Pasture Land

WANTED-Young cattle to pastur Good pasture which will be read;

The Dangerous Triangle The healthy human body is a mar-

velous example of eternal prepared-ness "Sentinels" are on duty constantly, in case of danger A standing army of "fighters" is ready to pounce instantly on any infection Millions of other fighters are in reserve, ready to rush in when needed Great sys-tems of fortifications and barriers are ready as strongholds.

should the situation become serious.

The "sentinels" are the nerves, which carry the message to the blood vessels, which in turn start carrying quantities of blood to the infected area. The "fighters" are the white blood corpuscles, which attack the invading germs. The "reserves" are the millions of new white cells. manufactured rapidly by the bone marrow in case of infection The "strongho the lymphatic glands and system, into which germs are carried and destroyed often causing what you call a "kernel"

Due to the arrangement of blood "essels in that part of the face outlined as the dangerous triangle, the veins in this area drain directly into the skull and brain. Therefore, when infection starts in this location, germs can get into vital parts before the "fighters" can catch them There are no lympha-tics here to hold them In other words, the brain is directly

exposed to infections from this area Do not "pick" at bumps or pimples in this area. and above everything, do not squeeze them Let your doctor handle boils or pimples. If you MUST do it yourself, flame a needle with a match, wipe off the skin with alcohol, then lift the white top off the pimple—do not probe or squeeze. In case of the least swelling, hands off, apply hot wet applications and see your doctor. and see your doctor.
