

OBITUARY

MRS. EMMA B. DUNN.

Mrs. Emma B. Dunn, of Meadville, died suddenly about 7:15 o'clock last Thursday night, August 29, 1940, at the Penn Belle Hotel, Bellefonte, shortly after suffering a heart attack. Mrs. Dunn had been ill for some time. She was the widow of W. C. Dunn and their son-in-law and daughter had stopped at the Penn Belle en route home from a visit with relatives in the eastern part of the state. The body was taken to the family home in Meadville, Friday morning.

HARRY SUDDS.

Harry Sudds, former State College cadet, died Tuesday August 27, 1940. Mr. Sudds suffered a stroke while riding on a new Haven and Hartford railroad train during a vacation trip and died in the Mt. Vernon Hospital. He was 68 years old. He is survived by his wife and two sons, Prof. Richard Sudds, formerly with the College and now of the University of West Virginia, Morgantown; and William T. Sudds of New York City. Prof. Sudds taught pomology while at the College. Funeral services were held Friday afternoon in the Sprague Funeral Home, Gouverneur N. Y., where Mr. Sudds lived before coming to State College.

MRS. ANNA N. SNYDER

Mrs. Anna Newcomer Snyder, well known resident of Bellefonte, died at her home on East Curtin street at 6 o'clock last Thursday morning, August 29, 1940, after a several weeks' illness with a complicity of diseases. She was a daughter of Peter and Marguerite Schaffer Krause and was born in Altoona on November 17, 1867, making her age at time of death 72 years, 9 months and 12 days. She was twice married, her first husband, David B. Newcomer, having died 23 years ago. Her second husband, John Snyder, also preceded her in death. Survivors include a son, David Newcomer,

of Bellefonte; and a stepson, J. C. H. Newcomer, of Sunbury. Funeral services were held Saturday afternoon at the home with the Rev. G. Nevin Stamm, pastor of St. John's Reformed church, Bellefonte, officiating. Interment was made in the Union cemetery here.

MRS. THELMA MAY McMULLIN

Mrs. Thelma May (Ivins) McMullin, sister of Mrs. Olive Gilmore, of Spring Mills, died at her home in Juniata, Friday night, August 30, in her 29th year. She was the daughter of B. F. and Flora (Shugart) Ivins, and was born at South Altoona. She was married January 24, 1935, to Carl McMullin. Members of the family include her husband, one daughter, Donna Irene, at home; her parents, one brother, J. S. Ivins, of McAlevy's Fort; four sisters, Mrs. Gilmore, of Spring Mills; Mrs. Harry Ayres, of Neffs Mills; Mrs. Mahabrooks, of Neffs Mills; Mrs. O'Donnell, both of Altoona.

MRS. LUTHER BAKER

Mrs. Iona Myrtle Baker, 59, wife of Luther Baker, of Lock Haven, died Thursday morning, August 29, at the family home, of a heart attack. In addition to her husband, Mrs. Baker is survived by two sons, Ray, of Lock Haven, and John, of Wilkes-Barre; a daughter, Mrs. Robert McCaslin, of Lock Haven, and a brother, Elmer White, of Bellefonte, and a cousin, Mrs. Ross Wallace, of Millersburg. Mrs. Baker was born in Julian, but had resided in Lock Haven most of her life. She was a member of the Pythian Sisters, the Dames of Malta, and the Ladies' Auxiliary of the Railroad Trainmen. She was also a member of the Trinity Methodist church of Lock Haven. Funeral services were held Sunday afternoon at the home with the Rev. G. Cecil Weimer officiating. Burial was made in the Phillipsburg cemetery.

FARM CALENDAR

Timely Reminders From The Pennsylvania State College School of Agriculture

Why Milk Flow Drops—Flies are not solely to blame for the summer decline in milk production. Penn State dairy specialists believe that shortage of available feed is the major influence. They recommend supplementing pasture with grain and hay, silage, or green feed. Provide shade and water, and darken the barn windows and use fans at milking time.

Select Good Flock—Selection of a good purebred ram and culling out unprofitable ewes from the flock are steps toward profits in next year's sheep business. These items should be on the calendar of every sheep grower during the next month, say livestock specialists of the Pennsylvania State College.

Mark Trees to Cut—Early fall before the leaves are off is a good time to mark all dead and sick trees which should be cut out of the woods during the coming winter, according to extension foresters of the Pennsylvania State College.

Range Helps Health—More than 90 per cent of the pullets reared last year in the Grow Healthy Pullet program of the Pennsylvania State College extension service were either started or grown out on range. A good range supplies green feed and keeps the birds out of the mud.

