

OBITUARY

ROBERT C. SMITH

Robert Charles Smith, 8 months old son of Mr. and Mrs. James Smith, of Mill Hill, died early Saturday morning, February 7, 1942, at the home of his parents after a four-day illness with pneumonia. In addition to his parents, the baby is survived by a brother, James Nelson; two sisters, Ohma Dorothy and Shirley May, both at home, and his grandparents, Mr. and Mrs. Joseph Smith of Mill Hill and Mr. and Mrs. J. F. Dullen of Avis. Funeral services were held from the Joseph Smith home Monday afternoon with the Rev. Ezra L. Parks officiating. Burial was made at Cedar Hill cemetery.

JACOB E. JACKSON

Funeral services for Jacob E. Jackson, of State College, who died Friday, February 6, 1942, at Harrisburg, were held Monday afternoon at the Houseville United Brethren church, with Rev. L. I. Stabler of State College officiating. Interment took place at Houseville. Mr. Jackson was born September 25, 1867, a son of Robert C. and Elizabeth Etters Jackson. He was 74 years, 4 months, and 10 days old at the time of his death. His wife, the former Isabell Pratt, whom he married in 1890, survives with these children: Mrs. Mary Lutz, State College; Harry State College; Robert Axemann; and Mrs. Elizabeth Hartzel, Boalsburg. Two brothers, Elmer and Lemont, and John of Pittsburgh, also survive.

MRS. WATIE STANTON

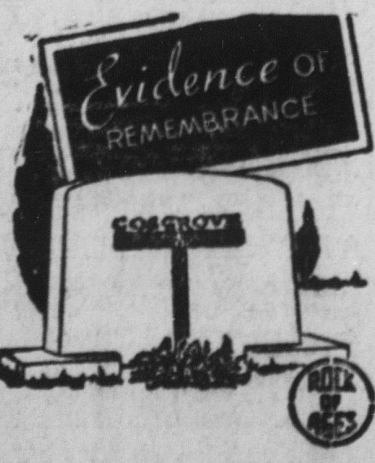

Mrs. Watie Stanton, of Julian, passed away in Bellefonte last Thursday night, February 5, 1942, after a several months' illness with a complication of diseases. Mrs. Stanton was a daughter of Aaron and Eunice S. Elliot and was born in Pennsylvania on June 29, 1854, making her age at time of death 87 years, 7 months and 9 days. Her husband, Elary Stanton, preceded her in death. Surviving are these children: R. H. Stanton and L. G. Stanton, both of Phillipsburg; Mrs. John Jackson, of Phillipsburg; Sterling Stanton, of Starbuck, Pa.; and Mrs. Dan N. Keator, of Seaford, Del.; one sister Mrs. Jennie Busby, of Mobile, Ala.; 20 grandchildren and 10 great-grandchildren. Mrs. Stanton was a member of the Phillipsburg Church of Christ. Funeral services were held on Sunday afternoon at the Martha Baptist Church, with the Rev. A. G. Herr of Bellefonte, officiating. Interment was made in the Williams cemetery, Martha.

REV. W. C. BIERLY

Rev. W. C. Bierly, native of Madisonburg and former pastor of various Evangelical churches in Central Pennsylvania, died at the home of his son, Paul Bierly, in Jersey Shore, early Tuesday morning, February 3, 1942. He had lived until March 20 he would have observed his 84th birthday. The Rev. Mr. Bierly at one time was pastor of the Spring Mills Evangelical church and resided in State College from 1920 until last spring when he left to be near his wife in the Jersey Shore Hospital. Mrs. Bierly died at that institution. The aged minister was born in Madisonburg and after spending some time in the middle west, served numerous churches in Central Pennsylvania. He retired from the ministry in 1917 and while in State College served as watchman on the Penn State College campus, residing with Mrs. Alice Duck, a sister of Mrs. Bierly. Funeral services were held at the Millburg Evangelical church Friday afternoon, and interment was made in the Millburg cemetery.

