Last Friday morning, Mrs. Charles Brown was going down town from her home on North street, Millheim, when she slipped and fell near the F. F. Weiser home, injuring an ankle. It was thought at first that the ankle was severely sprained but later developments proved that a bone was broken.

Turning an ankle when going into the cellar at the Farmers Supply Company for coal to feed the furnace, one day last week, H. S. Neese, of Millheim, threw out his hand to save himself from a fall. In doing so, the hand struck a concrete wall breaking one of the bones in the left hand. Not realizing that it was broken, he kept right on working until the increasingly severe pains made him seek the services of a physician.

THE LORD'S SUPPER

International Sunday School Lesson for March 16, 1941,

GOLDEN TEXT: "As often as ye eat this bread and drink the cup, ye proclaim the Lord's death till he come."-1 Cor. 11:

Lesson Text: Luke 22: 14-30.

Our last lesson closed with a day controversy. The enemies of Jesus sought to trap him several times by propounding perplexing juestions, each of which he answered in such a way as to avoid the pitfalls intended for him. He spent his last active days teaching.

Jesus also took opportunity to warn his disciples against those who would falsely claims the allegiance which was due himself. He realized that it was a matter of a few hours before his departure and wanted to fortify his followers as far as possible for the trials, and persecution which would beset them. He warned them of many disastrous calamities, of families divided and hatred engendered but reassured them that not one of their hairs Merle Buckwalter, of Philipsburg, would perish, therefore, "in your patience possess ye your souls." He admonished them to watch and other interests to the exclusion of

Jesus to exert his own power. "The Paschal Feast was a family feast, at which the head of the family presided," says G. Campbell Morgan, "Here then, was something strange, something different; a group of men all away from their Sheriff Edward R. Miller, to First own homes. They were guests in National Bank of Bellefonte, tract the house of another man, and that man was not presiding; he had lent Sheriff Edward R. Miller, to First the room. Yet this was a family National Bank of Centre Hall, tract gathering, but it was a new family! Jesus was the Head. He took charge. He presided, as the father Soult, et al, of Clearfield, tract of the household always presided at the Paschal Feast. Here was a new Sheriff Edward R. Miller, to John kinship. Away back in his ministry Soult, et al, of Clearfield, tract he had said one day, "Who is my mother, who are my brethren, and Long and daughters Georgette, Virmy sisters? Jesus arranged to make his last evening with his disciples an occasion which they would always remember and instituted a model commemoralive service. Upon these few men would rest the weight of his kingdom and the ultimate success of the mission of Jesus would be determined by the faith and power of these intimate followers the days which were to come. With the responsibility to be assumed Jesus made his last supper with them a source of unending spiritual inspiration, not only to them but to all persons, who have thourgh the succeeding centuries adopted his teachings and professed Millheim were supper guests at the early church.

The memorial ceremony was very simple and effective. As he passed the bread to them he made it the symbol for his own body which would soon be broken on the cross As they drank from the cup then and always afterwards the drink became symbolical of his blood which was shed for their own shortcomings. While a large body of believers accept the theory that these symbols became real, the fact that Jesus used them in a representative way is apart from the fact that he was alive when the first supper was observed. So today, in many lands and to countless thousands the communion is a memorial of the love and suffering of Jesus.

"We eat bread and we drink wine: but the great thing is what we are doing in our minds at the same time," says Richard Roberts," There is no magic at this table. It means that our minds may do with Jesus with the life that was in him, what our bodies do with bread and wine That is assimilation. There is nothing out of the common in this Two people who love one another assimilate one another; they share each other's life. Friends-as it were penetrate and indwell each other. In fellowship, we absorb each other. So communion with Christ grows into union with Christ Communion in the mind with Jesus of Nazareth; communion in the soul with the everliving Christ. In the mind dwelling with Jesus in Galilee, in the spirit aspiring to the Christ at the right hand of God. Keeping company with him and living among men accordingly."
