

To Install Officers Officers of Centre Lodge, No. 153, I. O. O. F. of Bellefonte, will be installed at a meeting to be held this Thursday night at 7:30 o'clock. Of-

ficers will be installed by District Deputy Grand Master Harry Burd and his staff from Millheim. The scarlet degree will also be conferred on a class of five candidates.

AT THE Centre Democrat Cooking School

TO BE HELD

Wednesday & Thursday, April 17, 18

AT THE Y. M. C. A. — BELLEFONTE

Mrs. Dorothy Bathgate, who is conducting the classes, has chosen to use

Land-O-Lakes BUTTER

lightly salted and churned only from SWEET (not sour) cream. Land-O-Lakes has given a new meaning to the word "quality" in butter. It is churned only from fresh SWEET (not sour) cream; it stays fresh and sweet even in warm weather. It gives hot breads, steaming vegetable dishes and sizzling steaks a surprisingly different and delicious flavor.

SKIBO FROZEN FOODS

She has also decided to use our frozen foods which she recommends and which we recommend you try.

Every week more and more housewives are availing themselves of the numerous benefits offered by SKIBO FROZEN FOODS.

The reasons are:

- They save time.
- They are very economical.
- They are of the highest quality.
- There is no waste. Every ounce is edible.

She has also decided to use Kraft cheese spreads. The cheese digestible as milk itself. A delicious food children love!

Some of the cheeses to be had at our store are: Philadelphia Cream Cheese; Creamed Old English; Velveta and others.

Driving Exhibition to Be Held Tomorrow

The actual distance required to stop an automobile traveling at various speeds will be graphically demonstrated for the students of the Bellefonte High school and for interested townspeople, at 11 o'clock Friday morning on West Bishop street between Allegheny street and the Bellefonte Academy.

The demonstration will be preceded by a one-half hour lecture on highway safety practices, at the State theatre. The lecture will begin at 10:30 a. m. and is open to the public, free of charge.

During the demonstration, West Bishop street will be closed to traffic and police officers will be stationed to detour traffic. Mayor Harman P. Harris said yesterday.

The demonstration will be made by Harry M. Pontious, Safety Director of the Farm Bureau Insurance Companies with a specially equipped automobile. Yellow bullets fired from revolvers mounted on the front bumper of the car graphically show how much time various drivers require to place their feet on the brake pedal and how far the car travels before coming to a full stop.

Students, teachers and traffic officers will do the actual driving for the tests. A group of students will do the measuring and the recording of the results.

A demonstration of correct and incorrect ways of turning a car around will also be given by Mr. Pontious.

During the past few years these programs have been given before approximately 300 high schools and colleges over nine eastern states.

Firemen Hear Talk On Arson

(Continued from Page 1)

ceed carefully and observe closely while in a building which they suspect may have been set on fire. He declared that any factors which appear to be unusual or not normal may be strong evidence of an arsonist's work. He added that although he has been studying the methods used in arson cases for more than 20 years, new ways of setting fires are constantly evidenced. "You never know what to expect," he commented.

Ninety per cent of all fires of incendiary origin, he continued, are set for the purpose of collecting insurance. Of the remaining ten per cent, a few are set for purposes of revenge, while the rest are the work of pyromaniacs or fire-bugs, who derive sensual pleasure from fires. In running down a fire-bug of the

Named Dog Catcher
Luther Shope has been named official dog-catcher for State College borough. Burgess Wilbur F. Leitzell announced that a minimum fine of \$10 would be imposed in all cases of dogs found running at large.

latter type, no person is free of suspicion, he went on. Firebugs may be a town's leading business man, a member of the fire department, the butcher, baker or candlestick maker. Just because he holds a prominent position in the community and appears normal in every respect does not free him of suspicion.

The foundation of a prosecution for arson, Lt. Faber said, is proof that the crime has been committed. Usually such proof can be obtained only in the building where the fire occurred. For that reason, firemen, who are the first persons to enter a building when fire is discovered, who have a chance to study the characteristics of the blaze, and who have an opportunity to view the conditions in the place, play a vitally important part in bringing arson suspects to justice. For these reasons, he pointed out, firemen

should learn to observe closely when they are fighting a blaze of suspicious origin.

Following his talk, Lt. Faber exhibited a number of State Police photographs showing some methods used by arson experts and revealing the proper methods of handling objects to preserve any fingerprints they may bear. The arson division of the State Police is conducting a series of similar meetings throughout the state in an effort to instruct firemen in the matter of dealing with the investigation of fires of incendiary origin.

The meeting was in charge of George Carpeneto while the speaker was introduced by former Judge M. Ward Fleming who commended local firemen for the increased efficiency and intelligence exhibited by them in carrying out their services to the community.