JOSEPH A. BECK

News has been received here of the death of Joseph A. Beck, which occurred in the Miami Valley Hospital at Dayton, Ohio, Monday, February 9, of a heart attack. Burial will be made at Dayton today. He was a son of Henry and Anna C. Beck, long-time residents of Bellefonte, both of whom passed to their reward some twenty years ago. He was born in Bellefonte, July 4, 1874, and lived here until 1900 when the family moved to Pittsburgh where he was employed as a machinist by the Westinghouse Company. Later he located in Dayton, Ohio, where for the past ten years he worked as a tool and die maker in the Frigid-are factory. Surviving are his wife, one son, two daughters and three grandchildren; also two brothers, Loman L. Beck, of Stoyestown, Pa., and Charles L. Beck, of Pittsburgh. Mr. Beck was prominent in musical circles and was director for a number of years of a band and orchestra. He was a member of the Masonic lodge. A twin brother, Harry E. Beck, preceded him in death in 1928 at his residence in Philadelphia.

To give visual and fitting expression to your love and regard, the medium used in the form must be chosen with care. Comforting assurance of a duty well performed will be yours if you choose a genuine Rock of Ages Memorial to stand as your record for the years to come.

Howard Granite Works
FRANK WALLACE, Prop.

WILLIAM L. COFFMAN

Funeral services were held Friday in Altoona for William L. Coffman, nephew of the late John D. Love, Reynolds avenue, Bellefonte, who died Wednesday, February 4, 1942, in Mercy Hospital, Altoona. Mr. Coffman, 67, was well known in Bellefonte through his visits at the Love home. His mother was the late Catherine Love of Bellefonte. On February 22, he would have completed 59 years service with the Pennsylvania Railroad.

EDWARD W. GARDNER

Edward W. Gardner, 79, of Bridgeport, Conn., died last Friday, February 6, 1942. Surviving him are his wife the former Miss Mary Lingle, of Beech Creek; one son, Harry, and two daughters, Ruby and Dorothy, both married, and all living in Connecticut, and a sister, Mrs. Mayme DeHaas of Ford City. The body was taken to the local funeral home at Beech Creek where services were conducted Monday afternoon, in charge of the Rev. M. S. Rogers of the Blanchard Church of Christ. Interment was made in the Christian Cemetery at Blanchard.

NANCY ANN FISHER

Nancy Ann Fisher, 12-day-old daughter of Warren E. and Betty Stonebreaker Fisher, of Wingate, died at the Centre County Hospital here at 4:30 o'clock Saturday night, February 7, 1942, of an illness common to infancy. The little girl is survived by her parents; her paternal grandparents, Mr. and Mrs. Blair Fisher in Wingate, with the Rev. Howard E. Oakwood officiating. Interment was made in the New Union cemetery, near Unionville.

BETTY JO NEFF

Betty Jo Neff, aged 3 months and 4 days, only child of Joseph L. Neff, Jr. and Betty Garbrick Neff, of Oak Hill, was found dead in bed at her parental home about 6:30 o'clock Saturday morning, February 9, 1942. The infant who had been sleeping with her parents, was in her usual health about 3 a. m. Monday, but when her mother awakened at 6:30 she found her bedclothing wrapped about the child's face. Centre County Coroner Charles Shecker of Milesburg conducted an investigation and pronounced death due to suffocation. Surviving are the parents. The infant was born in Bellefonte on November 5, 1941. Funeral services were held Tuesday morning at the Koch funeral home, State College, and interment was made in the Pine Hill cemetery.

CHARLES EDWARD MCCLELLAN
Charles Edward McClellan of Buffalo Run Valley, died at the Centre County Hospital here Thursday night, February 5, 1942. He was a son of David and Nancy Lockard McClellan and was born at Milesburg on March 6, 1882, making his age at time of death 59 years, 10 months, and 29 days. In 1906 he married Anna Mabel Gill, who survives with these children: Buel McClellan, Bellefonte, R. D.; Dorothy May Bailey, Phillipsburg; and Mrs. Martha Akey, Bellefonte. He was the last member of his immediate family. Funeral services were held Sunday afternoon at the Milesburg Presbyterian church with the Rev. Mr. Brooks, of the Missionary Alliance church, and Rev. C. C. Shuey officiating. Interment was made in the Trozylny cemetery, Milesburg.

What Have You For Defense?

