Cite Five Reasons For New Houck Trial

(Continued from page one)
case, wherein the defendant requested the court to direct the jury to find him, the defendant, not guilty of the charge of aggravated assault and battery.

Arrest of Judgment
In the other motion, Attorneys Jubelirer and Hollis ask for arrest of judgment because of the "manifest errors in the record appearing, as follows:

1. That the defendant was convicted of aggravated assault and battery of which offense he could not be convicted under the evidence and the facts adduced.

2. That the demurrer to the commonwealth's evidence on the indictment charging aggravated assault and battery should have been sustained.

3. That the directed verdict at the conclusion of the commonwealth's evidence should have been entered and the facts adduced should have been sustained.

4. That the incident is based upon an information issued by One T. Mark Brungard, an Alderman in and for the First Ward of the City of Lock Haven, Clinton County, Pennsylvania, the issuance of a warrant by the said alderman for the arrest of the defendant, the waiving of a hearing by the said defendant before the said alderman, the said defendant having been bound over for trial by said alderman, all of which acts were done and performed by said alderman without legal power and authority and which acts were, therefore, null and void, said alderman having no jurisdiction over such alleged offenses committed or over the person of the defendant, for the following reasons: Brungard was elected by the electors of the First Ward of the city of Lock Haven, Clinton County, Pennsylvania, as an Alderman in and for the First Ward of said city.

Armistice Day Ceremony Held Bellefonte

(Continued from page one)
Band played The Star Spangled Banner" after which a firing squad from the Veterans of Foreign Wars fired a salute. Antiphonal taps were sounded by buglers, one in the Court House and one on the Court House lawn.

Junior Band, Bellefonte High School Band, Elks Marching Club, Girl Scouts, Boy Scouts, Legion Senior Band (or Milesburg Band), and the Auxiliary and Junior organizations of the American Legion and Veterans of Foreign Wars.

Tuesday night the annual Armistice Day dinner of the Brooks-Doll Post was held at the Legion Home on East Howard street. Legion members only were present and there were no speakers. Entertainment consisted of the showing of a number of reels of colored motion pictures filmed in Bellefonte by Martin J. Miller, amateur camera fan. Among the films shown were views of previous Armistice Day parades, street scenes, and public gatherings. Later in the evening a dance was held at the Post home.

Widmann & Teah In New Location

(Continued from page one)
The first store here was located in the Plaza Theatre building, West High street, in the room now occupied by the Yeaser Shoe store. Three years later the store was moved into a room in the southern end of the Brockerhoff Hotel building, where it remained until last weekend when the business moved to its new location.

Everything in the new store is new. It is lighted throughout with fluorescent lighting. The display cases, booths, counters are new. The soda fountain is equipped for complete luncheon service. The interior of the building was entirely remodeled, from the floor to the redecorated and remodeled ceilings. A new and modern front enhances the exterior of the spacious quarters.

A feature is the open-view prescription department where patrons may see their prescriptions being compounded.

Frank Sloan, a graduate of the Philadelphia College of Pharmacy will be in charge of the new store. Sloan came to Bellefonte several years ago with Widmann & Teah and since then has become widely known and well liked through this area. He is a member of the Undine Fire Company, is a trustee of that organization, and played an important part in the arrangements for the District Firemen's Convention here last summer.

Sloan's assistant is George Thompson, a graduate of the University of Pittsburgh. For several weeks Miss Virginia Ward, a widely known cosmetician, will be in charge of the toiletries department.

Miss Frances Love, of Bellefonte, will have charge of the soda-fountain and Mrs. Gertrude Funk, of Bellefonte, will be in charge of the luncheon service. Other employees at the store include Dorothy Campbell and Angelo Quaranta, both of Bellefonte.

The Widmann & Teah Company, a closed corporation, was organized in 1923 with the opening of a store in Erie. Gradually other stores were opened, and in 1924 the headquarters of the company was moved to Lock Haven where new offices and warehouses recently were opened on Bellefonte avenue.