Destroy Orchard Mice—Strategically located piles of corn fodder, grass, weeds, or old hay in the orchard will draw mice to them. Then the mice can be poisoned in these points, fruit specialists of the Pennsylvania State College have found.

Store Farm Machinery—Penn State extension agricultural engineers remind that farm machinery can be saved from weathering, rusting and rusting through proper storage.

4-H CLUB MEMBERS THINK OF COMMUNITY

Pennsylvania 4-H club members are becoming more community-minded every day, according to reports given by delegates attending the fifteenth annual 4-H leadership training school at the Pennsylvania State College, August 12 to 14.

In Washington county, members of a 4-H club took over an abandoned schoolhouse and reconditioned to make a meeting place for community organizations. In another county, club members assumed the responsibility of furnishing and repairing toys for needy children.

Among activities in which club members in other counties participated were baking cookies for an orphanage, cleaning the community church each week, taking charge of playgrounds for children, and assisting with folk games at community functions.

A Somerset county girl's 4-H club sponsored a community picnic around members of the club with the assistance of older brothers and their fathers in the heavy work, cleaned up an acre of woodland and made an attractive park.

In another county, 4-H girls offered their services as waitresses for community and church dinners. Besides their community activities, club members raise money to send delegates to 4-H leadership schools and sponsor educational tours which may be historical, commercial, civic, or in relation to projects in their 4-H club program.

Aliens in Prison

Union County has not yet had any alien registration, but Postmaster Frank J. Groover of Lewisburg is awaiting instructions as to the more than 100 who are inmates of the United States Penitentiary at that place. It is believed that their records can be transferred as the federal government already has fingerprints and other data.

Local Service For Security Claimants

The Williamsport Field Office of the Social Security Board announces that part-time office service has been provided in each of the counties under its jurisdiction, to bring the facilities of the Social Security Board closer to the people.

The area serviced by this office includes the following counties: Centre, Clinton, Lycoming, Monroe, Northumberland, Potter, Snyder, Tioga and Union.

The schedule of hours, dates and places of stations in Centre county during the remainder of 1940, follows:

Bellefonte—At the Employment Service Office, corner Spring and Pike streets: Sept. 16, Oct. 14, Nov. 18, Dec. 16.

Phillipsburg—At the Postoffice Building: Sept. 17, Oct. 15, Nov. 19, Dec. 17.

The board points out that the filing of claims under the old-age and survivors insurance provisions of the Social Security Act by persons who have attained the age of 65 or by survivors of deceased wage earners is greatly facilitated by personal contact of the claimant with a Social Security Board representative. Information desired by employers, employees, or other interested persons on wage records, account numbers, or other features of the act can often be more satisfactorily handled by a personal interview.

POULTRY POINTERS

A NEW METHOD OF EXPPELLING TAPEWORMS

Tapeworms are difficult to expel because their heads are equipped with hooks and suckers which are imbedded in the walls of the intestines. Their bodies are built in segments which fill with eggs and finally detach themselves from time to time to be carried out in the droppings.

A worm remedy which does no more than detach body segments, leaving the heads to grow out again, is of no value whatever, for it merely aids the normal process of nature in discharging eggs which infect other fowl.

The search for effective worm treatments is carried on constantly by the larger poultry service laboratories, and new drugs and chemicals are tested on fowl of all species and ages for safety and effectiveness. Certain drugs are specific for certain species of tapeworms only, while others seem to be immune.

Research workers in a large laboratory have discovered a new compound which can be compressed in convenient tablets called worm "caps." It will remove the heads as well as the segments of several common species of tapeworms in chickens and turkeys. The names of these species are listed on the container in which the product is sold, in accordance with federal regulations governing the sale and shipment of such products in interstate commerce.

The secret of success in this new worm remedy lies in its ability to paralyze the worm, causing it to relax its hold and pass out of the body intact. It causes no toxic or body-shock, and has a soluble coating to protect the active ingredients.

2000 IN FRESHMAN CLASS AT PENN STATE

Approximately 1500 new freshmen will arrive at the Pennsylvania State College next Thursday, September 12, for the beginning of Freshman Week, during which they will be introduced to college life. Classes will start on September 18.

In addition to these new students, approximately 400 others will enter the undergraduate centers maintained by the college at DuBois, Hazleton, Pottsville, and Altoona. Another 200 or more readmitted students and transfer students of the freshman rank will raise the total freshman admissions beyond the 2,000 mark.

