> For Vice President HENRY W. WALLACE For United States Senator

JOSEPH F. GUFFEY For State Treasurer

G. HAROLD WAGNER For Auditor General

F. CLAIR ROSS For Representative in Congress WILLIAM M. AUKERMAN

For Representative in General Assembly JOHN W. DECKER

## EDITORIAL

Make no mistake about it. We're the grand prize, the bull's eye of Hitler's target.

While Hitler said he would be in London by September 15th, he did not definitely specify what year.

Airplane exports to Great Britain have stepped up considerably during the summer. Shipments of planes averaged less than 21 a month during the first part of the year but rose to 97 in June, 173 in July and 278 in August.

Conscription in the United States should be accepted as a temporary measure of defense. Just as soon as two-ocean navy and an adequate airforce guarantee the reasonable safety of this country, peace-time conscription should disappear.

Mr. Willkie does not set a very high standard of patriotic Americanism. He says four men in the world-Hitler, Mussolini, Stalin and Roosevelt regard themselves as "indispensable." To link President Roosevelt with such characters is low-brow argument, and the American people will tell Mr. Willkie so in November.

Already preparedness is causing the Army to temporarily promote officers, Recently, 2,100 first licutenants were moved up to captains and 1,500 second lieutenants became first lieutenants. All were regular Army officers with at least one year's service. Normally, second lieutenants are promoted after three years of service and become captains after three years.

The action of the Navy in ordering its entire organized 20,591 officers and enlisted men, into service is taken to indicate that the Navy means to be prepared for any emergency. Secretary Knox says that the men will be needed to man new fighting and auxiliary craft which are being launched from five weeks to six months ahead of schedule and to guard rapidly expanding shore facilities of the Navy. The reservists have been undergoing annual training and are considered competent to undertake sea duty at once. Their addition to the active list brings the Navy's strength to 239,281 officers and men, the highest number since the World War.

While General Franco may hesitate to align his country with the Rome-Berlin-Tokyo axis immediately, there is little reason to doubt that Spain will join forces with the totalitarian nations. The Spanish people have probably had enough warfare for a while and the fact that the British fleet is in position to blockade imports of foodstuffs has much to do with the hesitancy in Madrid. Meanwhile, Spanish newspapers are apparently worrying about the dilemma that the United States faces in connection with the treaty recently signed in Berlin. They hint that in the eventual settlement of world questions, Spain will be restored to her national territories, including the colonial areas to which geography, economy and history entitle her. Apparently, the Spaniards have their eyes on the Philippines and South America, "just in case."

Now that affairs in the Far East are becoming more dangerous every day, Soviet Russia finds herself wooed by both the United States and Great Britain. Whether the conferences in Washington, London and Moscow involve more than preliminary sounding to ascertain attitudes will not be apparent until de'inite announcements are made. The British have been working for some months to establish more Larmonious relations with the Soviet regime, especially since the newly formed alliance between Germany, Italy and Japan, but the two nations have not been able to agree upon a trade pact. The United States, it is felt, is in a better position to negotiate with the Soviet. Considerable doubt exists that Joseph Stalin will make an overt move because the Russlans probably figure that they are in a good spot. By declining to join either group, or to commit themselves, the Soviet retains freedom of action whenever and wherever it may be profitable for the Soviet to move.

You can bank on this as being absolutely correct: Today, President Roosevelt is the authentic voice of Democracy throughout the world. And he has behind him the rich experience and ripe training which certainly cannot be supplied by Wendell L. Willkie's service as the executive officer of a utility holding company.

The problem of what to do with the \$2,600,--000,000 in foreign gold and cash deposited in the United States by nations since conquered by Germany is before the government. The Senate recently passed a bill to give the Secretary of State the power to withhold payments except to representatives of foreign governments recognized by this country.

The Willkie style of speech seems to be contagfous. Up in Providence, Rhode Island, Mrs. William K. Vanderbilt, wife of the blue-blooded Rhode Island Governor, was urged to speak after the G. O. P. convention renominated her husband. From a gallery seat she said: "If any of you hear of any sourpuss Republicans talking down their noses about this defeatism, don't take a word of it. I say it's spinach—and to hell with it."

