THE AMERICAN SOLDIER . . . A DEFENDER OF TRUE DEMOCRACY

Many are the years that have passed since the first American Soldiers emerged victorious from the battle which determined a people's right to a democratic life. Many are the battlefields to which soldiers wearing the uniform of the army of the United States of America have carried the spirit of democracy.

Today we observe another Memorial Day. Wreaths will be placed ... battlegrounds visited ... speeches made ... all over the land, in tribute to the men who lived, fought and died that freedom might continue to ring out, here. Yet the best tribute any American can pay those men's memory is to pledge himself to living democratically, whatever part he plays in civil life, or as an active participant in our nation's defense.
