World of Religion

Under the editorship of Dr. H. Y. Chang, a recognized authority on rural welfare in China, "The Christian Farmer" is being published regularly in Changsha despite war conditions. It has a mailing list of 15,000 and circulates in nineteen provinces of both free and occupied China.

"Old news is good news" at the Goodwill Industries in Los Angeles for its new "paper houses" into which old newspapers are collected from thousands of homes in the city, because it provides employment for a large group of handicapped men, elderly men, and needy men who want work—men otherwise unemployable.

Dr. Paul Klapper, president of Queens College, New York City, speaking before the Jewish Sisterhood of the United Synagogues of America, said: "As a people we Americans are more accustomed to get than to give. In too many instances our social order is regarded as a social beneficence to which we repair to replenish our depleted material or spiritual stocks. We are reluctant givers because we have received so much. We must give thought to becoming a nation of givers—not of takers alone, but of services."

May Complete Road, Nov. 1st

The surface is November 1. The bridge at Howard is of the most concern, because of the possible delayed delivery of the steel. However, traffic can be routed around that point readily when the new highway is thrown open for use by the public.

To give visual and fitting expression to your love and regard, the medium and the form must be chosen with care. Comforting assurance of a duty well performed will be yours if you choose a genuine Rock of Ages Memorial to stand as your record for the years to come.
