Saturday, Sept. 12

Congress did not act by Oct. 1 to knock down farm price cellings and provide new taxes brought retorts that the President was "pointing a pistol" at Congress, was waving a "club" and was setting out on "incharted seas" of presidential authority.

But out of the storm of criticism that arose over the language in which he conveyed his objectives to Congress in a message Monday and to the people in a radio "fireside" chat" last night, those trends were discernible among legislators:

Influential Democrats and Republicans appeared agreed that overall controls of the nation's economic machinery were needed, with many contending that wage, as well as the controls of the nation's economic machinery were needed, with many contending that wage, as well as the controls of the nation's economic machinery were needed, with many contending that wage, as well as the controls of the nation's economic machinery were needed, with many contending that wage, as well as the controls of the nation's economic machinery were needed, with many contending that wage, as well as the condition: Thor electric washer, excellent condition; Thor electric wa

contending that wages as well as farm prices should be stabilized by legislation.
