I had visions of ironing by hand for the Duration!

Most housewives are "good businessmen." They realize that their appliances must last the duration—which means that reliable repair service must be available when things go wrong. Reliable repair work is seldom "cheap," but it is most economical in the long run. Women realize that the service dealer's costs include TIME costs, MATERIAL costs, and OVER-HEAD. He must more than cover them to stay in business.

Follow this suggestion: use your appliances carefully and keep them ALL in good repair. They'll serve you better and longer. An Advertisement of West Penn Power Company in the interest of YOUR APPLIANCE SERVICE DEALER

Linon Moods, Modes
Linon varies its moods and modes as Dame Fashion sallies forth these summer days and trotting right along by her side is pique in many widths of wales and in silk and cottons. Sometimes these fabrics are used singly, sometimes they unite forces and then again they fasten themselves upon an entirely foreign fabric to show how smart they can be in accessories. Linon frequently goes alone using two shades for variety's sake.
