

MORE LIVABLE ROOMS WITH LIGHT CONDITIONING

Cheerful hospitality radiates from this well-lighted living room to welcome guests. With good light to add eye comfort and a livable quality to a room, conversation won't lag, and entertaining will be much easier.

Like a hearthstone, the living room is symbolic of family life. It is a sociable gathering place and the room where hours slip by in reading or sewing. It is most frequently occupied after the day's work is done and when it is lighted by electricity. Very important then is good lighting in this very important room!

Light conditioning can make a world of difference in the comfort and appearance of your home. With the proper quantity and quality of light your living room will feel as comfortable as an old shoe.

Quantity lighting is essential. We are all accustomed to the lavish light of the out-of-doors, yet nine out of ten homes are endangering eyesight with lighting not one-hundredth of the amount found in the shade of a tree. The correct size bulbs will give you good quantity lighting at very little more than you are probably paying for mediocre lighting now. Have a light meter check-up of your home, and if the results show unsatisfactory lighting, consult the chart at your local dealer's which tells you just the size bulbs needed for your various lamps. Sun glasses are worn on the beach and for winter sports to lessen the glare... and the absence of glare suggests the second essential of good lighting. This is quality... the right kind of lighting, glareless,

Modern Etiquette

- 1. When a young man takes a girl out to dinner, and she knows he doesn't earn much money, should she be very modest in what she orders?
- 2. Should one turn down the corner of a borrowed book to mark his place?
- 3. Can you give a list of about six subjects that should be avoided in general conversation?
- 4. When sending invitations to a dance, should exactly the same number of men as girls be invited?
- 5. At a church wedding, on which side of the main aisle should peas be reserved for the bride's family and the groom's family?
- 6. Should peas be eaten with a fork or spoon?
- 7. Isn't it considered bad manners and rude for a guest to refuse a drink when in the home of a friend?
- 8. Is it good manners to chew gum in public?
- 9. Should a son be taught to let his sister go through a door first?
- 10. Is there any way possible to stop a person who is always gossiping and speaking evil of others?
- 11. What is the correct distance from the dinner table that a person's waist should be, not to be too far or too close?
- 12. Would it be all right for a debutante to wear a pink gown at her coming-out party?

Answers to Modern Etiquette

- 1. Yes, but she shouldn't overdo it. The young man would not have invited her if he didn't have the money, and if she ordered merely a sandwich and coffee, he would resent it.
- 2. Never; nor should he do so in any book. It is just as easy to use a piece of paper. Or a good way is to use a rubber band, placing it around the pages read.
- 3. Yes. Six topics that should be avoided are accidents, disease, death, dress, money, and personal affairs.
- 4. It is wiser to invite a few more men. Then all the girls are insured partners.
- 5. The left side for the bride's family, the right side for the groom's.
- 6. The fork should be used.
- 7. Not in the least. There is nothing compulsory about it, and only a person who is weak will be influenced to go something that he or she does not want to do.
- 8. No, it is not, even if it is seen fifty times a day. Nor does it add to the beauty of a girl's face or the handsome features of an Apollo.
- 9. Yes. If a boy is taught these courtesies at home, they will come natural to him when he is elsewhere.
- 10. Perhaps Hare answers this question by saying, "When will evil speakers refrain from evil talking? When listeners refrain from evil hearing."
- 11. About eight inches.
- 12. White is the most appropriate color."

FARM CALENDAR

Timely Reminders From The Pennsylvania State College School of Agriculture

Wheat Varieties Available—Several good wheat varieties are adapted to use in Pennsylvania. According to extension agronomists of the Pennsylvania State College these varieties are Forward, Leap Prolific, Nittany, Purkoff, Thorne and Yorkwin. Both bearded and beardless wheats are represented by these six varieties, and some are well-established while others are comparatively new.

Make Sweet Cider—An outlet for otherwise marketable apples is provided in the making of sweet cider. Inferior and little known varieties can be used for the purpose, but all decayed and wormy apples must be discarded in the production of high-quality cider. Leaflet 46, "Preparation of Sweet Cider," which may be obtained from the Agricultural Publications Office, State College, Pa., gives detailed information.

State Records Set—New state horse pulling records have been set during the present fair season. The new lightweight record for teams under 3,000 pounds is 2,550 pounds tractive pull, and the heavy-weight mark for teams weighing more than 3,000 pounds is 3,700 pounds, report livestock extension specialists of the Pennsylvania State College.

Queen Bee Colonies—A young queen added to the colony of bees this fall will help to build a stronger colony for the winter and for next spring and aid in reducing the inclination to swarm next spring, say Penn State apiculturists.

Announce Garden Days—Garden Days, a program for amateur gardeners is scheduled for October 8, 9, and 10 at the Pennsylvania State College.

Dairy Show in Harrisburg—The National Dairy Show comes to Pennsylvania this year for the first time. The place is Harrisburg and the time is October 12 to 19.

SHEEP FIELD DAY IS PLANNED AT MERCER

A sheep field day is scheduled for Saturday, September 28, at Mercer. The event will begin at 10:30 a. m. and continue through the remainder of the day, announces County Agent R. C. Blaney.

The field day is sponsored by four sheep and wool growers' associations. These are Northwestern, Venango County, Lawrence County and Mercer County. These associations market cooperatively each year about 250,000 pounds of wool for 2,000 farmers in the area.

Approximately 60 registered purebred rams will be exhibited and offered for sale at private treaty for improvement of flocks in western Pennsylvania.

All phases of sheep management will be discussed and demonstrated in the program planned for the day. Dipping, judging, lamb grading, and lamb killing and cutting will be included.

The field day is expected to be one of the largest gatherings attended by sheepmen in Pennsylvania this year.