Any way you look at it, the fact remains that Roosevelt has done more to prepare America than the past five Republican administrations put together. He first saw the danger of Hitler. He had the courage to go on preparing while Willkie and his ilk-Senator Davis and Congressman Van Zandt-by their opposition were making him out a war monger. If picking flaws in Roosevelt's record of national defense is Willkie's best bet for becoming President, then he'd better go back to Commonwealth and Southern, because he is sure wasting his time

The unrelenting blockade of Germany and occupled territories is not spectacular but the steady pressure of British naval supremacy is having some effect on Germany. British strategists continue to believe that eventually the blockade will bring Hiter to his knees just as it brought the Kaiser to a collapse some twenty-two years ago. It is impossible to estimate German supplies of oil, alloys, rubber, lead, copper and other necessary war materials. Whatever the situation may be, it is intensified by the tight blockade which stops imports of these supplies. There is every indication that an effort will be made to persuade the people of this country to send food to the peoples of Europe this winter. While there may be a scarcity of food in certain areas, British officials assert that there will be plenty of food to go around if it is equitably distributed and not carted off to Germany

Today, the United States is busy building a tremendous Navy designed to protect this country in two oceans. Several years will elapse before the ships are completed. World conditions may change and once more there may arise in this country an economy demand that the Navy be reduced in size, Unless the people of this country have learned much since the 1920's, the probability is that this country will once again relapse into a state of semi-preparedness. Consequently, should another world crisis arise to threaten our security in the 1950's, the chances are that we will find ourselves unprepared again It is highly important that the people understand that a Navy cannot be constructed overnight. Ships built today serve the interests of this country for a quarter of a century. The giant battleships, now under construction, will give protection to this country if completed and operated, until 1960. In the long run, this will be economy.

### THE 'DUNN POLL' (The Pittsburgh Press)

General Hugh Johnson, the Republican National Committee and some other critics of the Gallup Poll have recently been paying tribute to the greater accuracy of the so-called "Dunn Poll"—a new name to most folks in the realm of checking public opinion.

The Republican National Committee released figures showing that the Dunn Poll showed Mr. Willkie well ahead of President Roosevelt in electoral

Without going into the relative merits of the two polls, it is interesting to note that Rogers C Dunn, who conducts the poll hailed as more accurate than that of Dr. Gallup, has just admitted that four years ago he predicted that Landon would carry 33

That ought to end the discussion.

(Ed. Note .- In the opinion of The Centre Democrat, it should, as it comes from a newspaper supporting Willkie 100 per cent.)

THE FRENCH AMAZE US The French planes, which recently bombed the British fortress at Gibraltar, are said to have been

"American-made Martin bombers, piloted by French The anxiety of this nation to assist France to resist aggression results in giving the Vichy government the means of striking at its former ally, which is a farce in view of our efforts to aid the

We confess that we have lost all respect for the Vichy regime. After bowing to the German invader these Frenchmen seem not only willing, but anxious, to do some of their dirty work.

Every intelligent Frenchman ought to know that, despite the talk of "blow for blow," the only chance for the establishment of a free French government depends upon the victory of Great Brit-

Consequently, it is little short of amazing that any French government, regardless of what it has to do to appease the Nazi army of occupation, should put any impediment in the way of British success.

## BRITAIN HAS CHANCE TO WIN

American Army officers, after spending several weeks in Great Britain, express the opinion that the war in Europe will be long-fought and they seem to think that the British have a change to win,

It is noted along this line, that the British Navy, Army and Air Force have increased in strength since war began last year. The morale of the people on the beleaguered island continues firm. Hitler's invasion has not begun and optimism increases as to what will happen when it starts.

The question now being cautiously discussed is. how can the British ever expect to win the war? It is pointed out that Germany has the greater population, control of vast areas of subjugated countries and the ability to unify continental resources for a bitter contest of endurance.

This is undoubtedly true. To it one must add the superior strength of the Nazi air force and the overwhelming might of its army. The navy, it appears, can be strengthened during the course of long war. What chance have the British?

