Why not have the benefit of competitive bidding in the sale of your property?

Past experiences have proven that public sales of real estate demand higher prices.

A number of Farms and several Residences will be offered at public sale in the near future.

WATCH FOR DATES

"MY ELECTRIC ROASTER MAKES CHICKEN SO TENDER AND JUICY!"

Although Mrs. Morgan has had her electric roaster only since last Christmas, she has never had a failure—right from the start every cooking and baking job has been a success.

"Cooking delicious meals is merely a matter of following the instruction book," Mrs. Morgan says. "To cook this chicken dinner, I pre-heated the roaster, then put in the chicken, potatoes and beans—all at one time. From then on I didn't even lift the lid to see how the foods were coming along. In 2 1/2 hours, just as the book had said, the meal was done. The chicken was moist and tender all the way through—the skin wasn't a bit dry or hardened—and the vegetables were just right."

AN ELECTRIC ROASTER eliminates the difficulties of old style cooking!
It assures accurate cooking and baking temperatures—and perfect results every time. It needs no watching, causes no dirt. It's wonderful for summer cooking—never heats up the cook or the kitchen. Nice in keeping good dinners hot for picnics—just drive out with the deliciously cooked meal!
Many women with old type stoves have bought a roaster—and find this electric method easier and better than they ever thought cooking could be!
