FIRE PREVENTION IS R. L. Mallory STUDIED IN SCHOOLS

The Bishop Street School under the direction of the building Principal, Ralston Derr, observed Fire Prevention Week in a most effective manner.

Each room spent part of a period in a discussion of ways to prevent they could handle fires. A fire drill was held and pupils in all grades visited the Undine Fire House. Members of the Fire Company were present to explain the use of the equipment.

The children were shown how to use the chemical extinguishers seen public buildings. The on charges of failing to render as- various dials and controls on the pumpers were explained.

Some of the other fire-fighting the firemen, first aid kits, gas maska canvas covers for furniture roofing absorb excess water on premises

John Galaida, Belle onte police officer was instrumental in securing a speaker from Hollidaysburg. The 80% of fires are caused by carelessdrank beer and the girl had soft such as piles of rubbish, rusted pipes

He said the girl suddenly opened Pupils were given instructions to he was going about 25 or 30 miles. In case their clothing caught aftie, their 40th wedding anniversary per hour. He said he went back and they were shown now to wrap a rug refused to allow him to take her to the fire. They were cautioned Allegheny street, with the Rev. Wila doctor. He said he started to take about inhaling fumes. It was liam C. CAL - SUPPLEMENTUM

Keep Your Cows and Stock Protected

PIGS: It is necessary to get a pig to market in the shortest possible time. In order to grow him fast calcium should be supplied

liberally. The sows die from calcium deficiency before and after

farrowing. The little pigs die from lack of calcium, and often get

rickets. The sow gets milk fever and dies. Sows eat their young

for the want of minerals. Hairless pigs are caused by a calcium
