Among other things they voted in favor of a speaker to be present at their next session, scheduled to be held April 2nd. Let's hope it unnecessary to send special invitations to delinquent members and fellow-townsmen for the program planned is one well deserving of your presence. No admittance asked so come see if we exaggerate.

Magazine sales recently indulged in by high school students for the benefit of the Senior class fund netted that group approximately \$40. The highest powered salesman who secured most subscriptions was Harry Price of the borough.

Girls hereabouts have recently undergone complete metamorphosis. It's the McGowan Beauty Salon that's done the miraculous transformation. Take a look at Mrs. John Patishnock; marvel no longer but believe, then ring the bell at our new Beauticians for an early spring hairdo or what-you'll-have!

The same teachers are still on the black list as formerly in regard to attendance at Writing Class Thursday.

**BUSH HOLLOW**

The revival which started last Monday night in the church has surely been well attended. About every night the church has been almost full, some nights every seat was taken. Rev. Schweitzer has surely brought forth some wonderful messages this past week. Everyone has enjoyed his messages and also enjoyed the fellowship with man of God.

We were sorry to hear last week of Samuel Hoover of Dix Run having caught his hand in a corn sheller which tore off two of his fingers at the second knuckle. home, but he indicated that after some repairs and remodeling has been completed he expects to move his dental offices there from the present Dr. Joseph A. Parrish building on West High Street.

**Seek Quarters For High School**

(Continued from page one)

There are several unused store rooms on the first floor.

Unofficial reports have it that the Board, faced with the necessity of extensive repairs to the heating plant at the Academy, is contemplating vacating those premises if suitable quarters can be found elsewhere. The Academy property, rented from a Pittsburgh banking house for \$400 a month is equipped with three heating boilers. One is said to be unfit for service, and another threatens breakdown at any time.

Under the conditions of the lease with the Pittsburgh bank any new boiler installed at the Academy must be left there when the schools vacate that property. Since the installation would be quite an item of expense, the Board has discussed the problem at several recent meetings.

In addition to the \$400 monthly rental, the board pays \$25 a month for the use of the Academy equipment.

One person interested in the matter yesterday expressed the belief that sufficient rooms could be found in town to accommodate the high school and eliminate the necessity for the Academy. The combined rentals of such rooms, it was claimed, would be less than the Academy rental, and heat would be furnished. At the Academy the school district is required to furnish the heat.

The other is route 14028 from Bellefonte borough by way of Jacksonville to the Clinton county line, limit three and one-half tons.

Work on the State College-Rockview section is slated to begin by May 1, and will be built as a portion of the Federal Aid road system.

The route of the new road will follow the present one closely from State College to Millbrook. It bypasses Lemont to join the present road at the Houseville intersection. From there it will closely parallel the railroad tracks to the concrete stretch in front of the prison.

Yesterday members of the road committee of the Bellefonte Chamber of Commerce, the Rotary and Kiwanis Clubs were in Harrisburg consulting with Highway officials in regard to the announcement last week that the Bellefonte project would not be built this summer.

John G. Love, a member of the committee, is expected to report upon the trip at a meeting of Chamber of Commerce directors here tonight.

around a part of Mr. Schad's land, and by so doing has cut off the natural means of access to his lands, without his authority or without consent of law. Mr. Schad, it is claimed has repeatedly demanded possession of the premises, but the defendant has refused to comply with these demands.

Attached to the statement of claim is a lengthy abstract of title to the lands owned by Mr. Schad.

The action, which is in the nature of a summons in ejectment, is taken for the purpose of reclaiming possession of the lands together with all "profits" since April 23, 1901 and all damages sustained by Mr. Schad during the defendant's occupancy. The land under dispute is located in Boggs and Spring townships.
