

What a Difference 10 Years Make!

Only 10 years have passed since the electric range at the left was compared with the 1940 model at the right. Electric ranges have kept pace with modern trends in functional design. They are smoothly streamlined to harmonize with the built-in cabinets in modern kitchens. Finished in gleaming white acid-resisting porcelain, with smart trimming touches of chromium and color, every detail of construction has been carefully designed to give the utmost in beauty and efficiency. Tops are built in one smooth, easy-to-clean piece of porcelain—lights, clocks and timers are built into the range. Electric ranges are quite at home in every sort of kitchen—whether the decorative scheme is cute, cozy, gay, efficient or quaint!

Modern Ranges Are as Practical as Electric Light

Electric ranges have always offered the housewife the most dependable, time-and-work saving method of cooking. It's no wonder that 47,000 people are now enjoying electrically cooked meals in the territory served by the West Penn Power Company.

Electric ranges have continually improved from year to year until in 1940 they are truly miracles of efficiency.

They are just as fast as fire, without the flame. Ovens, with their automatic heat control, zip up to making temperatures by the time the cook has her ingredients collected. Surface units have 5 speeds, from a low, simmer temperature to an intense, high-powered heat that browns things or brings them to a boil in a hurry. Electric cooking is just as fast a method as anyone could use. And the perfect heat control of the electric range means that you always have just the right degree needed for any cooking process.

Electric cooking is as clean as electric light. There are no blackened pots and pans to scour. And with no film of grease and soot to settle on walls and curtains, naturally the housewife saves time and money of cleaning.

Electricity is a cool cooking method. The nature of electricity makes it possible to control the heat and keep it where it is needed—it is entirely enclosed in the oven, and concentrated under the pots and pans on surface units instead of escaping into the kitchen to make it hot and stuffy. Imagine being able to bake a cake or cook an oven meal in comfort no matter how hot the day.

Cooking with electricity is just as safe as snapping on an electric light, too. A turn of a switch brings heat. Mothers appreciate this safety and let the children experiment with cooking.

Reheated Rolls
Brush over the tops of yesterday's rolls with fresh milk and put into a covered pan in the oven to steam through. After they are heated, remove the cover so the crust will crisp up again. They will be like newly-baked rolls.

Before Vanishing
It is best to apply a coat of shellac, or some other kind of sealing coat, over the stained wood that is to be varnished. If this isn't done, the chemicals in the stain may work through the varnish and cloud it.

He Pays With Nickels
One thousand nickels, all dated 1939—lay in the cash drawer at Osteopathic Hospital, Philadelphia, Tuesday, as payment for Manuel Boerner's new baby.

MOSHANNON

A birthday party was held Tuesday afternoon April 2nd, in honor of John McClusick Jr.'s 4th birthday. The little folks who helped him celebrate were as follows: Phyllis Quick, Eleanor Katchik, Bobby and Joyce Cartwright, Lenora Holt, Joan and Patty Craft, Barbara Bedwell, Myra Berger, Jay Watson, Grace Berger, Robert Fye, Katherine Debraskey, David Calderwood, Mildred and Dorothy McClusick. There were two birthday cakes and a nice lunch was served and many nice gifts received.

The Misses Helen Calander and June Wisley were callers at the home of Mr. and Mrs. John McClusick Sunday.

Mr. and Mrs. James Beals and children, Evan, Marguerite, Paul Pete and Patsy, accompanied by Mr. Ray Watson, made a trip over the mountain to the Advent cemetery Sunday afternoon.

Those who attended the Methodist annual conference held at Clearfield Trinity church were: Mr. and Mrs. LeRoy Lewis, Hope Lewis, Mrs. Frank Leeder, Mr. and Mrs. John F. Lucas and Mr. Carl Schmoke.

Mr. and Mrs. Orvis Holt gave a surprise party Saturday evening the 6th at the home of Wark Holt in honor of his birthday. A nice time was enjoyed by all and many nice gifts received.

Messrs LeRoy Lewis, John Boyes and Carl Schmoke, of Pine Glen spent Friday night at the Lewis camp. Found conditions improving, where on account of the ice and snow they were unable to reach the camp a week ago.

