

Innocent Bystander

Mild-mannered Ezra Kirby, Philadelphia, has vowed not to visit any more political rallies while carrying the family's supply of eggs. Ezra bought himself a dozen eggs and was going home when he rashly decided to stop in at the Wendell Willkie rally at Shibe Park. An "anti-egg" detective spotted him, took him down to city hall and asked a lot of questions. Kirby finally convinced the law that he had no intentions of shying the henfruit at Mr. Willkle, who once lived near him in Elwood, Ind. The suspected egg-thrower wore a big Willkie button, too.

Prays Way Out

An elderly Negress, testifying in a traffic accident case at Little Rock, Ark., told the Court she did not see looking straight ahead and praying," praying if she didn't see the second car, she answered: "I always prays when I gets in one of them things

The Woman Bites

This Detroit woman bit a dogcatcher. William Mulvey the dogcatcher called on Benny and Lillian Accident Breaks Colangelo who explained they were welfare dependents, unable to buy licenses for their dogs. When he collared one dog and refused to release it, Mulvey said, Mrs. Colangelo bit him on the forearm and shoulder. Her husband went into action with his fists. Police came. The dogs went to the pound, the Colangelos to jail and Mulvey to a hospital.

Long View of Pennsylvania Turnpike

Penna. Department of Commerce Photo

Stretching from Middlesex, Cumberland County, not far from Harrisburg, to Irwin, east of Pittsburgh, Pennsylvania's super-highway was opened to traffic one minute after midnight, September 30. Pictured above is a 13½ mile tangent of the roadway between the eastern tunnel at Blue Mountain and the eastern terminus near Carlisle. Seven tunnels pierce the Appalachian mountains to carry the highway which is 160 miles long. Six of the tunnels were partly bored 50 years ago for the projected con-struction of the South Penn railroad. The maximum grade on the new highway is three percent. On this modern four-lane concrete highway, east and west bound traffic is separated by a 10-foot parkway. No other highway crosses it at grade. Access to the turnpike is at Middlesex and Irwin
