The woods near Reed's service station, west of State College, about 7 o'clock Monday morning.

Benjamin Grytko, Jr., and his brother, Frank, of the Brockerhoff Hotel, tried a blitzkrieg on deer and the plan worked so successfully that both have nice specimens hanging over the marquee of the hotel.

The two youthful Nimrods both aviation enthusiasts, will tell you that before the season opened they spent days cruising over the country looking over the deer herds, and photographing them.

Ben got a 6-point buck weighing about 130 pounds dead, Monday while hunting in Grindstone Hollow on the Snow Shoe mountain.

representative of the Sixth Annual District of the NLRB. Blackmore later declared that the Titan Company and A. F. of L. representatives gave every assistance in conducting the election.

The tally of the vote was made by representatives of the NLRB, Henry Shore, of Pittsburgh, an attorney for the board, and other officials were present during the day.

A Mr. Finnegan, organizer for the A. F. of L., reported Tuesday night that shortly after the election has been certified by the NLRB, negotiations for a working agreement between the Titan Company and its workers will begin.

The strike nearly four years ago resulted when some Titan workers affiliated themselves with the A. F. of L. The NLRB, after lengthy hearings, filed an order against the Titan Company. The order was appealed through the courts and up to the U. S. Supreme Court, but was not all along the line.

An A. F. of L. spokesman yesterday reported that the gigantic task of computing back pay due the striking workers has been resumed by the NLRB after a delay caused by lack of funds, and that the final amount due each person is expected to be available about the first of the year.

ALTOONA PLACES RIOT BLAME ON JOHNSTOWN HIGH COACH The Altoona School Board in a resolution Monday night placed the entire blame for the free-for-all fight which stopped a Johnstown-Altoona high school football game November 9 upon the Johnstown coach, whom it rightfully belongs.

The board directed the athletic council not to schedule any games "either before 1943 or later, where Coach (Harold) Weigle is in charge."

Weigle recently was given a raise in salary by the Johnstown School Board.

On the initial flight eastbound, State College had a total of 1996 letters, which were picked up at the contact point on College Farm No. 3, nearly a mile east of the intersection of Plidez avenue and Shortway Road, State College. There were 47 letters for the afternoon flight. The third Centre county pickup station is at Phillipsburg.

Sunday afternoon in preparation for the opening, an airplane flew over the route while pilots familiarized themselves with the terrain and contact points. Flying low over the pick-up station here the plane made a practice "contact" shortly after 1 o'clock Sunday afternoon.

Officials expressed considerable perplexity regarding the shooting of a Pittsburgh man and wife on the Snow Shoe-Remoto road, in Centre county, about 2:30 o'clock Monday afternoon.

invited to attend the meeting sponsored by the Jackson-Cristman-Saylor Post, No. 1600.

Although no official word has been received regarding the organization of such a unit, it has been suggested that it is possible that an anti-aircraft unit will be formed. It is required by law that Pennsylvania National Guard forces called for duty or for lengthy training periods must be replaced by the "home guard," officers of the post declared.

One purpose of the meeting is that of having eligible men register for service in case of emergency. Veterans are asked to bring their service discharge papers. It is understood that the proposed organization will be made up of veterans and those who have been in service with the United States forces.

The meeting at the V. F. W. home will begin at 7 p. m. Refreshments will be served by the post.

and Mrs. Fred Confer and family, and Mr. and Mrs. Thurman Davis and family. The Davises occupied a small apartment in the home, which was owned by Mr. Confer.

Mrs. Davis was the only person in the building at the time, and she was not aware of the fire in the kitchen of the Confer quarters until it was called to her attention.

A call was sent to the Bellefonte fire department and when the Undine Fire Company arrived on the scene the Justice home was on fire in several places. Firemen quickly extinguished the minor outbreaks, and used the available water supply to prevent sparks from being blown to other buildings in the vicinity.

Mr. Confer, an employe of the Titan Metal Company, had some insurance on the house but none on his furniture. Mr. Davis a WPA worker, carried no insurance. Mr. and Mrs. Davis are the parents of an infant daughter, who for several days has been undergoing treatment at the Centre County Hospital.

Included in the Confer loss was \$40 in cash, a diamond ring, a watch and other valuables. The Davis family lost a brand new washing machine, and both families lost all furniture and clothing.

several years ago. The new structure will be of Colonial design to match its surroundings and will be built of red brick with white trim. It will be 50 feet in width, 67 feet deep and two stories high. The front of the building will be approximately on a line with the Allison building to the south.

On the first floor will be the lobby, traffic and commercial quarters, locker room and coal storage space will be on a slightly lower level.

The second floor will be devoted to terminal and operation rooms. Metal doors, concrete floors, a slate roof, and fireproof construction throughout are called for in the plans, it is reported.

The building will be similar to the one recently erected by the Bell Company in Lock Haven. The Colonial appearance of the structure will be enhanced by shutters and by a Colonial doorway. Granite steps topped by a wrought iron railing will complete the effect. A driveway in the rear will be lined by a curb, with grass plots at each side.

Reports have it that the Bell Company first contemplated erecting a warehouse at the rear of the new exchange building. Since then, it is understood, that plan has been abandoned and the warehouse is to be located elsewhere.
