FOR NATIONAL PRAYERS

A movement to enroll 100,000 mothers of the United States in prayer for the nation has been started by the Mothers' Back to God Prayer Band, an inter-denominational group led by Mrs. Ethel Beadle, of Evansville, Indiana. Mothers of the nation are urged to form a prayer band in their respective localities and to join with the national band in prayer and fasting each Wednesday from 10 a. m. to 4 p. m. "We want 100,000 mothers to join with us and ask God to lead our country and send us a nationwide revival," Mrs. Beadle explained. "God cannot bless America until America comes to God. The Bible—Joel 2:32, says that 'Whoever shall call upon the name of the Lord shall be delivered.'" Psalms 80:4 says, "O Lord God of Hosts, how long wilt Thou be angry against the prayer of Thy people?" America's greatest need is for people everywhere to go to their knees in deep, heartfelt repentance and prayer, and to go God's way. The question of 2,000 years ago is still the big question today—What will you do with Jesus? Mothers from over the country are asked to enroll in the movement by mail, and may address The Prayer Band at Postoffice Box 626, Evansville, Indiana.

Heavy Loss In Fire at Farm

spreading to the house and other nearby buildings. They used water taken to the nearest telephone to send in an alarm. The barn and other buildings were enveloped in flames by the time firemen reached the scene. After water from booster tanks carried on the fire trucks was exhausted, firemen had only a small supply of water from a well on which to draw in battling the flames. The Centre farm company remained on duty until 4 a. m. while the Millheim firemen, directing the fire-fighting efforts, remained until all danger of a recurrence had passed. Some poultry was saved when the poultry house was destroyed. The farm has been owned by the Allison family for more than 60 years, and the Vonadas had tenanted the property since last April. Mrs. Foster, the owner, carried insurance and Mr. Vonada's loss also is reported to be covered in part by insurance. The cause of the fire has not been determined.

Bellefonte High Loses to Williamsburg

Bellefonte High lost the first home game of the season here at the Community Athletic Field Saturday afternoon when a lighter Williamsburg High Eleven ran up a 14 to 0 victory. Williamsburg seemingly put the Indian sign on the local team within five minutes after the game began for the visitors scored a whirlwind touchdown in the first quarter and made the extra point on a kick. The second score came in the second quarter when Smith, for Williamsburg, made a 55-yard run for a touchdown. The placement kick was successful. The Red and White seemed to be having an "off day" for at no time did they muster sufficient striking power to seriously threaten the visitors' conquest. Tomorrow (Friday) Bellefonte will go to South Williamsport for a night game on the South Williamsport field.

Centre County Egg Raisers Near Goal

Poultrymen of Centre county who last year produced 1,577,930 dozen eggs, are well on their way toward achieving their "Food for Freedom" goal of 1,719,944 dozen this year, according to a report released yesterday by the Northeastern Poultry Producers Council. The report indicated that despite a shortage of labor that has taxed the ingenuity and lengthened the work day of most Pennsylvania operators, the goal already is in sight. The rise in production has been accompanied by an increase of more than 76 per cent in returns to producers, both in the county and in the state. Records of the A. & P. Tea Company, one of the larger purchasers of Pennsylvania eggs, show that during the five month period ending August 1 the company received \$1,796,263 to Pennsylvania poultrymen for 5,425,590 dozen eggs. This compares with returns of \$1,009,200 for 4,057,350 dozen during the corresponding period in 1941. The U. S. Department of Agriculture has asked that Pennsylvania increase its egg production by 9 per cent this year, thus raising its output to 195,745,470 dozen. This would be 16,162,470 dozen more than the 1941 production and 25,578,470 dozen more than the 1940 production. At the recent convention of the Northeastern Poultry Producers Council in New York delegates from 13 member states indicated that the quotas of their states would at least be met and probably be surpassed.

Commute Death Sentence

On recommendation of the State Pardon Board, Governor James on Tuesday commuted to life imprisonment the death sentence imposed on Walter Blanchard, 26, Philadelphia Negro, convicted of murder in the slaying of a Philadelphia druggist in 1938. He had been sentenced to be electrocuted at Rockview next Monday. You can use your intelligence when somebody tells you an outlandish story about what is happening at a distant place.

Car Plunges 40 Feet

Morgan L. West, 35, of Bloomsburg, suffered a fracture of the right arm at the shoulder and severe abrasions, and two others were injured less seriously, when his car, driven by his nephew, a learner, went off the road and into a 40-foot deep ravine on the Bloomsburg-Catawissa Road. The fact that the car was traveling at but a few miles per hour, prevented more serious injuries.

Heavy Loss as Fire Destroys Barn, Crops

Included in the loss were the implements, stored in a shed which adjoined the barn, and all the season's hay, wheat, and corn. Members of the family were unable to venture an opinion as to the cause of the fire. No members of the family had been in the barn since the previous day, and there was no indication as to what had caused the blaze. No estimate of the loss had been made yesterday afternoon nor had the family decided on whether the structure would be rebuilt. The barn is on what is known as the old Kellerman farm near the Henderson school house.

The Nation's steel mills are running out of scrap. They haven't enough on hand for even 30 days more. When this is gone they may have to shut down—for all new steel is 50% scrap. Get your scrap ready to turn in now!

WHOSE BOY WILL DIE BECAUSE YOU FAILED?

Or maybe you don't care!

We think you do. We feel that our whole community is ready to rise up and bring in the scrap as soon as you get a chance. So you're going to get that chance!

Next week we're starting the biggest drive you've ever seen, to get in this precious material. And you're going to pitch in, too, because this situation is serious.

Start looking around your place for scrap today. If you've got a son in the service, do it for him. Do it for the neighbor's boy—for those fine young chaps you just passed, out on the street.

Above all do it for your country... and do it now!

THINK about it as revenge—a way to get back at the scum who have attacked us. Or think about it as a little more protection for our fighting men—something you, yourself, can do to bring as many as possible home alive.

But think about it now—for the scrap in homes, farms and factories has got to be moving to stockpiles within the next few weeks or it may be too late!

Maybe you don't know what it means to have production fall off. Maybe you can't imagine how it feels to be hunkered down in a foxhole wishing for just one more clip of cartridges. Or to see the enemy rolling through your lines because you didn't have just a few more tanks.
