ELECTRIC COOKERY Cost Finder Present Electric Bill 12.00 Number Persons in Family 4 Average Monthly Cost if you switch to Electric Range Cooking 11.00

FACT IS STRANGER THAN FICTION There are two reasons why you should check electric cooking cost with the Cost Finder. First, it's THE authority on the subject. Second, it will show you that this convenient method is NOT expensive. Electric cooking cost varies, from home to home—just as the cost of operating an automobile varies. A 4-person family with a present electric bill of \$3.00, for example, would pay about \$1.61 a month. The same family, with a present electric bill of \$5.50, however, would pay only about \$1.37.