Ruth Anna Carlson, daughter of Mr. and Mrs. Albert Carlson, became the bride of Logan Guenot, son of Mr. and Mrs. Charles Guenot. They were married at the Parish House Saturday afternoon by Father Connelly. They were attended by Mr. and Mrs. John McClusick, a sister of the groom. A wedding dinner was served at five o'clock at the home of Mr. and Mrs. Charles Guenot. Those present were: Mr. and Mrs. Albert Carlson and family, Mr. and Mrs. Harold Fye and family, of Clarence, Mrs. Annie Carlson, Mrs. Sue McLaughlin, of Snow Shoe.

Mr. and Mrs. H. A. Smith and family of Clearfield Mr. and Mrs. Rex Bedwell and family, Mr. and Mrs. John McClusick and family, Mr. and Mrs. Charles Guenot and son Willard Guenot. They received many useful and nice gifts.

Mary Ann Lucas, R. N., spent Thursday evening and Friday at her home here.

Scented Hankies
The smell of the iron can be eliminated, and a delicate scent of violet will be added to the handkerchiefs by placing some pieces of orris root in a muslin bag and putting this into the water in which they are boiled.

HOUSEHOLD SCRAPBOOK

Waterproof Shoes

It is a wise plan to keep a comfortable pair of shoes on hand that are waterproof for outdoor use. Apply a dressing made by melting together two parts of beeswax to one part of mutton fat. Apply at night, and remove the next morning by wiping with a piece of flannel.

Sewing Room Hint

After oiling the sewing machine, it is well to sew through a blotter which will absorb any excess oil and thus prevent spotting any valuable material.

Worth Knowing

Two quarts of milk added to one quart of heavy cream makes cream of sufficient strength for serving coffee to one hundred people.

When Papering

Odors in the freshly-papered rooms can be dispelled as follows: Close the windows and doors have been closed, bring in red-hot coal and strew on this several handfuls of juniper berries. About 12 hours later open all windows and doors, so as to admit fresh air, and it will be found that the bad smell has entirely disappeared.

Match Scratches

If someone has thoughtlessly scratched a match on the painted wall, the marks can be removed by rubbing with a cut lemon rind, and then removing any remaining mark with whiting.

Hiccough Relief

Moisten some granulated sugar with vinegar and eat it when suffering from hiccoughs. It usually proves an effective remedy.

Rubber Gloves

Wear rubber gloves when dyeing any article, and the fingers and nails will be protected from discoloring. The lack of greasing dye from the crevices of the hands is not an easy one.

Gold Decorated China

Wash the gold-decorated china in lukewarm water containing soap flakes in moderation. Never rub directly upon the gold, as it will dull the gold and eventually cause it to rub off.

Soft Collars

Try ironing men's soft collars on a Turkish towel doubled to four thicknesses. The collars will iron much more easily, they will be smoother, and shine like new when finished.

Auburn Hair

Five cents worth of salts of tartar diluted in a pint of warm water is one of the very best preparations for retaining the tint of auburn hair. Rub this into the hair until a good lather is worked up; leave on the hair for about half an hour before rinsing in clear water. This is a cleansing process and also brings out the auburn tint in the hair.

Wall Paper Cleaner

A good wall paper cleaner can be made as follows: Mix 1 cup of flour and 1/2 cup cold water to a smooth paste. Add 2 tablespoons of kerosene. Boil until it thickens, stirring constantly. Allow it to cool, then knead thoroughly. Use in the same way as the manufactured kind.

Whiter Clothes

Try slicing a lemon with the ring into the boiler of clothes. It will make the clothes beautifully white and remove staining from pocket handkerchiefs, underwear, and table linens.

Picture Hanging Hint

Insert rubber-headed tacks along the bottom of the backs of picture frames and this will prevent dust from marking the wall where the picture rests.

Mustard Foot Bath

Don't just sprinkle the mustard loosely into the water when pre-

paring a foot bath for a patient. It will not dissolve quickly and may adhere to the skin and blister it. First mix the mustard to a paste. One tablespoon of mustard to a gallon of water is the proportion used.

Rhinestone Pins

Tarnished rhinestone pins and buckles may be made to look like new if they are allowed to set in gasoline for about fifteen minutes, and then polished with a flannel cloth.

Quicker Method

A quick method to crush crackers or dried bread is to place them in a paper sack and roll well with a rolling pin.

Washing Glasses

When washing glasses in very hot water, be sure to dip both the inside and outside into the water at the same time, to avoid cracking. It is unequal expansion caused by heating one part too suddenly that cracks glass.