- (Continued from page one)
- Two ways.
 - Open cardboard boxes, lay flat. Tie in bundles.
 - Stuff small waste paper into burlap bags or boxes.
 - Magazines using glazed paper should be segregated.
 - Do not save waxed paper, cellophane or butcher paper.
 - How to Save Bags**
 - Burlap bags—Keep separate.
 - Cotton and other textile bags—keep separate.
 - Save Rubber Items.**
 - Articles, overshoes, rubber boots.
 - Miscellaneous items—Hose, gloves, hot water bags, etc.
- The above list will give all residents of Centre county an idea of what is desired. Even if no organized drive for the collection of salvage is underway in your community, make a collection of available items and have it ready when the call arrives.

COLLEGE TO AID LOCAL DRAFT BOARD

Aiding the local draft board, Pennsylvania State College officials will take over the registration of approximately 2500 students and faculty members under the Selective Training and Service Act on February 16.

Bank President Dies

E. G. Williams, president of the Ridgway National Bank and a prominent business man in Elk county, died suddenly of a heart attack at his home. He was 76. Surviving are the widow and two daughters.

Pidgin English

Pidgin English is a jargon of English intermixed with Chinese, Portuguese and Malay words, expressed in Chinese idiom. Pidgin is the Chinese pronunciation of the word "business."

Weight Before, After Meal

After an meal, person's weight will be increased exactly by the weight of the food.

To Encourage Victory Gardens

Series of Classes and Lectures to Be Held at State College

In an effort to assist and stimulate the Defense Program, the Victory Gardens has arranged for a series of classes and lectures on Defense Gardens. These lectures will be given by vegetable gardening experts from the Department of Horticulture at the Pennsylvania State College. These classes are arranged for flower and garden lovers, and especially for defense gardeners. Anyone may attend the classes. There will be no registration and no fees will be charged. It is hoped that persons will attend the entire six-week series, but persons may attend any of the lectures or classes in which they might be interested.

The classes will be held in Room 121, Sparks building, at the Pennsylvania State College, from 7:30 to 9:30 on Thursday evenings, beginning this Thursday and continuing through to March 12.

- Feb. 12. Flower kinds and varieties, care of the home grounds, C. B. Link, J. R. Culbert
- Feb. 19. Garden plans, planting distances, planting dates, succession schemes, etc., E. M. Rahm
- Feb. 26. Soil soil preparation, and fertilizers (illustrated), W. B. Nisley
- March 5. Fertilizer placement, (continued), starter solutions, cultivation and irrigation, E. M. Rahm
- March 12. Insect pests—vegetable and flower (illustrated), S. W. Probst

RECENT WEDDINGS

- Boal—Love**
Miss Helen A. Love, of Blair Mills, became the bride of Harold W. Boal, of State College, at a ceremony performed Saturday evening, January 31, in the Lutheran parsonage, State College, with the Rev. J. F. Harkins officiating. Attendants were Miss Margaret Houser and Randall Shawver. The couple will reside at 133 McAllister street, State College.
- Gill—Spicer**
Mr. and Mrs. John Gill of Julian, announce the marriage of their daughter, Miss Eleanor Conifer, to Victor Spicer, son of Mr. and Mrs. William G. Spicer, Tyrone. The wedding ceremony was performed at Cumberland, Md., on February 2, by Rev. H. A. Kester, a Methodist minister. The couple was attended by Mrs. Francis Walk, sister of the groom, as matron of honor; Willis Walk, brother-in-law of the groom as best man; Miss Myrtle Goss, as bridesmaid, and Reuben Adams as usher. The bride was dressed in a blue silk crepe gown. At the present the couple will reside at the home of the groom.
- Smith—Confer**
Mr. and Mrs. Clyde Confer, of Oriskany, announce the marriage of their daughter, Miss Eleanor Conifer, to Victor Spicer, son of Mr. and Mrs. James Smith, of Blanchard. The wedding took place Saturday afternoon, January 17 at 4 o'clock, at the Presbyterian parsonage at Winchester, Va., the Rev. Andrew Wilkerson officiating. The bride, who was attended by her sister, Mrs. McDowell Peters of Blanchard, was attired in an olive green dress with which she wore brown accessories and a yellow rosebud corsage. Mrs. Smith has been employed at the Keatinger home at Beech Creek. Mr. Smith is an employee of the Piper Aircraft Company, Lock Haven. For the present he and his bride are living with Mr. and Mrs. McDowell Peters, at Blanchard.

