War Damage Insurance **Including Bombardment**

If your property should be destroyed by reason of enemy attack or action taken by the Military, Naval or Air Forces of the United States in resisting attack, YOUR PRESENT INSURANCE AFFORDS YOU AB-SOLUTELY NO PROTECTION:

Leaders of our Government believe that enemy invasion, at least by air, is possible. Accordingly, after the Pearl Harbor attack, Congress provided free insurance for the period up to June 30, 1942.

By a recent act, Congress created a billion-dollar War Damage Corporation to provide insurance coverage at the lowest possible premium. To be safe, everyone should take immediate steps to secure War Damage Insurance from the Government.

You cannot wait until your radio reports that bombers are on the way or until you read in your morning paper that the United States has been attacked and then expect to secure immediate coverage, because your policy will not become effective until your application, accompanied by the premium, is received by the Insurance Company.

Our office is qualified to furnish you with detailed information about this much needed War Damage Insurance and to secure this coverage for you from the Government. Without obligation, you may call us and obtain first hand information as to rates, rules, etc.
