County Minister Describes Flood

(Continued from page one)

our trunk full of clothes and our belongings go down the river. Buildings were coming down and tents were completely covered all over and torn down and mostly washed away. The dining hall washed off the foundation and turned over on one side. We expected the tabernacle to go any minute. We prayed and called on God to save us and after hours of darkness, the light came and the rain stopped. Then a rowboat came and look out mothers with babies, and then a canoe came and took off little children first and the old ladies, and then all the women before the men. Patty Lou was taken 2 hours before I could go. I kissed her and told her to be a good girl and do what they told her to do and not to cry. She was very brave and good. I never expected to see her again. Then it was 1 1/2 hours after I went before my husband came out. He came in a motor boat. When we went on the roof our dog cried so that a woman coaxed a man to take her up to us and he did. She was saved with the preacher. There were 3 dogs on the roof with the people. The poor dog would not eat for two days after we came home. There were Coast Guards, sailors, and a lot of Red Cross workers and trucks of food and bread and hot coffee for the victims. The children were taken in homes on the hill and dried and fed. We were soaked from 8 a. m. until 9:30 p. m. when we were again brought home to Bradford. We are thankful to the Lord for saving our lives. All 200 were saved. There were 15 cars under water on the ground

for several days. We had ours brought home but don't know if it will ever be any good. We lost almost all our clothes, only what was on our back, and bed clothes, and so many things. We did not even have underwear to put on. I have one dress that I did not take so I have one to go to church. I lost my new shoes and Patty Lou's new shoes. The old ones I had on all came apart from the water and I had to throw them away. It was a terrible shock to us all. Rev. Edna Barkas was killed in her home with another lady that lived with her. They lived near the church and she did not tent on the grounds. She was at the camp on Friday night and the other lady was at the altar. They went to the cellar of their home for something and the house caved in on them and drowned them in the cellar. There were several other flood victims at Port Allegheny. If you could see the camp grounds after the water went down you would wonder that anyone ever lived to tell the story. We are having rain every day here and so many places are having floods. A number of our church people were at the camp, so we all had the same experience. I lost my pocket book and it was found away down the field from where our tent was. It had only 26c in it but some important letters and a fountain pen. A man was rinsing a blanket in some water and up came the pocket book. Well it is all over but my nerves are so bad that I can't sleep nights. I hope I never have to go through such a thing again. Hope all the folks at Flemington are well. Remember us to the neighbors around about and pray for us. Yours in Christian love, Mrs. G. A. Garrett.