State Nurse's Report

Miss Mary F. Siegal, state nurse, has just released her report for the year 1941, which shows that in her travels in the interest of public health, she has visited 666 homes and covered a mileage of 7707.

The nurses' work divides itself into five classifications: orthopedic, baby clinic, tuberculosis, social diseases, and school visits. In connection with the corrective work being done on crippled children, she reports that 134 were taken during the year to the clinic at the Phillipsburg Hospital, 3 cases were transferred to other states, and 4 cases of infantile paralysis received attention.

There were 49 baby clinics held during 1941, three weeks having been omitted at the time of the paralysis epidemic. Among the 310 babies visiting the clinic, there were 5 congenital deformities discovered, which were referred to the orthopedic clinic. Immunization against diphtheria was given to 18 infants, 178 children between the ages of one and four, and to 207 children from 5 up to 27 cases were referred to relief

agencies and 28 individuals contributed assistance.

There were 52 tuberculosis clinics during the year at which there were 130 patients, with a total of 619 visits. Twenty-seven persons were taken to sanitariums in the state.

The social diseases were treated at 51 clinics. A total of 283 patients made 1145 visits to the clinic.

Part of the state nurse's work involves visits to the county schools to care for corrective work among the pupils. Miss Siegal attended to 18 tonsils and adenoids, 2 skin infections, 2 orthopedic, 1 nervous affliction, and 1 cardiac case.

Another duty required of the state nurse is to inspect the work of the licensed midwives. Two of these were investigated and four of their cases inspected.

Miss Siegal says that without the fine cooperation of the community and the individuals with whom she confers, her work could not be so thorough. She feels that the organizations and people who assist her program have materially increased her efficiency.

man or two, I am.
Very truly yours,
F. B. TATE.

BETTERS to the Editor

FARMING IN NORTH CAROLINA

Hertford, N. C., Feb. 1, 1942
The Centre Democrat,
H

Dear Sirs—I have taken charge of Elmwood Farms where we raise one hundred and sixty gallons of milk daily from a herd of eighty purebred and grade Guernsey cows. We sell pasteurized milk, raw milk, chocolate milk, cream and butter-milk, all produced and manufactured on the farm.

The country here in Northwestern North Carolina is very level, and very productive. We are on the lower edge of the Dismal Swamp—about six miles from the swamps. The principal crops are corn, soybeans, cotton and peanuts. Very few cattle are raised in this county. Our dairy is the only dairy in Perquimans county. A large number of hogs are raised here. They are turned in the peanut fields after the peanuts are harvested. When they harvest their corn here, they go through their fields after the corn is thoroughly dry, snap off the ears with some shucks, as it is called in the South, on it, and haul it to their barn. Then most of it is shelled before selling. At present it is selling here at 75 cents a bushel of shelled corn (56 pounds). After the corn is taken from the field, hogs and what few cattle the farmer has are turned in the field. This time of year they are going through their fields with stalk cutters, cutting the corn stalks in small pieces as well as the cotton stalks from last year's crop.

Some time in the future, I will give you an idea of how they raise cotton and peanuts, as I know many of your readers have never seen them grow or know how they are raised.

Hope you can help me find a good

Interest in the correspondence course in home vegetable gardening offered by the Pennsylvania State College has increased to the point where inquiries often arrive by airmail and telegraph, according to W. R. White, professor in charge of correspondence courses in agriculture.

On one particular day 84 new applications for correspondence courses were received, of which 48 applied for the course in vegetable gardening. Other popular courses are those on milk goats and the production of market turkeys.

For Five Million Farms

More than 800,000 tons of potash materials for fertilizer use left American mines and refineries last year for farming areas where soil deficiency of potash—an essential plant food—is limiting crop production. About two-thirds of this tonnage was in the form of muriate of potash (60-63% K₂O), a form highly concentrated to reduce the Farmer's fertilizer freight bill. Immediately upon the outbreak of war in 1939, the American Potash Industry began a rapid increase in production capacity. This expansion program is still continuing to meet the demands for increased food production —FOOD for VICTORY.

