parking space 7 feet wide, placed at a 30 degree angle to the curb, takes up 14 feet of curb space. A 7-foot space angled at 42 degrees, (as in Bellefonte), takes up only 101/2 feet of curb space. The proper way to measure widths of parking spaces is to put the tape line straight across the space in which the car is parked. And now we hope this matter is settled for good.

WHO'S WACKY?

Maybe this corner should be cutting paper dolls in a padded cell. We wouldn't know, but we do know that a suggestion made in Council Monday night that the additional parking meters to be installed in Bellefonte should give two hours of parking for five cents, while the meters already in use charge five cents for one hour, strikes us as being pure nonsense. Why one man should have to pay five cents an hour, while another motorist, perhaps in the very next stall, gets two hours for five cents, is beyond our admittedly sketchy comprehension.

ATTACKER SEEN:

Persons who were in the vicinity of the attack on Miss Arlene Lyons, near the County Home, Monday night, claim they saw the man run and get into his car. They claim they saw the same man in the same car a short time later. They followed him around town, drove close enough to recognize him, and gave police his name. But because the

Rape A Los Angeles girl, 18 years old, recently sued a religious cult for \$1,000,000 damages on 8 claim that she was raped by a cult leader 7 years ago. The action was against the leaders and 20,000 unidentified members of the Mazdayazen cult. The girl claimed that when she was 11 years old, she was told by a high priest to submit to one of his disciples because it was an honor religion and my duty. After deliberating more than seven hours, the jury brought in a verdict against the girl.

Legal Laugh-The story is told of a hit and run driver who fled after an accident in which his car damaged the fender of a taxi. He was finally traced by the police and brought before the Judge. Said the driver:

The weather tried desperately to gain feature honors Saturday afternoon. After the heavy rain storm. a blistering sun beat down upon the drenched spectators, overcoming a number of women and several

marchers. But to Altoonans, the features of one of the largest parades and certainly the most colorful ever held were the appearances of "the boys Five tracts of land in the same in khaki" from Indiantown Gap, the locality belonging to George Holden Maccabee Girls' drum and bugle corps in their new uniforms of red jackets and black skirts, worn for at the sale for paving liens. This the first time, and the Legion units from Blair county.

Every section of the state was represented in the parade. Some of the 12 foot strip of land totaling 311 feet outstanding bands and drum corps were in line. Forty & Eight locomotives and box cars and mummers added frivolty to the parade.
