Ideal Weather Greets First-Day Anglers

(Continued from page one)

Most of the trout taken averaged from about 8 to 13 inches in length. Russell Smoyer, aged 14, of East Beaver street, landed a nice 18-inch rainbow. One of the Johnson youngsters hooked and landed a 17-inch trout below the Lamb street bridge, and Frank Mackey, of Valentine Hill, got a 17-inch rainbow in the first pool of the Logans branch of East Curran street, landed an 18-inch trout.

One of the opening day's oddest catches was reported by a Mr. Nelson, living on Halfmoon Hill. He was angling in the Match Factory dam, Bellefonte, when he hooked a fish. He was perplexed when he first saw the fish on his line, and was further puzzled when he got it out of the land and discovered that it was a black bass. Spring Creek has never been known to be a black bass stream; and it is believed Mr. Nelson's catch somehow strayed from one of the hatchery pens.

Andy Kachik, Mayor of Prosserstown, went out in his back yard before breakfast Tuesday and caught a nice trout in Logans branch, which forms the rear boundary of his yard. Clayton Greenland, of Willowbank street, caught seven before going to work.

Other successful anglers, Tuesday, were: David Shuey, 13, of Bush Addition, seven trout, four over 12 inches; Robert Hess, Boalsburg, 14, Lynn Platt, State College, three 14-inch brown trout from Colyer Gap; Don Frey, Lemont, seven rainbows ranging from 10 to 17 inches, taken in Spring Creek; W. B. Armstrong, Lemont, two 16-inch rainbows, taken from Spring Creek; Mrs. Wilbur Boddy, of Pine Grove Mills, two 16-inch trout taken in Whipple's Dam.

Max and Ronald Ross, fishing with their father, Fred Ross, State College in Whipple's dam, snagged six rainbows running in size from 18 inches down to a little over a foot in length; Arthur "Toots" Wilson, Bellefonte, five nice trout; Patrick Wherry, 10, of Bellefonte, took two nice trout, also near Bellefonte.

Others were: Guy Stover, State College, two rainbows and three brown, Spring Creek; Ned Saxton, Lemont, eight brown and rainbows, Spring Creek; Fred Fisher, Bellefonte, six trout from Logan Branch, 12 to 18 inches long; Mary Ward, of Prosserstown, a 17-inch trout from the dam near her home; Arthur Dale, Jr., Bellefonte, two nice trout on Logan Branch.

Don Frear, of State College, took an 18-inch rainbow from Whipple's dam, and Duane Doly recorded two 15-inchers, brown and rainbow, also from Whipple's.

Other catches were: John Ferguson, State College, three brown from 14 to 18 inches, Spring Creek;

Undines Get New Pumper

(Continued from page one)

With a 500-gallon capacity pump mounted behind a two-man cab for the driver and his assistant. Back of the pump is a hose bed which has a capacity of about 800 feet of standard fire hose. A booster tank carries 200 gallons of water and is equipped with its own small sized hose for minor fires.

The pumper, like the emergency truck, is completely streamlined and is painted blue with gold trimmings. The old pumper has been sold to the Millsburg fire department and will be delivered as soon as the new apparatus has been given final tests.

The truck was driven here from the body shop in Altoona yesterday by Paul R. Emerick and Vincent Flynn, members of the Undine's equipment committee.

Both the pumper and the emergency truck are being purchased entirely by the Undine Company, without any financial assistance from the borough—for the first time in the history of the Bellefonte Fire Department. Undine officials yesterday indicated that within the past four months, the Undine Fire Company has purchased approximately \$50,000 worth of equipment for the town's fire department.

New Sedan Is Badly Damaged By Fire

body of the car melted off the hardware in the interior, destroyed all the upholstery, ruined the interior and exterior finish of the car, warped the metal roof and destroyed most of the glass. Six firemen arrived at the scene the horn blown and the fire was extinguished continuously until the fire was out, and firemen disconnected the battery.

The motor and chassis of the car apparently were not damaged. The car, approximately one month old, was covered by insurance. It is believed the fire may have originated from a spark blowing in the window while the machine was parked.

SPRING TWP. SCHOOLS TO PRODUCE PAGEANT

The pupils of the Spring Township schools will stage a patriotic pageant entitled "America the Beautiful," on Thursday, April 24, at 7:45 p. m., in the Grange Hall at Pleasant Gap.

The program has been chosen from well known American songs which will be sung by a large chorus of the school children. About one hundred fifty pupils will take part. Members of the different schools appearing have worked diligently to make this one of the finest musical programs ever given by the schools. An offering will be taken.

This program is in charge of Miss Elyz Winkelsch, who is music director for Spring Township, assisted by the other teachers.

Oppose Increase In License Fee

(Continued from Page 1)

The state federation has favored increasing the fishing license fee to \$2 providing the additional 50 cents in revenue is earmarked for the purchase of additional lakes and fishing rights for public use.

A Lake Erie blue pike dinner was served at the banquet held by the women of the Pleasant Gap Methodist church. Invocation was asked by Dr. J. W. Claudy, superintendent of Rockview penitentiary. Following the dinner, the group moved to the meeting room upstairs for the program. Charles W. Stoddard, president of the county federation, introduced Dr. Logan Bennett, director of wildlife research work at Penn State, who performed the duties of toastmaster.

Dr. Ralph L. Watts, the dean of State College fishermen, discussed the importance of practicing sportsmanship not only in fishing and hunting, but in everyday life as well. In order to get all that he can out of life, a man should learn to play in a sportsmanlike manner, he declared.

Oliver M. Deibler of Greensburg, former Commissioner of Fisheries of Pennsylvania, defined the different types of fishermen to be found in streams and suggested that the sport would be more enjoyable for all if every angler observed the rules of common courtesy while stream fishing. No sport, be it baseball, prize-fighting, golf or any other game, can be enjoyed unless it is played with a certain amount of sportsmanship. He urged his audience to fish for the sport of it and let a few of the trout go back into the stream again once the angler has had the joy of hooking, playing and landing them.

Declaring that Pennsylvania is the greatest fishermen's paradise in the country, Merrill C. Merritts, of Altoona, president of the Pennsylvania Federation of Sportsmen's Clubs, pointed out that hunting and fishing represent the largest sports activities in this state. There are about 100,000 organized sportsmen in the state today, as compared with more than 500,000 fishermen in Pennsylvania, he stated, and added that there is a real need to increase the membership in sportsmen's organizations. He suggested that one way of building up the organization is to have all fathers teach their sons to hunt and fish.

With Randolph Thompson, of State College, operating the machine, four reels of Field & Stream moving pictures were shown. The pictures included "Land of the Muckies," portraying the thrilling experiences of anglers fishing for muskies, the Cuban tarpon, salmon, and rainbow trout. Part of a reel showing the work done by the active junior sportsmen's group at State College, under the leadership of Mr. Stoddard, also were shown.

The following guests were introduced by the toastmaster: Dr. Claudy, Dewey Sorenson, superintendent of the Pleasant Gap Fish Hatchery; "Pete" Hoffman, Bellefonte; John B. McCool, president of the Clinton County Sportsmen; George Guzman, Altoona; Ralph Thompson, Game Protector "Tom" Mosler, of Bellefonte, and "Red" Derr, president of the Pleasant Gap club.

Corman, Spring Mills; fruit basket, McKee's Market, State College; Penn State white shoe cleaner, Penn State Shoe Shop, State College; David H.