Registrar William S. Hoffman pointed out that the applicants who had the best high school rankings were given preference in filling the freshman class quota. The college for a number of years has had to turn away nearly as many students as it admits because of limitations as to facilities.

Of the freshmen who will be admitted at State College, more than 325 are girls.

Riding the New Turnpike at 90

(Continued from page one)

Traveling the dream road, it is hard to realize the car is going up hill at all. For night driving, reflector lights will be used. These consist of a piece of reflector glass strung at intervals along the road where headlights will strike the glass, thereby connoting the exact location of the roadbed. "Lights" will be supported by steel rods.

The rods will be so constructed as to bend upon the first impact. This, officials point out, means that a car shooting off the highway will not meet with a sudden jolt should it strike a support.

Interesting is the fact that these lights, which will be probably a few hundred feet apart, will cost more than the electric lights being used throughout the entire highway system, in tunnels and at interchanges.

Phillipsburg officials are sparing nothing to make the dedication, September 14, an outstanding event which will attract commercial and military planes as well as prominent persons to the affair.

Recent Weddings

Pressler-Harpster

Virginia Harpster, daughter of Mr. and Mrs. W. A. Harpster, of Waddle, and John Pressler, son of Mr. and Mrs. John Pressler, of Aaronsburg, were married Friday August 23, at Stormstown, Rev. Mr. Downing performed the ceremony. The couple will live at Aaronsburg.

Kuhlman-Wendelburg.

Cathedral tapers glowing softly amid white gladiolus against a background of ferns and palms marked the occasion of the wedding of Miss Sarah Ann Kuhlman, of Wellsville, Ohio, and Mr. Otto Wendelburg, of Wellsville, Ohio, at the home of Mrs. Ernest Ard Kuhlman, only son of Dr. and Mrs. E. G. Kuhlman, of 1009 Main street, of Wellsville, Ohio. The reverend Dr. David Loegger, the pastor, officiated using the single ring ceremony for the pledging of the vows which were witnessed by a small company of relatives and friends. The bride given in marriage by her father was given in white moire tulle with flower clusters in white velvet and fashioned princess style with a long train. Her illusion double finger-tipped veil had a seed pearl embroidered Juliet cap and she carried white orchids and white bouvardia. Her only attendant was a white dress and a white hairdo. Kenneth Scott of Cleveland, aunt of the bride, was the matron of honor. She wore old rose moire with a matching jacket and small hat and carried red and yellow roses. Mr. F. R. Haugh of Wellsville, was Mr. Kuhlman's best man and the usher were Mr. Kenneth Scott and Mr. Richard Dew, uncle and cousin of the bride respectively. White asters were their boutonnières. Mrs. Wendelburg, mother of the bride and Mrs. Kuhlman, mother of the groom, each wore navy sheer with shoulder bows. The bride wore a white tea gown. Following the ceremony a wedding supper was served to the bridal party in the home of the bride's grandparents, Mr. and Mrs. M. R. Dew. In the evening some 100 guests attended the reception held in the home of the bride's parents, 1202 Farrington street. Gladolus and other garden flowers were used in the home decorations. Mr. and Mrs. Kuhlman are graduates of the Cleveland School of Arts, the groom first attending Penn State College. The newlyweds are spending a week at the Walden resort, near the cottage on Lake Erie after which they will motor to eastern Pennsylvania.

Melville-Baker.

Miss Sallie Rutter Baker, daughter of Joseph Baker, of Downingtown, and Wingate, and Donald McVaine, Jr., son of Mr. and Mrs. Donald McVaine of Whitford, were married last Thursday afternoon at 4 o'clock in St. John's Episcopal Church, Bellefonte. Rev. David C. Colony, of Philadelphia performed the ceremony. A 15-minute organ recital was given by Mrs. Paul Beaver church organist. Miss Baker, who was given in marriage by her brother, Joseph B. Baker, III, of Wilkes-Barre, had as her maid of honor the Miss Armstrongs of Blon, N. Y. while Miss Jane Curtin, cousin of the bride, and Miss Margaret Beaver, both of Bellefonte, were bridesmaids. Thomas McVaine was best man for his brother with William McVaine, brother of the bridegroom, Andrew Baker of Lewisburg, of Philadelphia, and Hon. W. H. Thomas of Whitford, and Robison McVaine, of Washington, D. C., both cousins of the bridegroom, serving as ushers. Following the ceremony a reception was held at the summer home of the bride's parents at Wingate. The bride wore a floor-length white silk jersey gown with long sleeves and v-neck and broad-shouldered girdle. She wore a three-quarter length veil and tiara caught at the head with orange blossoms. She carried white gardenias and white roses. Miss Armstrongs wore a long-sleeved gown of white tulle, pinkish, and carried garden flowers and ferns. The bridesmaids wore white rayon dresses with accordion pleated skirts and carried flowers similar to those of the maid of honor. Mrs. Baker, mother of the bride, wore red and white printed crepe with blue and white corsage, while Mrs. McVaine, mother of the bridegroom, was dressed in green crepe with hat to match and also wore flowers. Miss Baker, great-granddaughter of Andrew Gregg Curtin, Pennsylvania's Civil War governor, is attending a graduate of Erskine Junior College at Boston. Mr. McVaine attended Episcopal Academy, Overbrook, and Cornell University. He is associated with his father in the operation of "Oak and Farms," White Oak, following their return to Wingate after short wedding trip. Mr. and Mrs. McVaine will make their home in Whitford.