It should be understood, in considering this problem, that Hitler's amazing success has been due largely to the surprise use of superior air strength. This is important because it opens the way for the British to defeat Germany without launching an actual invasion of Germany, which would cost millions of lives

If the British can equal, and then surpass the Nazi air force, they will be able to pound Germany, from center to circumference. With the fleet tightening the blockade, which will weaken Germany incustrially, and bombers giving Germany the "London-treatment," the chances are that the Nazis will cry "Kamerad!"

Now, the United States, and the dominions, play an important role in the prospects of British air supremacy. With British production of planes maintained as high as possible, with this country making available its plant resources and the dominions attending to training of pilots as well as bolstering plane production, there seems no reason to doubt the probability of British supremacy in a year or

## THE OFFICE CAT "A Little Nonsense Now and Then,

Is Relished by the Wisest Men"

### Some Choke, Aye Boss?

He hanged himself with a small piece of rope. With this world he was terribly bored. The note that he left read: "I do this thing of my own free will and a cord."

### How Are They on Birds?

Kind Old Gentleman-"What do you call those two kittens, Johnny? Small Boy-"I call 'em Tom and Harry." Old Gentleman-"Why don't you name them Cook and Peary after above figures.

the great explorers?" Small Boy-"Aw, gwan, mister, these ain't pole cats."

### By George, He Needed It

A superstitious old gentleman who believed in the old saying, "See difference between a poor bull and a pin, pick it up, and all day you'll have good luck," one day saw a pin a good bull for the average herd. on the pavement.

Bending down to pick it up, his hat fell off and rolled into the gutter, his eye glasses fell and broke on the pavement, his suspenders gave way, he burst the button hole in the back of his shirt collar-but he got

### Good Markmanship

A farmer was visiting in a Mexican settlement after some years' ab-

Talking to an old friend on a ranch, he said: "So old Tom's gone.

Did you miss him?" "No," replied the other. "That's why he's gone."

### As Time Goes On

Three turtles went into a bar room and ordered three beers. Finding they had no money, the biggest turtle told the smallest turtle to go home for some

"No," said the smallest turtle, "if I do, you'll drink my beer." The other turtles swore on their word of honor, that they wouldn't your partner happy.

touch his beer. But after two years the biggest turtle turned to the other turtle and said: "Hagn't we better drink the little turtle's beer?" Just then the little turtle poked his nose around the end of the bar and said, "if you do, I won't go home for the money.

### Leaving Him Speechless

Sam was charged with chicken stealing, and the bailiff had sworn him with the customary "Tell the truth, the whole truth, and nothing

"Jedge, if all them limitations that man has just put on me means much, why didn't he get you to having been brought over in 1821.

### anything, Ah don' believe Ah got a word to say.

Wider Spaced Customer-"How's the vegetable soup today?" Waitress-"Well, it's a good deal like yesterday's hash, only looser."

No Relief For the Relief Office The following are taken from letters received by a certain relief headquarters:

Please forward my money at once as I have fallen into errors with my landlord "I have no children as my husband is a bus driver, and he works all day and night.

"I have not got sick pay. I have six children, Can you tell me why "In accordance with your instructions I have given birth to twins get a job. Try to put this other in the enclosed envelope

### Tax Squeezer

The strong man at the fair had just finished squeezing the juice this other man up and try to make out of a lemon.

Holding it up before the crowd he shouted: "I'll give five dollars to them and your husband. anyone who can squeeze another drop out of this lemon."

If you continue to let this other unworthy man occupy your thoughts of the crowd, squeezed several more drops from it. "It's easy," he murmured, "I'm an income tax collector."

## And Then the Jig Was Up

Lizzie's grouchy old boss was speaking his mind the other day about Dear Louisa: women in general "These cussed super-intelligent girls give me a pain in the head," he snorted

"What about stenographers?" asked Lizzie, "They're always wanting to sit on your lap-they give me a pain in for Christmas and other occasions, the tummy," he raved on.

"And the young things who like to pet?" tempted Lizzie.