The chain of stores has grown steadily during the year, until now there are 20 stores in Pennsylvania and 7 in New York State. Most of the merchandise handled in the stores is trucked to them from the Lock Haven warehouses in company-owned freight trucks.

Heading the company are L. E. Widmann, of Lock Haven, president; P. A. Teah, Lock Haven, secretary and treasurer, and Melvin Widmann, of Lock Haven, vice president. L. E. Widmann and Mr. Teah are graduates of the Philadelphia College of Pharmacy, while Melvin Widmann is a graduate of the University of Pennsylvania. Melvin Widmann has been in Bellefonte supervising the opening of the new store.

Stores in Pennsylvania owned by the company are as follows: three in Lock Haven; Punxsutawney, Indiana; Kittanning, two in Bradford, Pennsylvania; Clearfield, Blairsville,

Bellefonte, Edgway, Kane, Williamsport, St. Marys, Newberry, Sayre and Towanda. In New York State where the company is known as the Leadley Drug Company, there are stores in these cities: two in Corning, Cortland, Oneida, Fulton, Elmira and Ithaca.

Assists Industry With Problems
(Continued from page one)
ing a semi-skilled trade which takes not more than 4,000 hours or two years to learn. The apprentice is a highly skilled workman at the completion of his term or apprenticeship while the learner has absorbed all the limited knowledge necessary to become a machine operator. The apprentice becomes a skilled mechanic able to operate any of the machines. A learner can operate only the machine on which he has been specifically trained.

The Federal Committee on Apprenticeship has five regions. The one in which Centre County is located has its regional office in Harrisburg, under the capable direction of William J. Moore. The special area office for this district is in Wilkes-Barre, under the direction of Lester L. Loisel, a native born Pennsylvanian from Juniata County.

Through an Act of Congress in 1937 the Federal Committee on Apprenticeship was set up and was placed under the Department of Labor. The membership was designated as two members represent-

ing labor, two to represent industry and two to represent the public. The Secretary of the Committee and Chief of Apprenticeship is William F. Patterson.

The prime purposes of the law was to assist employers and plants and labor to utilize to the greatest extent the facilities offered by the State and the Federal Government in the proper training of apprentices. The specialized knowledge of the Field Representatives who are under Civil Service are without cost and are easily obtained.

Industry has not been slow in seeing the advantages of this program. A large number of plants, approximately 950 up to September 1, 1941, have signed agreements with either the Pennsylvania Apprenticeship Council or the Federal Committee on Apprenticeship.

It is expected that most, if not all, of the larger industries in this county will cooperate with the program, which insures each youth a proper training in the trade of his choice, by carefully planned shop and related subject schedules, by enlarging the opportunities for success and advancement, by working among those interested in his occupation, and is aided in developing a definite aim in life and provided a means by which he can work toward that aim.

Mr. Loisel is ready to lend assistance to local plants and organizations which may or may not be taking full advantage of all the facilities of the state and national agencies which have been set up for this purpose. Most plants have not taken full advantage of all the agencies which are entirely theirs for the mere asking.

Mr. Loisel is staying this week, with friends, the Frank Daly family on West Bishop street and may be reached by calling Bellefonte 553 at any time. A letter dropped to the United States Department of Labor Field Office, Court House, Wilkes-Barre, Pa., also will bring prompt attention.

Killed in Crash
John Neidig, 23, died instantly when his car, moving at terrific speed, failed to negotiate a right hand turn and struck a telegraph pole near Dornisife on Route 225. Neidig suffered a broken neck, and a crushed skull, and his coupe was demolished.

The new Navy uniform regulations were two years in preparation and are the most comprehensive ever published.

MAN! WHAT A FIRE POT

That's what you'll say when you see the heavy ribbed fire pot in the Estate Heatrola. Made of Estalloy—has more than double the life of the best cast-iron pot.

Reasonably Priced

● Come in. See the genuine Estate Heatrola that saves lots of fuel money for you, winter after winter.