Airdrome To Be Dedicated Sept. 14

(Continued from page one)

necessary highway building and turn the highway forces and equipment to building air bases before both ourselves and our highways are blown to bits.

Among the many outstanding advantages which are waiting to be developed at the state's Black Moshannon airport are underground hangars and a large adjacent seaplane base. The port, located on the top of the Alleghenies in the territory once known as the "aviator's graveyard," is almost entirely free and is situated so that planes may be dispatched any direction and reach any point in the state within an hour.

The port is situated along the major transcontinental and the Canada to Cuba airlines.

Phillipsburg officials are sparing nothing to make the dedication, September 14, an outstanding event which will attract commercial and military planes as well as prominent persons to the affair.

Sarah Ann's Cooking Class

SARAH ANN'S COOKING CLASS

Creole recipes are a mixture of France, Spain and Mexico. No other cooking is better adapted to the use of leftovers than Creole cookery. So it will be worth your while to become familiar with some of these recipes.

Meat Loaf

3 cups cooked meat.
1 small slice of suet
1/2 cup mushrooms.
1/2 teaspoon salt.
1/2 teaspoon pepper.
1/2 teaspoon allspice.
3 cloves.
A dash of cayenne.
2 egg yolks.
Strips of bacon.
Mix with the meat the suet mushrooms, salt, pepper, allspice, cloves and cayenne.
Add the well beaten egg yolks and moisten with a little milk or gravy. Line the bottom of a baking dish with strips of bacon and fill with meat mixture. Dot with bits of butter. Bake 40 minutes in a hot oven.

Lemon Fritters

Batter—1 cup flour.
1/2 teaspoon salt.
1 teaspoon baking powder.
2 egg yolks well beaten.
1 tablespoon melted butter.
1 cup water.
Beat in 2-3 cup of sugar and the juice and rind of 1 lemon. Then fold in the stiffly beaten egg whites. Fry. These are delicious with a meat course.

Orange Fritters

Pare and slice 3 small oranges, sprinkle with sugar and let stand for an hour. Make batter as for fritters, omitting the sugar and add the sliced oranges and juice. Drop by spoonfuls into hot fat. Sprinkle with powdered sugar just before serving. Serve as a dessert.

Brioche

1 yeast cake.
4 cups flour.
Scalded milk.
4 eggs.
1/2 cup butter.
1/2 cup sugar.
1 cup flour.
1/2 teaspoon salt.
Dissolve the yeast cake in a little lukewarm water as you would for ordinary rolls. Pour the yeast into a heap made in the centre of the holed up mound of flour—using 4 cups. Then add milk which has been scalded and cooled, until you have a light dough that can be just barely handled. Put away in a warm place for 2 or 3 hours overnight. Next morning beat into the sponge, one by one, 4 eggs, 1/2 cup sugar. Sift in 1 cup of flour and the salt. Knead just enough to keep the dough together, handling the mixture as tenderly as you would angel cake. Cover it up and let rise for 1/2 of an hour. Then break off eight small rolls and set them—lightly touching—around one large roll in the center on a buttered pan. Let rise an hour longer. Bake in an oven a little cooler than it would be for ordinary bread.

Pecan Cream Cake

3 cups pecan chopped almost as fine as meal.
1 1/2 cups sugar.
6 eggs.
2 level teaspoons flour.
2 level teaspoons baking powder.
Beat the egg yolks well, add the sugar and beat again thoroughly. Add the baking powder with the flour and nuts. Fold the nuts and flour into the stiffly beaten egg white. Then the egg white mixture into the egg yolks and sugar. Blend very gently and pour the mixture into 2 layer cake pans which have been lined with greased paper. Bake in an oven 375 degrees for 15 to 20 minutes. Then remove carefully and let them cool in the pans. Just before serving whip some cream sweeten and flavor. Spread it thickly on one layer. Cover with the other.