"They give me a great big pain in the neck," came the reply. Speaking about it later, Lizzie said she had it right on the end of ANSWER: her tongue to ask him about hula-hula dancers when the telephone

## You Can't Go Wrong

C. Antisep tie San-Cura Ointment is equally fine for minor sores, skin irritations boils, scalds and itching piles. 35c at all drug stores. It is most helpful to first bathe affected part with Medicated San-Cura Soap, mebert P.D. Coatesville, Par | Farrish's Drug Store

### RAISE HEIFERS AT HOME TO BUILD DAIRY HERD

Two ways are open to the dairyman who wishes to obtain a herd of high-producing cows. He can buy cows or he can breed and raise the necessary helfers for replacements explains County Agent R. C. Blan-

A dairyman, careful and keen in selecting cows, may be able to purchase and gradually collect a highproducing herd. In buying a herd, unseen and unknown troubles, such as disease and breeding troubles, as well as cows of low production, may be obtained.

A good breeding program and the raising of all replacements will eliminate many troubles. The economy of raising replacements also is rather significant after studying the

The cost of raising a well-bred heifer is no greater than that of raising a scrub. An increase of only 300 to 500 pounds of milk per cow per year would more than pay the

## LOUISA'S LETTER

In answer to "Worried," of Virginia, you seem to have made an awful meas of your life. Of course any reason but love. It just doesn't plate? pay and every one finds that out in time. But if you do marry for other reasons, then it is only fair for you to do everything in your power to make a go of it and make

You say you met the man you love a year after you were married. more honorable to have gotten a divorce then and married the other man than to have carried on an affair with him all these years, while living under your husband's haven't much opinion of the man Then the judge asked the poor darky what he had to say for him- you love. He doesn't seem to have much backbone. If he loved you so marry him when he was free? Instead of that he marries someone else and then comes to you with that line about not caring anything for her. He wants you to leave your husband. Well, in my opinion, you are liable to be left high and dry without either one if you do, for your friend will probably explain that his wife won't give him a divorce after you have taken the final step

My advice to you, if you have no children and feel that you care nothing for your husband, is to leave and go somewhere else and man and your infatuation for him out of your mind by becoming interested in other things and other people. If you have children, give a honorable, respectable home for

you are heading straight for disaster.

I read your advice in the papers and learn lots from them. I would like to know what an engaged couple can give each other

# **Query and Answer Column**

PROBLEM: A man bought a pair of shoes priced at four dollars. He tendered a \$10 bill to the dealer. He departed with the shoes and six dollars in change. When the dealer deposited his money at the bank, the cashier detected that the \$10-bill was counterfeit. The banker expropriated the bill and sent it to Washington. What was the dealer's total loss in the transaction? (Answer elsewhere in this department.)

G. N.-Would it be constitutional for a member of the President's cabinet to hold two cabinet positions at the same time?

Ans.-There is nothing unconstitutional about it. This circumstance happened once in the history of the United States when James Monroe served for a time in Madison's cabinet as both Secretary of State and Secretary of War.

F. W .-- When a lady and her escort enter a church or theater, especially when there is no usher, is it proper for the man to walk ahead of the lady or vice versa?

Ans,-Either way is perfectly good form, according to the supreme court of etiquette. Usually the better bred gentlemen precedes the lady he is escorting because it is the easier for him to hand the lady gracefully to her seat. An exception, of course, is made in a church when they are headed for a certain pew and the man happens to be unfamiliar with the interior

V. J .- A history of England which I have says that Cromwell escaped to Europe and later returned to England. This infers that England is not a part of Europe. Is that true?

Ans.-It is not true. Great Britain, although an island, is so close to the continent of Europe that it is considered part of it. The author of your history would have done better if he had said that "The Continent" is the phrase customarily used to distinguish continental Europe from the British Isles.

L. H .- Did the United States ever borrow any money from Ger-

Ans .- No. The United States has not borrowed any money from any foreign country since the adoption of the Constitution way back in the early days when this nation was in its swaddling clothes.

B. D.-When and how are distinguished Americans placed in the it never pays to marry any one for Hall of Fame? Are they represented by picture, bust, statue, or just a Ans.-Candidates for the American Hall of Fame are elected every

> to make the recordings, but gradually these plates are being replaced by busts of the members elected. J. N .- Is there such a thing as a tree-climbing fish? Can they walk

> five years after the first election in 1900. At first, plates only were used

on the ground? Ans,-No. However, there is a fish in India which is called a treeclimbing fish, but it never performs that feat. By means of its gills and Well, it certainly would have been fins it can travel over land from one body of water to another, and can crawl on inclined tree trunks that have fallen into the water. This is

as close as it ever comes to climbing trees. L. O. B .- Please tell me how pewter can be cleaned.

