Sunday School Lesson

OVERCOMING THE ADVERSARY International Sunday School Lesson for September 21, 1941.

GOLDEN TEXT: "And they overcame him by the blood of the Lamb, and by the word of their testimony; and they loved not their lives unto the death." Rev. 12:11.

(Lesson Text: Revelation 12: 7-11; 15: 2-4).

In studying this lesson, one should always keep in mind the symbolism in John's account of his vision as recorded in the Revelation. Space does not permit full consideration of the chapters leading up to and following the scripture references given for our study.

Our scripture passage opens with the assertion, "And there was war in heaven." The forces of good, led by Michael and his angels, were arrayed against the forces of evil, led by the dragon, later described as "that old serpent, called the Devil and Satan, which deceiveth the whole world," and his forces.

Everyone is conscious of the war which is always raging between the forces of righteousness, on the one side, and the forces of evil, on the other. This is true in the world and in the hearts of individuals.

Paul, the most outstanding Christian, the world has even seen since Christ, in writing to the Romans, recognized this fact when he declared, "For the good that I would do I do not, but the evil which I would not, that I do. Now if I do that I would not, it is no more I that do it, but sin that dwelleth in me." (Rom. 7: 20-21)

However, it is encouraging to know that, as the forces of right defeated the forces of evil in Heaven, so can it be here on earth. There are three ways in which Christians can overcome the power of Satan. The first way is by "the blood of the Lamb." Human strength is not

powerful enough to fight spiritual powers, because "we wrestle not against flesh and blood, but against spiritual wickedness in high places." When we receive Christ as our Saviour, accepting his sacrifice for our salvation from sin, and try to make our lives conform to his teaching, then the power of Satan over us is broken. How often Christians fall in their fight against evil because they rely on their own strength, instead of depending on God!

The second way to overcome evil is through Christian witnessing. How the Devil does fear the testimony of a consecrated Christian witness. The amazing growth of the early church was made possible because of the personal witnessing of the believers. The enemies of Christ tried to keep Peter and John from preaching, but they rebelled. "We cannot but speak the things which we have seen and heard" (Acts 4: 20). Paul also declared, "Woe is me, if I preach not the gospel." Christians today can talk of practically everything under the sun but their own Christian experience, the testimony of which the world needs more than anything else.

The third way in which Christians may overcome evil is through sacrificial living—even to the point of being willing to die, if need be, for the faith that is theirs. Christians in this country have become so soft, for the most part, that they shrink from the word "sacrifice." They will do what they can, give what they can, and go where they can—conveniently. But too many Christians are unwilling to inconvenience themselves, to deny themselves pleasures, or luxuries, for the gospel's sake.

The answer most frequently heard is a request for "workmen in the church is made, it is 'I haven't time.' But those people who claim they have not time for God's work, have time for practically anything else they want to do. They have the time, but they don't want the responsibility of it. They don't care to be tied down to any task that will call for sacrifice of other things. Such Christians will never live victoriously over sin until they are willing to sacrifice self on the altar of service. It was said of the early Christians that "they first gave themselves unto the Lord," and all they had and all they were naturally followed.

NEWS IN THE WORLD OF RELIGION BY W.W. REID

The Central Hospital and Sanatorium among the Yananites in northwest China is built in caves—120 of them—street upon street, half a mile up into the mountains. There it is believed it is safe from bombing.

It is a "certainly the eighth annual" says a Canadian missionary who recently visited it. The ground excavated from the caves has been built into wide outdoor porches where patients can sit or lie in the glorious mountain air and sun.

Some are connecting with deep tunnels running far into the mountains in case of air raids and some have underground heating. Seven caves are "waiting caves" for expectant mothers; five are for post-delivery cases. Factory workers, professors' wives, student mothers, official wives and all mothers from government institutions get the same care in the same wards.

From the American Friends Service Committee—the relief body of the Quakers with which practically all American Protestant churches are cooperating—comes word of two special needs for relief materials: The English Quakers need large quantities of bedding for their work in London, Birmingham, Bristol, Southampton and several other bombed cities where they are finding it necessary to provide an increasing number of shelters.

Donations of clothing, either used or new for use in England, France or elsewhere that the Friends are serving may be sent direct to the American Friends Service Committee Storehouse, 1515 Cherry Street, Philadelphia, Pa.

The eight million members of the Methodist Church gave a total of \$90,225,961 for all church purposes during the year ending May 31, 1941, according to Treasurer O. W. Anna.

HELP FOR YOU

Right Here Is the Easy, Quick Answers for Most of the Worry Over Headaches—Gas Pains—Nervous Feeling From Lazy Bowel—Scant Kidney Elimination.

THE FAULT FOR DISTRESSING AILMENTS IS OFTEN EASY TO EXPLAIN

Many stomach pains, instead of being Gas Pains, are in fact brought on by slow emptying of the stomach, and some distention. Bringing with it the feeling of fullness and the pressing of the heart down nearly serves to make us feel nervous. Gas on the stomach also delays digestion. It is this that the kidneys do. Urine passes over the body, and "soapy" body pains may start into work and sleep. The chances are the kidneys are not doing their best.