FALL COLORS OFFER BECOMINGNESS TO ALL

Summer clothes soon will be having that "froth bitten" look, for as days grow cool we think of fall costumes. Let's take up the color circle and see what is needed in order to make the best use of the colors we already have in our wardrobe, suggests Miss Helen S. Butler, home economics extension representative of Centre county.

The perennial black never fails to make its appearance at this season. A large proportion of the new dresses are black, but not all black. Bright red supplies a brilliant contrast. Of all the fall colors, red is the brightest one and is used for entire dresses as well as for bright touches with black.

Yellow promises to be a favorite color in college clothes. For the more subdued and rich shades, there is a dark gold shade called brass. Copper, a more reddish shade, is also good.

Blues this season are grayish, and grays that verge on taupe are "warm" shades. Greens, ranging from light gray-green to dark olive tones, will be favorites.

In selecting a basic color scheme for fall, you have three directions from which to choose. First, use your brighter colors as accents against the darker, more subdued tones of your costume. Second, have everything in your most becoming color with the only variation in your costume jewelry and "hankies." Third, vary this becoming shade by using two or more shades of it. For example, three shades of green, or beige with dark brown and a bright golden brown.

There are plenty of colors from which to choose, so no one need take a single unbecoming hat or dress.

A devoted worker is one who is willing to miss his lunch in order that the work can go on.

Some people think that a new picture is the same thing as a good looking girl in a bathing suit.

SUMMER NIGHT

The night is lovely, is it not?
With the sky so enchanting and bright,
While twinkling stars sparkle and the yellow moon shines,
What an inspiring beautiful sight.
The whirling leaves rustle while a breeze fans the earth,
The woodfolk make merry their song;
They must hurry and make the best of this night
Because dawn shall break before long.

The willow trees bend and sway to the tune
There is music in the rippling water,
The crickets sing and the wise owl hoots
While the large animals are silent applauders.
There is nothing so wonderful as a summer night
With its magical soothing peace;
And then comes the dawn and the rising sun
And the woodland noises cease.
—Mildred White.

SPRING CREEK CAMPERS ENTERTAIN FRIENDS

The families of Earl Corman, Joe Irvin, William Bailey, Marvin Lee, and George Emhizer, spent last week camping along Spring Creek near Fishermen's Paradise.

On Tuesday night a party was held and those present were as follows: Mr. and Mrs. John Ball and two children, Mr. and Mrs. George Dykes and 2 children, Mrs. Robert Walters, Mary Walters, Clarence Benner and Helen Benner, Mr. and Mrs. J. A. Dale and five children, Mr. and Mrs. Ray Wirtz and child, Charles Coble, Dorothy Coble, Mrs. William King, Mary King, Mrs. Paul Eckley and three children, Mr. and Mrs. Joseph Irvin and two children, Mr. and Mrs. Marvin Lee and two children, Mr. and Mrs. William Bailey and two children, Mr. and Mrs. Earl Corman and two children, Mr. and Mrs. George Emhizer and three children, Thomas Dunheimer and Catherine O'Leary.

On Friday night another party was held, those present being: Mr. and Mrs. William King, Mr. and Mrs. Chester Tressler and three children, Mr. and Mrs. Paul Eckley and five children, Mr. and Mrs. Paul King and two children, Gilbert King and son, Mr. and Mrs. George Emhizer and 3 children, Mr. and Mrs. Ray King and two children, Mr. and Mrs. Vincent King and two children, Mr. and Mrs. Jack Kelly and child, Mary King, and Mablon King. Others present were: Mr. and Mrs. Earl Corman and children, Mr. and Mrs. William Bailey and two children, Catherine O'Leary, Phyllis Goss and Thomas Dunheimer.

MILLHEIM TO DREDGE CREEK AS FLOOD CONTROL MEANS

Millheim Borough Council has decided to dredge Elk Creek within the borough limits as a measure of flood control.

J. B. Malone, member of council, was authorized to secure the services of an operator and to hire the F. E. Trimpey stream shovel which was being used up to this week on the approach to the Pine Creek bridge. This machine is now being moved into position for the dredging operations, beginning at the southern end of the borough.

