Ans .- In 1818, Easter Day occurred on March 22, the earliest posneeds and rent out the rest or, if sible date she works, she could board, furn-

M. L. H .- Does the United States Army execute criminals by shooting ishing her own room. You could go to see her often and have her or hanging

Ans .- The United States Army uses hanging as the method of ext. over occasionally to spend a night Why. I can remember one time when a gas explosion tore up one or day with you, and I imagine you cution. The practice of carrying out a death sentence by shooting was would all think more of each other discontinued about the time of the Civil War. then than you do now. L. T .- What governor receives the highest salary? Did you buy your own furniture Ans .- The Governor of New York State, Herbert Lehman, receives or is it some that your mother a salary of \$25,000 a year.

Courses and the manual and

# PROBLEM: A lady in a small town in Pennsylvania desired to correspond with a friend in a small town in Illinois. She posted the letter on a train at the railroad station. However she thoughtlessly addressed the I am a woman of 21. I am mar-resed. My husband left me. We have a little girl. He says he still partment.) letter to San Francisco. It was delivered to the friend in Illinois without

B. N .- If a young man asks a young lady to "carry her to a show," what docs he mean?

Ans .- He simply means that he wants to "take" or "escort" her to a how. The expression is provincial, and is almost wholly confined to the Southern States of our Union.

L. D .- Will you please tell me how the value of a diamond is determined?

Ans .- The color is the most important thing. Diamonds of the finest quality are colorless, perfectly clear are said to be of first water, Some varieties are green, red, orange, yellow and blue. The most valuable are those in which the tint is decided and equal throughout; the commercial value is affected by the slightest tinge of a different color. The way a diamond is cut is also important.

S. W .- What is the origin of the American "dollar?"

Ans .- The name "dollar" originally came from the word "thaler," a coin which originated in erstwhile Bohemia in 1519, and was widely med in central Europe for many years afterward. But the coin itself was taken from the Spanish peso; which was the common unit of exchange in the West Indian trade in colonial days. Then it was called the Spanish dollar. In 1792 the Coinage Act of the United States gave legal recognition to what was already an established institution. Later the silver content was slightly changed.

D. E .- Can you tell me of what Capt. Dreyfus was accused when he was banished to Devil's Island?

Ans .- He was charged with selling military secrets to Germany. Capt. Dreyfus was an Alsatian jew, and was the victim of a shameful, political and anti-Semitic plot. The evidence against him was forged. In 1894 he was arrested, court-martialed and sentenced to military degradation and life imprisonment on Devil's Island, off the coast of South America. He was pardoned in 1899 by the President of France, and in 1906 a court declared him absolutely innocent. During the World War Dreyfus served as a colonel with distinction in the armies of France

B. L .- How many Indians are there in the United States at the present time? Are they decreasing in number?

Ans .- It is not known definitely, but the figures are about 450,000. don't treat my wife so good and we They are slowly but gradually increasing.

D. G .- How many slaves were freed at the end of the Civil War, and how many lives were lost in the effort to free them? Ans.—According to available statistics there were 121,000 slaves

freed by proclamation following the Civil War. The loss of lives was 875,000, of which 350,000 were Union soldiers.

F. A. B .- How long ago did the Bureau of Vital Statistics at Harrisburg start keeping records of Birth certificates?

Ans .- We are informed that this was established in 1890. However, for positive data, write Bureau of Vital Statistics, Harrisburg, and inclose self-addressed envelope.

C. L. D .- Can you tell me where in the Bible will be found any mention of the Virgin Mary having had other children to Joseph? Or was Jesus the only child she had?

Ans .- According to the Bible Jesus had four brothers (James, Jopes, Simon and Jude, the last named being also called Judas). Dr. Smith, in his notable "Bible Dictionary," says Jesus bad three sisters. The Scriptures merely mentions the sisters of Jesus without giving their names or number.

H. T. P .- Do wild birds live to be very old?

Ans .- Few wild birds live to be ten years olds Twenty-one years is wife probably thinks she puts up the greatest longevity record thus far recorded for any bird in the banding files of the Bureau of Biological Survey. An osprey banded at

The birthdays of Abraham Lincoln and George Washington, coming close together in this month, suggest the greatness of these eminent Americans and the thought that the Centre Democrat might well recommend the example of their lives to the younger generation of our county. It is not our intention to attempt any eulogy to their memory. That has been done by better writers, but the youth of this country will make no mistake in familiarizing themserves with the lives of Abraham Lincoln and George Washington.

The demand for farm products-measured by volume and by price-continues good, despite the present downturn in industrial production. Large quantities of farm products are moving into domesconsumption at prices averaging higher than at this time last year. Products not sharing in the higher prices this winter compared with last include tobacco, hogs, poultry and eggs. The supply of tobacco is the largest on record, but the European market has been shut off. The 1939 pig crop was the largest in sixteen years. Production of eggs and poultry has been unusually heavy this winter. Larger marketings of grain-fed cattle are expected in the first half of 1940 compared with 1939.

Decision of the House not to authorize a trustbusting drive on the Nation's dairy industry is regrettable not because necessarily law violations would have been found, but that inquiry would determine what was at the bottom of the milk can. If there is one great industry in this country which nettles the consumer it is milk. Here in Pennsylvania there has been nothing but accusation, complaint, dissatisfaction. A large measure of this is due to the attempt of government to regulate a business where it "has no business" except to safeguard health. But the whole country bubbles with discontent over the mlik business. Farmers complain they are being "gouged" on prices, Consumers wonder why prices main high. Middle-men are accused of scraping off the cream of the business literally and figuratively Nobody appears satisfied. Nothing would serve so well the public curlosity for facts as a probe that would

Governor James' threat to "embarrass and harass" WPA apparently doesn't include debates. The Governor for some time has been exchanging letters with WPA officials over what this State's Chief Exceutive calls discrimination against Pennsylvania by the Federal project officials. But now that his bluff has been called, the Governor refuses to back up his charges in a debate with Congressman James P. Mc-State, refuses to argue it out with his challengers. It is a wise decision on the part of Mr. James, for as Congressman McGrannery has publicly stated: "If the Governor would meet me I could prove to him his administration, as far as WPA is concerned, has not been conducted either intelligently or sympathetically. If it were, he could take 20,000 people off di-WPA and save the State's taxpayers around \$1,000,-000 a month."

Most people give little thought to the discoursics they practice in using the telephone. Just because they are not talking face to face with the other party, they often take libertles of speech not always in good taste. Most of us think only of what is happening at our end of the wire. It is convenient for us to telephone at that minute, and we don't stop to think or to ask if it is convenient for the person at the other end of the wire. It is outrageously thoughtless to start in on a long telephone "visit" with no thought of the other person's convenience. Courtesy demands that you ask if it is convenient to chat for a few moments. Then there is the especially thoughtless person who telephones during meal hours with nary an inquiry as to "Are you at dinner?" It's true that meal hours are the only hours we can reach certain people we know. But if the person is at dinner, we should give him the chance to say. "We have almost finished dinner, but may I call you back in fifteen minutes?" And when we we will call back in fifteen minutes or at 8 o'clock, or any other time we specify, we should remember that the other person is waiting for our call and we should keep our word about this telephone appointment. If we delay, naturally the person hesitates- to call us back, and quite possibly he may be waiting to go out and so may be greatly inconvenienced by our delay. Just another example of the give-and-take of courtesy
