DO YOU SPEND MOST OF YOUR TIME AT A SEDENTARY OCCUPATION

The human body needs exercise and recreation to keep well. and overwork without observation of these two necessities will demand extra payment in ill-health and shortened life. The person who sits constantly at a desk, or spends long hours at any task, year in and year out, ignoring rest periods and exercise, is placing more value on material things than on health.

Exercise and recreation help to rebuild and revitalize the bodily and mental faculties, and help to throw off the waste materials. The kidneys are the greatest sufferers from failure to observe these simple health requirements. These faithful workers work "overtime", trying to throw off these poisons, and finally break down under the strain, with Bright's disease, high blood-pressure or some other serious consequence. A healthy body demands exercise, and change of mental or

When your kidneys are over-active, especially at night, you can be sure the body is trying to take care of a "toxic" condition. Should this persist, do not delay consulting your doctor. Bright's disease is preventable, but not curable, and that is a

Telling the Public About the Doctor" appears weekly in this paper.

mileage, rully equipped, heater and defroster, \$700 00; 1937 Chayrolet De-luxe sectant, very good condition. \$375.00; 1934 Chevrolet Deluxe coach, like new. \$250.00; 1929 Whippet se-dan, good shape \$60.00.
