

6 Families Homeless In \$10,000 Blaze

(Continued from Page 1)

The Pleasant Gap Fire Company soon arrived on the scene, and when it became apparent that further aid was needed, the Bellefonte Fire Department was asked for help. The Logan pumper and members of both Udine and Logan companies responded immediately, and at the height of the blaze it was estimated that approximately 100 firemen were in service.

Firemen and spectators cooperated in removing furniture from the apartment building. Two of the apartments were almost completely ruined while the other four were badly gutted by flames and further damaged by water and smoke.

Mr. Jodon, owner of the property, had left early last week for Minnesota to purchase a carload of horses and on until last night had not returned home. He has not been informed of the fire.

From the storage room in the center of the barn, the fire spread with great rapidity to both ends. Among the articles in the barn which were lost were a number of bales of hay, some tools, complete stable equipment and a quantity of valuable lumber which was salvaged from old school buildings.

The barn and the apartment were wired for electricity, and some persons believe a short circuit might have caused the blaze. All that remained of the barn building, Monday, were a few charred timbers, some hay, and metal plumbing fixtures. There was no livestock in the structure at the time of the fire.

The end of the apartment building which adjoined the barn exposed the interior of an entire apartment. Fire, smoke and water had gone through this building, which was less than a year old.

Judge Keller Is Honored Here

(Continued from Page 1)

Association to pay tribute to Judge Keller who remained on duty all during the afternoon and until about 8 o'clock Sunday night to prevent a possible outbreak of fire from the smoldering remains.

The first aid team of the Pleasant Gap fire company was on the scene functioning as a separate unit, and during the course of the fire about ten firemen were treated for cuts resulting from broken glass.

Decision on possible repairs to the apartment building will not be made until Mr. Jodon's return home, probably late this week.

The barn was well known to hundreds of Centre county farmers, for during the past several years it has been the scene of many livestock auctions conducted by Mr. Jodon.

Sunday's fire was the worst one Pleasant Gap has experienced since the burning of the Henry Noll airplane hangar about seven years ago. Last year the Jodon residence at Pleasant Gap suffered heavy smoke damage from a small fire in the basement.

Car Forced Into Ditch

A car driven by Taylor Confer, of Bellefonte, was forced into a ditch after striking a huge tractor-trailer truck about a half mile west of Martha Furnace on Route 220 at 4:45 o'clock Monday afternoon. Damage to the car was estimated at \$8. The driver of the truck was not identified, having failed to stop after the accident.

What this nation needs, if you listen to some people, is to get big business men to make plans for everybody's happiness.