Leather Bindings

Sprinkle a few drops of oil of lavender in the bookcase occasionally to prevent any possibility of mold forming on the leather bindings.

SNYDERTOWN

Church notes for Sunday April 14, 1940: Sunday Church School at 9:30 a. m.; Preaching service at 7:30 p. m.; Workers Conference and council meeting on Thursday evening at 7:30 p. m. Young people meeting for the Junior young people meeting for the senior young people on Friday evening at 7:30 p. m.

Mr. Ed Dorman is home from the hospital and we hope for his complete recovery as rapidly as possible.

Mr. and Mrs. Jimmy Schenck and children of Milesburg, spent Sunday at the Alvin Beck home.

Mr. and Mrs. Will Fisher of Bellefonte, and Mr. and Mrs. Harvey Lutz motored to Williamsport on Sunday to visit Mr. and Mrs. Dudley Markle.

Mr. Norman Stover spent Sunday with his parents Mr. and Mrs. Elmer Stover.

We welcome the new people into our community, and into our church.

Cyrus Haagen spent Sunday with his parents, Mr. and Mrs. William Haagen.

The weather is showing signs of Spring and farmers are preparing to do their Spring plowing. When in need of groceries, hardware, tires, gas or oil, stop and get the prices at our new up-to-date store in Snyderstown, before going to town.

Ben Lutz of Pittsburgh, spent Wednesday with his parents, Mr. and Mrs. Harvey Lutz.

Mr. and Mrs. Clifford Corman and child called at the Blaine Sampel home on Sunday.

Rev. Keller returned home Friday after spending several days with relatives and friends in Steelton.

The end of the world will catch a number of people promising to do better.

External fashions may change without destroying internal morality.

You can make plenty of money if that is all that you have on your mind.

Wise people are thankful that there are fools who do not understand them.

Farmers represent prime buying power but they have been below par since 1920.

As far as we are concerned, Nature might as well skip these delayed cold snaps.

What people don't know is usually a lot more than what they do know.

Not every man who makes money is a real success.

BUSH HOLLOW

We hope our Sunday School attendance keeps on getting larger as it has the last few weeks. On Sunday we had 52 present. Invite each and every one back again. Next Sunday there will be Sunday School at 9:30 and preaching services at 10:45 a. m. Preaching services will be held every two weeks in the morning before Sunday School. Everybody welcome. The regular Wednesday night services will be held in the church as usual, although this week Rev. Byrd will be in Allentown and there will be no preaching service but prayer meeting will be held Wednesday night in the church instead of in a home on Thursday night.

We are sorry to hear of the illness of Dora, youngest daughter of Mr. and Mrs. George Bush, who has been ill since last week and also of the illness of Ray Ammerman, who has pleural pneumonia. We wish them both a speedy recovery.

Miss Rachel Flick of Egypt Hollow, spent last Thursday with her friend Rachel Reside. In the afternoon both ladies visited with Mrs. Harry Lucas, at her home. Glad to know Mrs. Lucas is recovering from her recent operation.

Mrs. Lemuel Warner returned home from the Bellefonte hospital last week. Hoping she will soon be able to be out and around again.

Miss Gertrude Carver spent the weekend with her parents, Mr. and Mrs. Harry Carver.

Mr. and Mrs. Andrew Irwin and family spent Sunday at the Roy Spotts home.

Miss Florence Lucas spent the weekend with her father E. P. Lucas, and family.

Glad to hear Benner Hall is able to be down stairs again after being laid up for a time with pneumonia. We are looking for him to be present at Sunday School again in the near future.

Mrs. Edna Spotts and family visited a short time on Sunday evening with her daughter Mrs. Ruth Rote, who had been sick last week. Glad to know Mrs. Rote is able to be up and around again.

County Hospital 'Perfectly Safe'

(Continued from Page 1)

Medical Association listed. With an average of 46 patients at any one time, exclusive of new born babies, it had 1,628 patients during the calendar year 1939. During the same year, patients at the hospital gave birth to 313 babies.

Borough Gets Historic Cabin

A 150-year-old cabin was bequeathed to the Borough of Snyderstown under the will of the late Thomas Downing, retired banker. The cabin, a landmark on the Lincoln Highway, will be added to the town's park.

