It might pay you to be a little suspicious of the man who is willing to let you in on a "good thing."

Ready to 'Snag' Hitler
President H. L. Donovan, of the University of Kentucky, Tuesday advocated immediate entry of the United States into war against Germany. In an address to fellow members of the American Legion, in state convention, Donovan declared: "The sooner we get into the fray, the sooner it will be over and the better it will be for the nation. I say we should say to Hitler now: 'Strike, you rattlesnake, strike. We were never better prepared.'" If you want to win the praise of any individual, just say some nice things about that individual and arrange for them to get to the ears of the one you have in mind.

America's problems would be solved if the majority of the nation consistently followed the course that provides for the common welfare.

Drive carefully; you can never tell who will be the next victim of careless driving; it might be somebody that you can't afford to be without.
