## PENN STATE LOAN FUND IS BIG AID TO STUDENTS

A \$5 banknote, left anonymously upon the doorstep of the president of the Pennsylvania State College two years ago, has increased its value almost 1,000 times.

With that banknote as a starter, Mrs. Ralph D. Hetzel, wife of the president of the College, established a loan fund, which is available to students when they need it in an emergency. Total loans of \$4981 have been made to students. With \$10 named as the highest loan, students borrow money from this fund to meet emergency needs for food and room rent, special visits home, job interviews, and medical expenses.

No interest is charged and no time is specified for the payment of such a loan. The only requisite is that a student must need the money to tide him over an emergency. Up to and including August 31, 338 students have borrowed \$24 times from the fund.

Nearly two-fifths of the loans were made to men and women who needed money for food and living expenses, books and shoes, eye glasses, clothes and personal reasons were other necessities which brought the student to the emergency loan fund. Donations, many of them from alumni, faculty, and undergraduates, have increased the fund to its present status of 2,367. Last year, the Class of 1942 contributed \$729 of its class dance profits to the fund.