Ans,-Pewter is generally a soft alloy and for this reason should be cleaned or polished with mild abrasives, such as whiting, rouge, or fine roof. From your description, I rottenstone mixed with oil. Metal polishes containing mild abrasives should be satisfactory for cleaning and polishing pewter ware. J. T .- Where is Major Andre, the spy, buried?

Ans.-He is buried in Westminster Abbey, in London, the remains L. T .- Under parliamentary law, if an appeal is made from the de-

cision of the chair, should the presiding officer resign the chair until the matter is settled? Ans.-Not unless he wishes to do so. The officer has the right to explain the reason for the decision without leaving the chair. After debate he should put the question in the affirmative, thus: Shall the decision of the chair be maintained

T. V .- Where in the Bible is the verse about remembering the Creator in the days of youth? Ans.—The Bible passage to which you refer is found in Ecclesiastes

12:1: Remember now thy Creator in the days of thy youth. J. W .- Please give me information regarding enlistment in the United States Navy for one year under the Selective Service Act recent-Ans.-The United States Navy and Marine Corps are not taking

enlistments at the present time as there are long waiting lists for these branches of service B. M .- How many brothers and sisters did Jesse James have? Ans.-He had a sister, Susan, and a brother, Alexander Franklin,

known as Frank. He also had two half-sisters, Sallie and Susan Samuels and two half-brothers, John and Archie Samuels, J. S .- What is the total acreage of the forests and woodlands in Alaska?

Ans.-It is estimated to be about 100,000,000, of which approximately 21,000,000 have been set apart in two National Forests. L. T .- The concrete floor of my cellar gets very dusty. What is the

Ans.—Hardeners for making concrete floors dustless can be bought.

Also the following treatment will suffice for a considerable time and is easily applied. Scrub the floor with clean water and allow it to dry thoroughly. Apply a solution of 1 part of water glass (sodium silicate) in 3 parts of lukewarm water by weight, with a wide brush or swab. Two or three coats are advised, each applied after the preceding one has

R. D.-What is the most popular size in men's hats? Ans.-It is estimated that 25 per cent of the hats sold to men are size 6 7-8.

B. R.-Is smoking allowed in Congress? Ans.-Rules of the Senate and the House of Representatives do not

C. O.-What was the first number called in the World War draft? Ans.-The first number that was drawn from the glass bowl, used for this purpose in 1917, was 258. M. S .- How did the ladybug get its name?

Ans.-The ladybug or ladybird is so called because in the Middle Ages it was dedicated to the Virgin Mary. M. F .- I should like to know where in the Constitution the statement about cruel punishment occurs. Ans,-The Eighth Amendment to the Constitution says: "Excessive

bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted." V. S. D.-How is adrenalin extracted from toads? Ans.-The toad is first irritated to make it angry after which the

salivary glands, which contain the adrenalin, are extracted. W. G .- What is the oldest living thing in the world today? Ans.—The sequoia is believed to be the oldest living thing today. Certain specimens are known to be 2000 years old. There are many still living which were saplings at the time of the Crucifixion.

J. L. B .- Where do the presidential electors meet to cast their votes?

Ans,-Presidential electors meet in their own State capitals to cast

their ballots for President. E. P .- What good does it do to yawn? Ans.-Yawning restores the equilibrium of the air pressure between the middle ear and the outside ear. The result is often a feeling of relaxation.

M. D.-Can you tell me something about the breed of cattle known as the Santa Gertrudis? Ans.-This breed is a hybrid cross between the Zebu and the Shorthorn, and has recently been recognized by the Department of Agriculture. Thirty years have been spent in developing it.

Answer to Problem: His loss was a pair of shoes and six dollars in cash. The counterfeit bill does not figure in the transaction, as it was worthless.

## More Knockless Power

AFTER TRAVELING more than 100,000 miles each, on new Atlantic White Flash PLUS (without carbon cleaning), The Atlantic Refining Company's Florida Road Test cars still hadn't developed a pronounced knock . . . and were still giving practically new-car mileage, pick-up and top-speed power on this new gasoline! (Advt.)
