Battleships require protection from air attacks just like they require protection from submarine attacks, but so long as the world's freight moves upon the waters of the world, the nations that control the seven seas will control the earth.

# POLITICAL CALENDAR FOR THE COMING YEAR

The machinery of Pennsylvania's important 1942 election gets started February 28—the first legal date to obtain signatures for nominating petitions.  
The calendar of important dates in the election setup having been announced, the following information will be of interest to every voting citizen:  
The state next year elects a governor, lieutenant governor, secretary of internal affairs, 33 congressmen, a supreme and a superior court judge and memberships in both parties' state committees, 208 assemblymen and 25 state senators.  
March 10 is the last day for the secretary of the commonwealth to send to county boards written notices designating the offices at stake. This was taken unofficially by Election Bureau authorities to mean also the date for the Legislature to adopt an act re-apportioning the congressional districts. After that, without such an act, it was said, the congressmen would be elected at large.

# SHETLAND PONY Leaves Home; Is Lost On Highway

In the Classified Advertising Department of this issue of The Centre Democrat appears an ad which begins: "Lost—a black and white Shetland pony."  
Never having lost a pony, or having heard of anyone mislaid his pet Shetland, we went into the matter a little more thoroughly than usual.  
The advertiser is Stanley Treaster of Spring Mills, R. D. 1, who is employed by the Titan Metal Company in Bellefonte. While he was at work Monday, January 21, members of the family took the pony out of its stable to lead it to water.  
The pony became frisky, slipped its halter and took to the woods.  
When Mr. Treaster arrived home, he set out to find the animal by following its footprints in the snow. The trail led through fields and through a woods. It was just a matter of time, it seemed, until the owner caught up with the wayward pony.  
The only trouble was that the trail led to a highway which was bare of snow. Despite careful and lengthy search along the highway, which extends through Georges Valley between Spring Mills and Pottery Mills, Mr. Treaster couldn't find any evidence that the animal had left the road.  
And so today the whereabouts of the pony is still shrouded in mystery.  
We hope this advertisement works with the usual effectiveness of Classified Advertisements in this newspaper. If so, we predict the pony will be back in its own stall before nightfall.

# Kiwanis Honors Bellefonte Man

**A. L. Francis Presented Past Lieutenant Governor's Emblem**  
Ernest Deml, lieutenant governor of the Sixth Division of the Pennsylvania District of Kiwanis International, presented the past lieutenant governor's emblem to Armstrong L. Francis at Tuesday's meeting of the Bellefonte Kiwanis Club. This was in recognition of the efficient service of Mr. Francis during 1941.  
The program was in charge of the Kiwanis Education Committee, A. L. Francis, Thomas H. Mensch and J. Kennedy Johnston. Short addresses were made by Mr. Deml and Mr. Francis. A magazine quiz was conducted by members of the committee.  
The club has been planning various activities during the year. Period L. C. Heineman will act as chairman of the Speakers' Committee and will receive requests and assign speakers to organizations and meetings needing such service. Various types of work have been assigned to the respective committees for their supervision. Every effort will be made to cooperate with the existing agencies of civilian defense, morale and others, as well as with the Red Cross. The club will be especially watchful for things that need to be done and have been overlooked or are being poorly executed, and will throw itself heartily into the effort of an all-out national defense.

# U. S. Troops Land Safely In Europe

**Little Fanfare**  
As our ship drew alongside the dock this land switched to the "Star Spangled Banner." The men silently awaited their turn to land. There were few waves of the hands. Orders were snapped and the men landed in the gray chills without much fanfare. That came later when the town generally got word of the arrival.  
Besides Sir Archibald Sinclair, the welcoming party included Lt.-Gen. H. E. Franklin, general officer commander of the north Ireland district, the Duke of Abercorn, governor-general of northern Ireland and Prime Minister John M. Andrews.  
British warplanes shepherded the Americans into port and maintained a ceaseless guard until the last few thousands were safely ashore and ready to start their inland camps. Locations of the camps was a military secret, but authorities indicated the troops were housed in buildings erected for them by the American civilian technicians who have been working here for about eight months under the lend-lease act.  
The sturdy, insulated barracks are erected of pre-fabricated parts from the United States.  
Major General Russell P. Hartle, commander of the American expeditionary force in northern Ireland, is "scrappy" to fellow officers.  
The origin of the nickname is not clear. It antedates his transfer to the army as a second lieutenant.  
Actually General Hartle is said to possess a quiet temperament along with vigor and determination. Of medium height and heavy set, he is among the army's youngest major generals at 32. In less than three years he has advanced from colonel in accord with the general staff's policy of favoring officers who demonstrate responsibility.

# Random Items

**STOLEN IDEA**  
From the AAA. When you buy your car, you also buy a stamp for your car's motor number of your machine (from registration card) in ink across the face of the stamp before you paste it on the windshield or dashboard. That way a thief will have no use for your stamp.  
**THOUGHT FOR THE DAY**  
The following paragraph was published in the latest issue of the Titan News, publication of the Titan Metal Company. Read it over carefully. Then read it again and spend a little thought on it, especially if you're inclined to pooh-pooh the local efforts for defense. Here's the paragraph: "The more inensible we generally are of public danger, and indifferent when war's on, so much the more freely, openly and earnestly we should be apprehensive of it, to speak their sentiments; that if possible those who seem to sleep, may be awakened to think of some Means of Avoiding or Preventing the mischief for it is too late..."  
**74 CENTS**  
Then there's the big-hearted Bellefonte policeman who shelled out a total of 74 cents one day recently to appease irate out-of-town parking meter patrons who claimed they'd been robbed by the machines. We hope he submits an itemized bill to Council for a refund.

# Flag Raising at Brick Co. Plant

A beautiful new flag 63 feet was then raised to the top of the staff by First Class uniformed Boy Scouts Junior Wagner and Roy Shawley, while First Class Scout Clair Clork played "To the Colors" on the bugle, while every one stood at attention in salute to the flag.  
If the average person thought less about getting and more about giving, this might be a better world for everybody.