Scotia does not possess a phys-

SCOTIA—Rich in Tradition

(Continued from Page 1)

couldn't center his affections upon any one of the number and hence it is that he is popular with everybody and hasn't got time to be married.

Then there is the venerable Thomas Roop, after whose great-grandfather the town of Roopersburg was named. Mr. Roop has an old musket which his great-grandfather made in those days when guns were not to be purchased for a song and so easily as is the case at the present time. As an heirloom it is highly prized in the Roop family.

The genius for making pretty nearly anything desired seems to have been handed down from one generation of Roops to another. Mr. Roop is the blacksmith at Scotia and it is a common remark there that he can make or repair anything from a grand piano to a darling needle. Not so long ago a pair of gold-rimmed eye glasses was broken and when the owner was in a quandary as to what to do somebody suggested that they try Mr. Roop. The suggestion proved to be a good one for in his blacksmith shop Mr. Roop repaired the glasses and the owner was made correspondingly happy.

Scotia has its home life side and it is as interesting in its way as is the bustling activity of the mines and washery. To fully appreciate Scotia hospitality one must spend a few hours at least, among its people. They are healthy, rugged, honest and industrious people in whose veins flows red blood; one great big family as it were, living with and willing to help one another, sharing their pleasure and sorrows and get the very best out of life. It has often been remarked that in a large city there is acquaintance, but in a country town or village there is friendship. Nowhere could the latter be exemplified than at Scotia.

With a population of about 300 Scotia neither has nor knows the need of magistrates or police officers. There is one church, the Methodist Episcopal, a school with Mrs. Sarah Shope and Miss Mildred Shaffer as teachers and three stores conducted by John Bottorff, Lyman Emerick and John Haugh.

Then there is the Scotia Cornet Band, one of the best to be found in the State. The members have handsome uniforms and the instruments are the finest to be had. The band by the old Carnegie company and cost upward of \$2,000.

A pretty grove makes an ideal place for family picnics, festivals, etc., and these afford many delightful outings for the people of Scotia during the summer months. So popular are these affairs that many persons drive miles to attend.

Scotia does not possess a phys-

cian. In fact, the nearest one is located at Snyderstown, six miles distant. The next best thing to a physician in case of emergency is the office of Superintendent Valentine and Asst. Superintendent Burns. There one may find a complete "first aid to the injured" equipment. Scotia climate and diseases are strangers and a physician would have to go to mining there to make a living.

There is another industry that contributes its share towards giving employment to men and to building operations in Bellefonte and other points. It is the Scotia Sand Company, operated by Mr. Burnside. The sand is of the finest quality and finds a ready market. Indications are that the operation will be even more extensive next year. Mr. Burnside proudly boasts of the fact that the Scotia Sand Company was one of the few concerns to continue in operation during the business depression.

At Waddle station is another business operation—the Hewitt, McNitt Lumber Co.—which will be in full swing in another month from now. Mr. Hewitt believes that there are now about 18,000,000 feet of timber, board measure, on the great tract which his company will start to cut in the next few weeks. The saw mill is located at Waddle station and is almost completed.

It is proposed building about eight miles of railroad track from Waddle station to the farthest point of operation. A third rail has been placed on the Bellefonte Central railroad track from Waddle to Gray's farm, from which point the branch into the timber tract will be run. It is proposed later on placing a third rail on the Bellefonte-Central siding from Waddle to Scotia for the lumber cars and engine to be used by the company. It is estimated that it will require six or seven years in which to cut the timber on the tracts. About 65 men will be employed.

MACHINES COLLIDE ON NARROW TOWNSHIP ROAD

In a collision on a curve on the old township road between Howard and Jacksonville, near the intersection of that road with the Jacksonville road, about 10 o'clock Sunday morning, two cars were damaged to the total extent of about \$70 but no one was injured.

One of the machines, a Pontiac sedan, was operated by Charles Stitzer, of Millheim, and the other, a Chevrolet sedan, was driven by Harry Haines, of Howard, R. D. 1. The cars were traveling in opposite directions at the time and the drivers failed to allow sufficient clearance on the narrow road. Damage to the Stitzer machine was about \$25, and to the Haines car \$45. Pvt. J. M. Amick of the Pleasant Gap detail, investigated the accident.

Before saying "never" remember it's a long time.

