to properly prepare themselves therefor.

April 25, 1940.

The uncertainty of life and the faith which should result from a realization of the province of God is the theme of the message contained in verses 6-8. Daily those we love pass away and no comfort can be offered for this loss except that which is contained in the promise of eternal life through faith in the promises of God. As the grass withers and fades, so with human life, but the consolation and assurance of the Christian believers comes through the fact that the word of God stands forth and that those who believe can depend

upon its fidelity. The closing verses of our lesson text, 9-11, bring a message of reassurance which was to be spoken from a high place so that all might hear the good tidings. This voice summoned the people to a high deswhen they would behold God tiny and, as a result, he would care for them. Especial notice was given to the message to the cities of Judah. which carries a suggestion to us that the cities of the world today would find happiness and peace in a clearer perception of the rightcousness of the Kingdom of God.