18 Co. Students Graduate at State

One Listed as Honor Student; No Formal Exercises Are Held

In the first Penn State Commencement without formal exercises in 29 years, 18 Centre County students, including one graduated "with honors" were among 138 awarded degrees last week.

The honor student was William E. Harkins, son of Rev. and Mrs. J. F. Harkins, of State College, who was one of the 12 baccalaureate candidates who had a four-year average of 2.4 or better out of a possible 3.

Of the Centre County group, nine were awarded advanced degrees and nine received baccalaureate degree. Students who received diplomas last week may participate in the formal commencement in May, which will take the place of the usual June commencement under the College's accelerated war-time program.

The Centre County graduates were:

Orville Sollenberger, Bellefonte, master of education; Eva Bailey, of Centre Hall, master of education; Ruth Lane, Lemont, education; John Huffer, Phillipsburg, industrial engineering.

Luther Bissew, master of science in field technology; Charles Eder, master of science in civil engineering; William Harkins, arts and letters; Hans Janssen, doctor of philosophy in economics; Ruth Marshall, education; Robert McCormick, master of science in chemical engineering; Robert Scott, doctor of philosophy in physics.

Warren Stubblebine, doctor of philosophy in chemistry; Henry Stultz, commerce and finance; Joseph Underwood, doctor of philosophy in agricultural and biological chemistry; George Watrous, dairy husbandry; Edith Wright, education; Paul Wright, industrial education; Jane Firestein, journalism, all of State College.

Large Home Burns
Flames spreading quickly from an adjoining milkhouse and butcher shed razed the ten-room home of Mr. and Mrs. Howard Johnson in Cleveland township, Columbia county, Thursday morning. Loss was estimated by the owner at above \$10,000, considerable household furnishings, personal effects, and several valuable pieces of apparatus in the milkhouse. He said insurance totalled \$2,800. The flames broke out in a corner of the 20x30 cement block butcher house that also serves as a milkhouse.

Students Contribute
Bucknell University students contributed \$470.63 to the 1942 war relief fund of the American Red Cross in the recently completed drive on the campus. The drive was under the direction of Kenneth F. Herrold, instructor of Biology at Bucknell. He was assisted by two student chairmen: Miss Ruth Braden, a senior from Mount Vernon, N. Y., and Walter Held, who is a junior from Woodbury, N. J.

Ice Harvested by 100
Sunbury Water Company is harvesting ice on the smaller reservoir east of Sunbury with a force of 100 men, directed by Harry J. Masters. Ice which was 10 inches thick at the weekend is now 11 inches thick. As soon as the small reservoir is cut, the workers will move to the big reservoir, where the ice now is 10 inches.

Would Promote Lockard
A bill has been introduced in Congress asking for the promotion of Pvt. Joseph L. Lockard, Williamsport, to second lieutenant as a reward for his diligence in detecting approaching Japanese warplanes at Pearl Harbor on December 7.

Boy's Body Found
Body of six-year-old Carl Shear, missing from his home in Shamokin Dam since January 21, was found along the west shore of the Susquehanna River, about a half mile south of the point where he broke through the ice while at play.

Following a Recipe
The most efficient way to put together a recipe is first to read it carefully, then get out everything that is needed in the recipe. Then get into the work and do as the recipe directs. In this way, no time is wasted in washing the hands in between getting the desired articles out of a clean cupboard or cabinet.

Deodorized Gasoline
To each quart of gasoline used in cleaning clothes add a few drops of oil of sassafras. The gasoline will be deodorized, and there will be no disagreeable smell emanating from the garment after the cleaning.

Removing Old Paint
To soften and remove old paint or varnish, try two parts of spirits of ammonia to one of turpentine; apply with a rag. Old paint may also be removed with sandpaper, dampened with benzine.

Washing Woollens
When laundering woollens, it is best to use lukewarm washing and rinsing waters. Make up mild soap or soap powder into a soft, fluffy mass and place in the washing water just before putting in the woollens. Be sure never to rub soap directly on them, as this tends to break the threads or stretch the garment out of shape.