In the event that the dredging operation in the creek is completed in less than a month, it is possible that the old McMullin mill dam will be dredged of accumulated silt to make possible the construction of a new dam at some future time.

TWO-YEAR AGRICULTURAL STUDENTS ARE EMPLOYED

More than three-fourths of the two-year agricultural students who finished their courses at the Pennsylvania State College in June have obtained employment, reports A. L. Bean, director of short courses.

Only eight out of 44 are possibly without employment, and three of these are returning to college to complete four-year courses in agriculture.

Farm experience has weighed heavily in the placing of these college-trained men, and those who had the combination found available jobs in the fields of animal husbandry, horticulture, agronomy, poultry, and dairy husbandry.

Beauty Contest Winner Killed

(Continued from page one)

husband, Royce Grimm, and two children, Royce, Jr., and Barbara Gay; also the following brothers and sisters: Mrs. H. E. McClutcheon, of Port Matilda; Mrs. Charles Richards and Mrs. Frank Briney, of New Brighton; Mrs. Maude Carney, in Ohio; Mrs. Viola Mull, of Jeannette; Mrs. Curt McCutcheon, Mrs. Vivian McCutcheon and Miss Evelyn Williams, of Trafford City; Miss Hilda Shope, of Altoona, and Merrill Williams, of Tyrone.

The remains were buried at Canyon, S. D.

One of these days somebody is going to discover the truth and I will probably surprise all of us.

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. Backache and leg pains are the result of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints of urine daily.

CHURCHES

Presbyterian, Milesburg

Services Sunday, September 2: Bible school, 9:30 a. m.; morning worship, 10:45 a. m.; Christian Endeavor, 6:30 p. m. Snow Shoe—Bible school, 10 a. m.; evening worship, 7:30. Unionville—Bible study class Mondays at 8 p. m. Howard E. Oakwood, pastor.

St. John's Evangelical & Reformed

Rev. C. Nevin Stamm, pastor. Church school, 9:30 a. m. Morning worship, 10:45 a. m. Vesper service, 7:30 p. m. The Women of Central Pennsylvania Synod will meet in St. John's Reformed church, Bellefonte, Tuesday, September 10 to organize the Synodical Guild.

St. John's Lutheran, Bellefonte

The Rev. Clarence E. Arnold, pastor. The Sixteenth Sunday after Trinity, September 8, 9:30 a. m. Sunday school; 10:45 a. m., the service and sermon, "Five Wise; Five Foolish." 7:30 p. m., Vespers and sermon, "Prove All Things; Hold Fast the Good." The Ladies' Aid Society will meet on Monday night at 7:30 o'clock. The Willing Workers will meet Tuesday night at 8 o'clock. With this Sunday all services and weekly meetings are resumed on the regular schedule.

Here's What Draft Bill Will Do

(Continued from page one)

tional director to be appointed by the President.

How long must the drafted men serve?

Twelve consecutive months.

Are they then free from liability for military service?

No. For ten years they are to be members of the army reserve, subject to call in crisis or wartime.

Is there any way in which that period can be shortened?

Yes, by serving two years in the regular army, after the one year of compulsory training.

Is there any protection for the jobs of the men drafted?

The bill requires their employer to reemploy them when their period of training is over, unless his circumstances have so changed in the meanwhile as to make it impossible.

May a man who is called send a substitute?

No.

How long is conscription to be in force?

Until May 1, 1945.

Bandit's Career Ended By Bullet

(Continued from page one)

Mrs. Catherine Selvaige, 22, ordered the youth to drive them to Twin Rocks.

Near Beltsmo, Cambria county; however, when Mezzarosa was ordered by the pair to stop the car, he grabbed the gun and fired at them when they fled down the road. One bullet nicked the woman's foot. State police later took them into custody, Selvaige being rushed to the hospital.

State police said they were undecided about the charge to be placed against the woman, now in jail at Ebensburg, since the death of her husband's brother. It would be necessary to hold Mezzarosa on a technical murder charge pending a coroner's inquest, police said.

Assessment May Be Permanent

(Continued from page one)

state association.

The plan will be considered at the commissioners' state convention in Bedford, September 10 to 13, preparatory to being presented to the 1941 Legislature.

O'Neill said a questionnaire sent to all commissioners, and a follow-up study showed that assessments in one county varied from 4.1 per cent to 178 per cent of the valuation of property.

Big Bear Seen

A large black bear was seen crossing the public highway near Hallow, a few evenings ago, by a motorist who almost struck the animal with his car.

The use of machinery in production
