## Hospital Seeks \$5500 in Drive

Continued from page one.  
You would a hotel, run on such a small margin of profit and in addition provide nursing service?  
If you are in the paid ward you are charged \$3.10 a day for your care and cost the hospital \$3.47. You are therefore a loss to it of 37 cents a day. And does it refuse to nurse you or feed you just because you are a financial liability?  
If you are a free patient—and there are many folks who must get service and who cannot help getting ill—what cost the hospital \$3.48 a day, of which the State gives only \$2.28. You are a losing proposition of \$1.20 a day. It is the State appropriation which helps to defray the free ward expenses; there is not enough of it to stretch any further. Averaging all the above, we find that you, Mr. Average Citizen, are a loss to the hospital of \$1.42 a day.

The patients from the immediate area covered by the drive, Bellefonte, Spring and Bechtel townships, brought about a hospital deficit of \$6920.70 during 1935. It has been estimated that more than a third of the patients from this territory are free, and that many other small towns add to the burden.  
Do you know your hospital? It has a modern and well equipped delivery room, operating room, x-ray department, and sanitary kitchens. Its bedrooms are quiet, clean, and cheerful. There are new acoustic ceilings and curtains cubicles in the wards. There are suction pumps, a new ceiling lamp and anaesthesia machine in the operating room. The specially equipped nursery has, besides its rows of filled baby baskets, a pulmotor for emergency use and hospital-constructed incubators.  
Operating with a yearly deficit and yet providing nourishing meals on attractive trays, sometimes overcrowded but always able to find a bed for the desperately ill, with 19 general nurses working through 12-hour days, your hospital continues to serve its community. It counts on all of you to supplement the State appropriation, all of you who never know when the Centre County Hospital will be your best friend.

Mr. and Mrs. Beckwith were attended by Mr. and Mrs. Willard Weaver, of Port Matilda, R. D., and sister-in-law of the bride. The flower girls were Pauline Snyder and Carol Louise Jackson. The ushers were George Bauder and Elynn Moore. The brides were beautifully dressed in white and wore shoulder corsages of roses. Mrs. Weaver was dressed in peach, each with shoulder corsages of roses. The flower girls were dressed in tea rose dresses and carried baskets with sweet peas and lilies of the valley. The brides are the accomplished daughters of the late Mr. and Mrs. J. W. Weaver, of Port Matilda, R. D., and are active workers in the church. Mr. Moore is a son of Mr. and Mrs. Ernest Moore, of Juniata, and is engaged in farming. ## High Waters Bring Slight County Loss

(Continued from Page 1)  
nearly two feet was recorded on the highway several hundred yards west of the Weizler establishment, at midnight, Saturday. The road was closed to traffic for several hours until water receded. Some residents of that area fearing a repetition of the 36 flood, moved household goods to the second floor of their homes.  
Sandbags were used at the rear of homes in Centre City to prevent gardens from being flooded. Water reached a considerable depth along the street paralleling the railroad near the Central Hotel.  
Water reached a depth of 15 inches across the highway below Howard but traffic was not halted. Many fields bordering the upper reaches of Spring Creek, in the Leont-Houseville area, were flooded.  
Penn's Valley also felt the effects of the high water. The road between the Meyers garage and the railroad station at Spring Mills was impassable for a time Saturday night. Several feet of water filled the cellars of many homes on the street where the First National Bank is located. Most furnace fires in that area were extinguished by rising water.  
In Millheim a number of streets were flooded some to a depth of more than a foot. The main highway remained passable.  
The east-bound L. & T. milk train, Saturday morning, was halted near Coburn because water had damaged the section of track. The train was held there until a work train was sent to the scene to repair the damage.  
With the cessation of rain, Sunday morning, streams steadily receded, although it will be some time before the mountainous areas are free of snow.  
The water flooded the lowlands extensively along Bald Eagle, March Creek and Beech Creek. All these streams had traffic shut off last Saturday evening and more or less all day Sunday. The streams made a fast rise after dark Saturday and did not begin to recede until noon Sunday.  
In Beech Creek Borough the only threat was to the residences on the low portion of Water Street immediately above the bridge. Only a little stream an inch or two deep trickled across this street as one place but barely a few inches more would have put it over a distance of three hundred feet.  
On the opposite side of the creek water surrounded the home of M. E. Swartz, and somewhat the homes of Raymond J. White and Mrs. Edna Silver. These people, however, did not allow this to deter them from attending the Church of Christ Bible School and church service, using a boat to reach the main highway. Beech Creek was not as high by two feet as in 1936.  
Further up the Beech Creek on

Route 364 traffic was stopped after dark Saturday evening by overflow above Maldsville and in many places between there and Martin's Grove on the Monument-Orviston route. A low place at the Little Island, N. Y. C. Railroad bridge below Monument on 364 was too deep for traffic.  
Marsh Creek went on a rampage Saturday evening and traffic on Route 64 was stopped by it at the bridge immediately above Blanchard. The highway along the creek leading to Romola and Yarnell was under water at numerous places and traffic stopped.

On route 64 immediately east of the bridge below Howard at a well known low place, where there is a large tile instead of a flood span, traffic was stopped before dark Saturday by the rising Bald Eagle Creek.  
The Johnson buses through Bald Eagle Valley, one each way at 3 p. m., could not get by that place.  
The man who gets mad with somebody for disagreeing with him is probably increased over his own ignorance.