Refilling Feather Pillow
When refilling a feather pillow, crush a small block of camphor and mix with the feathers. This will keep the feathers "fresh," and will help to preserve them.

Better Blending
Dates will blend better with other ingredients in cooked dishes if they are first covered with a little hot water or milk. They will soften them.

New Fireplace
If the bricks around the fireplace are too new and bright-looking, try rubbing them with some machine oil applied on a soft cloth. This will impart a more seasoned appearance to the fireplace and it will blend in better with the furnishings of the room.

Tightly Corked
Be sure to keep the bottles containing flavorings and extracts tightly corked, or they will lose their strength and flavor.

Cleaning Silver
Common lump starch can be used for cleaning silver. It should be rubbed on with a damp cloth, allowed to stand for a few minutes, and then rubbed dry with cheesecloth.

Stiffened Finger Joints
Dissolve camphor gum in olive oil, and rub the stiffened joints with this preparation three or four times daily. The rubbing, as well as the oil, will help to soften the bony formation around the joints.

Random Items
(Continued from page one)

new budget is prepared in July, and we wouldn't be surprised if the increases are forthcoming. Monday, when a teacher told the board he didn't "buy anything in Bellefonte" but dealt exclusively in a small neighboring town because he could save money; that way, one spectator commented, "if he likes the little town so much he should get a job in the schools there!"

GROWING:
To pencil collection of Joe Owens, of near Bellefonte, now numbers 1190 pencils, no two of which are alike. He has big pencils, little pencils, fat pencils, thin pencils, pencils with and without erasers, all colors, all shapes, all sizes. And the collection grows daily.

Artificial Ice by Machinery
John Corrie of Apalachicola, Fla., completed the first artificial ice-making machine in 1851.

"Why, Marge—This Good Light Makes Your Laundry A Marvelous Place To Work!"

"I Need a 'Laundri-Lite,' Too!"

Marge—"Every woman does, Ethel! I never realized what a dim and dreary place my laundry was until I replaced the bare bulb I used to have with a Laundri-Lite.

"This wide circle of good light actually makes me feel like working! It's so easy to see by—so restful to the eyes. It doesn't leave me all tired out after doing my washing and ironing—and we all need our energy these days!"

WEST PENN POWER COMPANY

The "LAUNDRI-LITE" Does It!
The Laundri-Lite is an efficient, low-cost "Light-Conditioning" unit which gives you a wide circle of adequate light that brightens up the whole working area. Screws into your present socket. Your dealer has this for \$2.95 complete with bulb.

Flames spreading quickly from an adjoining milkhouse and butcher shed razed the ten-room home of Mr. and Mrs. Howard Johnson in Cleveland township, Columbia county, Thursday morning. Loss was estimated by the owner at above \$10,000, considerable household furnishings, personal effects, and several valuable pieces of apparatus in the milkhouse. He said insurance totalled \$2,800. Fight colds right!

Why it will pay you to use the ANTIPHLOGISTINE method

BE ALERT FOR CHEST COLD WARNINGS!
When your throat feels raspy and your chest feels tight—you probably have a cold coming on! Don't delay! Get after those symptoms the "Antiphlogistine way."

WHAT ANTIPHLOGISTINE DOES!
It works for many hours. It gives you the benefits of fine "specialized" medication plus "prolonged heat." It relieves that congested feeling—makes breathing more comfortable—helps you feel better.

YOU TOO WILL RECOMMEND IT!
Once you discover the important advantages in Antiphlogistine you'll want to tell your friends. For fifty years one person has told another about Antiphlogistine until today it is known the world over.

WHAT YOU DO:
At the first warning of a chest cold—warm a package of Antiphlogistine in hot water. Spread a 1/4 inch layer of Antiphlogistine over your chest. Cover with a cloth and let the application remain overnight.

BE READY WITH SOMETHING THAT'S RIGHT
Antiphlogistine is the right word for relief—relief of discomfort caused by prevalent chest colds. Have a tube on hand—now! Ask your druggist for Antiphlogistine today.

Antiphlogistine

(pronounced anti-flo-gis-tine) New Also in Tubes
