**THE ONLY ANSWER**

The U.S. is woefully unprepared for defense in trained personnel and all forms of modern equipment. Selective compulsory military training and service is the only practical solution of the vital personnel problem.

**BASE FOR INVASION**

The eastern edge of Brazil is less than 7,000 miles from bases in West Africa. A single German invasion of Brazil at this point would give the aggressor base from which to launch operations from the air against the Panama Canal, the Caribbean Sea, and the Gulf of Mexico. This is the first step taken by the Nazi-Fascist combination, if it decides to invade the Americas.

**PROVISIONS FOR THE SPEDY EXPANSION OF OUR ARMED FORCES** on a scale great enough to insure the continued safety of the nation are included in the selective compulsory training and service bill introduced in the Senate by Senator Edward R. Burke, Democrat, of Nebraska, and in the House by Representative James W. Wadsworth, Republican, of New York. Under this measure, sponsored by the National Emergency Committee of the Military Training Camps Association, a gigantic reservoir of manpower would be trained and be on call for service in emergencies, in numbers determined by the President and the Secretary of War and Navy.

**LIGHTNING WAR** in the Low Countries and France has brought home to Americans a consciousness of the inadequate defense establishment of the United States. While 30,000,000 men are under arms in Europe, Africa and Asia, there are less than 750,000 regular troops in the twenty-one republics of the entire Western Hemisphere. Counting reserves and U.S. National Guard, these nations could put into the field approximately 2,500,000 trained men—less than the number recently called to the colors in Rumania alone.

**BECAUSE OF THIS WEAKNESS**, the Western Hemisphere, with its vast natural resources and raw materials, now is as great a lure for conquest as ever existed. With our Navy in the Pacific, the British Fleet is our first line of defense in the Atlantic. Our second is our regular army of 264,000 men and a National Guard of 242,300, ill-equipped for mechanical warfare. How long can we continue to depend on the supremacy of the British Navy in the Atlantic?

**PROVISIONS FOR THE SPEDY EXPANSION OF OUR ARMED FORCES** on a scale great enough to insure the continued safety of the nation are included in the selective compulsory training and service bill introduced in the Senate by Senator Edward R. Burke, Democrat, of Nebraska, and in the House by Representative James W. Wadsworth, Republican, of New York. Under this measure, sponsored by the National Emergency Committee of the Military Training Camps Association, a gigantic reservoir of manpower would be trained and be on call for service in emergencies, in numbers determined by the President and the Secretary of War and Navy.

**Home-Made Cedar Chest**

An efficient and inexpensive cedar chest can be made at home very easily. Take a box of any soft wood and fasten the cover on with hinges. Then stain the outside of the box the desired color, brush the inside with oil of cedar, and keep a bag of cedar chips inside to insure its keeping qualities.

**To Eliminate Roaches**

Gun camphor is usually a speedy remedy for ridding the house of roaches. Powdered borax mixed with sugar is also effective.

**Rusty Clock Hands**

The appearance of rusty clock hands can be much improved by a coat of asphaltum varnish.

**To Prepare Javelle Water**

Dissolve one pound of washing soda in one quart of boiling water, and 1/2 pound of chloride of lime in two quarts of cold water. Pour the clear portion of the lime solution into the soda solution and allow into for setting. Decant the clear liquid into bottles, cork tightly, and keep in a dark place.
