FARM CALENDAR

Timely Reminders From The Pennsylvania State College School of Agriculture

Winter Tractor Operation—This winter the tractor motor should be idled until warm, the oil gauge should be checked frequently after each starting and the oil checked often for sludge, suggest agricultural extension engineers of the Pennsylvania State College.

Sideprune Evergreens—Sidepruning evergreens in farm forest plantings insures the development of clean tree trunks and safeguards the planting from fire, assert Penn State extension foresters.

Egg Storage Tips—Eggs should be kept under 65 degrees Fahrenheit this winter and above freezing. In addition the air should have enough moisture in the storage rooms so that drying does not affect the quality.

Rest the Dairy Cow—The dairy cow should have a dry period of from six to eight weeks. Proper fitting and feeding during this time may increase the amount of milk produced during the next lactation period by 750 to 1500 pounds, according to dairy extension specialists of the Pennsylvania State College.

A little authority sometimes makes ordinary men very small.

Christmas Candies

There is such a variety of homemade candies that with little trouble you can fix a most attractive gift box. One's especially favored candy remembered is always appreciated. Here are some recipes for sweets—and a merry, merry Christmas to you all.

Glaze Nuts and Fruits

1-2 cup white Karo
1-2 cup sugar
2 tablespoons hot water
Boil until syrup bubbles instantly in cold water. Keep hot in a double boiler. Dip in nuts and fruits one at a time, taking out on the point of a fork and laying on oil paper.

Marshmallow Fudge Balls

2 squares unweetened chocolate
1-2 cups condensed milk
Marshmallows halved
Nuts meats chopped
Melt chocolate in double boiler, add condensed milk and stir over boiling water for 5 minutes until it thickens. Drop pieces of marshmallow into mixture and lift out covered with chocolate. Drop into finely chopped nut meats, rolling until well covered.

Candied Grapefruit Peel

Cut the grapefruit peel into strips

and boil until tender, changing the water several times. Drain and simmer in 1 1-2 cups maple syrup until it is clear. Remove from syrup and roll each piece in granulated sugar.

Peach Strips

1 cup dried peaches
Granulated sugar
Wash peaches, steam 5 minutes, and remove skin. Flatten halves as much as possible, then cut in very thin strips. Roll in sugar.

Pecan Mints

1-4 cup condensed milk
1 1-4 cup sifted confectioner's sugar
1-2 teaspoon peppermint extract
1-2 cup halves of pecan meats
Slowly add the condensed milk to the confectioner's sugar. Blend thoroughly. Add the peppermint extract and continue mixing until smooth and creamy. Form into balls. Press a half of pecan meat on each ball.

Fudge

4 cups sugar
1 stick butter
5 tablespoons cocoa
4 tablespoons white Karo
1 pint milk
2 cups nut meats
1 small can Hipolite or marshmallow cream
1 teaspoon vanilla
Mix sugar and cocoa thoroughly, add butter. Cook until a soft ball is formed when dropped in cold water. Take from heat and add marshmallow cream. Beat well, add vanilla and nuts. Pour into a well greased pan one inch thick. Cut into squares when firm. This recipe never fails.

HOUSEHOLD SCRAPBOOK

Varnished Floors

The polish on a varnished floor can be preserved by sprinkling coarse salt on the floor, allowing it to remain for about five minutes, and then sweeping off with a soft broom.

Clock Cleaner

Soak a piece of cotton in kerosene and place inside the clock, at the bottom of the case. Leave it for a few days, then remove it. It will remove much of the accumulated dust.

Cracked Crockery

When a piece of crockery has a tiny crack in it, try boiling it in sweet milk, and see if it isn't restored to use.

Cleaning Enamelware

Enamelware containers in which food has been burned can be cleaned by filling with cold water, adding one tablespoonful of washing soda for every quart of water, heating slowly, and then letting it boil for about ten minutes. The burnt food can then be removed without difficulty.

Testing Eggs

Test eggs for their freshness by placing them, one at a time, in a quart of water to which one-third of a cup of salt has been added. If the egg sinks, it is fresh.

Melting Chocolate

Much of the chocolate is wasted, while melting, when so much of it sticks to the bottom and sides of the container. But this can be prevented if the container is thoroughly greased before the chocolate is put into it.

Funeral services were held Tuesday afternoon at 2 o'clock, with Rev. Roy Hauser of Clearfield officiating. Burial was made in the Advent cemetery, Pine Glen.

WAR:

Curating the little yellow men (or the yellow little men) across the Pacific isn't going to win this war we're in. We're going to need men, and tanks, and planes, and ships, and mostly—sacrifices. The only "business as usual" we can afford to recognize is the business of winning the war. We think there is a real need for a home guard set-up. Suppose, today, a thousand enemy warriors were somehow to land in our midst, fully armed and equipped. For all the arms or equipment we citizens have to stop them with they could conquer land just as fast as they could make their machines travel. We need training, discipline; to be taught what to do and how to do it in case an emergency arises. Many of us are completely helpless if an electric light fuse burns out. We face much more serious problems. Let's be ready for them.

PSYCHIC:

Julian Huxley, British biologist who arrived in New York Saturday to begin a two-month tour of the nation, is either psychic or else he knows what he's talking about. He is quoted as having said, Saturday: "Why, you're actually on the verge of war with Japan and half your people don't seem to care. They don't seem to give a damn." Continuing, he said: "If you have to declare war tomorrow—just think of the stupendous uplift in morale it would give." The visitor also remarked: "It's amazing! In just one day here I am dumbfounded with America's ignorance and complacency!" His comments...

To give visual and fitting expression to your love and regard, the medium and the form must be chosen with care. Comforting assurance of a duty well performed will be yours if you choose a genuine Rock of Ages Memorial to stand as your record for the years to come.