PLEASANT GAP

(From last week)

Mrs. Nevin Adkins is able to be about again after being ill for about a week with the grippe.

Emerson Ramey of Harrisburg was a caller at the Noll-Melroy home Sunday.

Mrs. Meritt Tate who has been very ill for a number of weeks has been feeling better for the past few days.

Mrs. Leonard O'Donnell who has been ill for several months is especially miserable this week.

Mrs. Henry Noll was an overnight guest at the home of her sister, Mrs. Randall Hosterman at Coburn Tuesday night.

After the regular monthly meeting of the Woman's Civic Club Tuesday evening Mr. Blaney gave a very interesting talk on gardening, including shrubs, pruning, etc. The County Federation of Women's Clubs will meet at Millheim April 13th. All those desiring luncheon call Mrs. Grace Hutchison before April 9th, as she will make reservations at that time.

Mr. and Mrs. Hugh Atlee spent Wednesday in Tyrone with friends. Mr. Atlee is having a one week vacation at this time.

The card party given by the Woman's Civic Club in the school house last week was a real success. Almost \$30 were cleared.

The Garden Club met at the home of Mrs. F. A. Bauer. Birds and migration and Ferns and their habits being the topics under discussion.

Miss Ruth Burris was united in marriage to Mr. George Homan at the home of her parents on Tuesday, by Rev. C. A. Metzger of Snyderstown, but a former minister of this charge. The young folks have a host of friends who wish for them a happy and prosperous married life. They plan to live with the groom's parents, where Mr. Homan has charge of a great part of the farm work.

The annual conference of the M. E. church is in session at Clearfield this week.

Rev. C. A. Metzger of Snyderstown called upon a number of friends here Tuesday.

Among those who have changed their address recently are Hayes Zettle who moved from Bilger house on Bilger Row to Bellefonte; Harry Ream purchased the house the Zettle's vacated and moved into it; William Mowery moved from the Nathaniel Gill cottage to Spring Mills, and Mr. and Mrs. Blaine Brooks moved from the Elwood Brooks home into it; Mr. and Mrs. Nevin Struble will move from the Armstrong apartments into the Brooks home; the Kenneth Kings moved from the Jodon apartments into the side of the Harry Bilger double house recently vacated by the Halls; the John Holubec family moved from the farm which he sold last fall to what was the Poor Farm at one time and which Mr. Holubec purchased when it was

WE SIMPLY MUST SEE THE BEAUTIFUL NEW MODELS, MARGE!

INDEED WE MUST! IF THESE 1940 ELECTRIC RANGES ARE 10 YEARS AHEAD OF MY OLD STOVE, I WANT TO KNOW ALL ABOUT THEM!

Here's what you'll see at the Dealers' Spring Showing OF Electric Ranges

SO GREATLY IMPROVED! WHY THAT ELECTRIC RANGE WOULD SAVE ME A LOT OF TIME—AND A LOT OF WORK!

PRICES ARE DOWN, TOO! YOU'D THINK THIS RANGE WOULD COST \$200—BUT THE TAG SAYS \$129!

JUST IMAGINE! ELECTRIC COOKING COSTS ONLY ABOUT \$1.75 A MONTH NOW—LOTS LESS THAN TEN YEARS AGO!

Step In

See for yourself the beautiful improved Electric Ranges at the Dealers' Third Annual

Spring Showing

COOK THE MODERN ELECTRIC WAY

The swing is toward electric cooking! In the territory served by West Penn an average of 50 persons every working day are turning to this clean, easy, low-cost method.

Electric Range DEALERS
WEST PENN. POWER COMPANY

Real Estate For Sale!

A valuable tract of land situate in Benner Twp., containing 24 acres more or less, and located along the Highway leading from Bellefonte to Fishermen's Paradise, (Spring Creek flows through this tract), and having thereon erected two houses, viz:

(a) 2 1/2 Story Frame Dwelling House

3 rooms on first floor and 4 rooms and bath on second floor. A hot water heating system installed. All buildings in good condition.

(b) 2 1/2 Story Frame Dwelling House

3 rooms on first floor and 3 rooms on second floor.

A never-failing spring of water is also on this property.

Information as to terms, conditions, possessions, etc., may be had upon inquiry at the offices of:

W. HARRISON WALKER, Attorney
Masonic Temple Building BELLEFONTE, PA.
