

Echoes From the Past

Fifty Years Ago Mrs. Adam Hosterman died at her home in Boalsburg on Saturday night of paralysis. She was 52 years of age. The funeral occurred on Tuesday.

Comrade Thomas Lyons, living about a mile west of Centre Hall, had a curiosity in the shape of a pig with five legs. The pig was not inconvenienced by the extra appendage and was as lively as any in the lot. The fifth leg is connected with one of the front ones and is somewhat shorter, but is fully formed.

Marriage licenses were issued to the following couples: S. Irvin Reber and Clara E. Allison, both of Howard; William M. Gates and Esther M. Farnell, both of Gettysburg; William A. Gramley, Rebersburg; and Nellie M. Hazle, Madisonburg; William C. Kerstetter, Cora A. Auman, both of Coburn; David A. Sowers and Sarah McClellan, both of Philipsburg; Charles F. Cook, Bellefonte, and Ellen J. Marshall, Benner township; Andy J. Mott, Bellefonte, and Odelle A. Rolley, Milesburg.

The Department of Public Instruction has been notified of the resignation of county superintendent David O. Etters, of Centre county, to accept the principalship of the public schools of Bellefonte. His resignation has been accepted to take effect October 1. Superintendent of Public Instruction Walter has appointed I. Gramley, of Rebersburg, to fill the vacancy in interim. Prof. Gramley will assume his duties at once. He is well qualified for the position and we believe will prove a satisfactory official.

Miss Rosa Gill, the young lady who had her hip and spine injured last winter in a coasting accident on High street, died on Sunday morning from typhoid fever. She was 24 years of age. Her father, Mr. Frank H. Whitman, formerly of Bellefonte, and Miss Lida E. Holt, of Philipsburg, will be married in the Presbyterian church at that place. Mr. Christy Murray, of Centre Hall, this year a member of the senior class at Princeton College, has been engaged by the New York Sun to report Princeton College news. The Sun required a higher standard than most daily papers and they are willing to pay accordingly. Mr. Murray has the ability and we expect to see him advance in the field of journalism.

On Sunday evening at about 8:30 the populace was again called out by the sound of the alarm. A bright light in the southeast of town proved to be at the house occupied by Mr. Albert Owens, formerly the John H. Orvis homestead, about one-half mile from town. Since there was no water supply in that vicinity the different companies making an effort to stay the flames and only by heroic efforts did they manage to save a few pieces of furniture and a portion of Mr. Owens' library. The entire building was burned to the ground. A heavy rain set in during the fire and prevented the flames from spreading to adjoining buildings. The cause of the blaze is at the time and the cause of the blaze is a mystery.

Twenty Years Ago

Rev. Wilson P. Ard and John Garthoff departed for Newport to attend a meeting of the Central Pennsylvania Synod of the Lutheran church.

Rev. Fred K. Stamm had tendered his resignation as pastor of Faith Reformed and Lutheran College, to accept a call to become pastor of a church in Reading.

Miss Louise Kelsed of Wooster O., who had suffered a nervous breakdown, had recovered and arrived in Bellefonte to resume her duties as teacher in the history department of the Bellefonte High School. During her absence Dr. R. M. Beach had been substituting.

Milesburg was planning a homecoming in honor of the dedication of the Soldiers and Sailors monument in that community. The celebration was to be held October 19 to 21. John Payne, commander of Brooks-Doll Post American Legion, Bellefonte, was working with the committee in preparing a program.

The F. Potts Green horse at the corner of Allegheny and Lion streets was improved when the old porch was torn away and a new one built in its place. This horse is one of the oldest in Bellefonte, in fact it was said that the horse was the first one to be erected in that section of town. It was occupied by Mrs. Catherine Dinges and sister, Miss Emma Green, daughters of the late F. Potts Green.

John Wetzler, one of Milesburg's prominent citizens, departed for Woodmen, Colo., where he was to enter the Modern Woodmen of America Sanitarium. Mrs. Wetzler left at the same time for Albuquerque, New Mexico, to enter the Southwest Sanitarium. Both Mr. and Mrs. Wetzler had suffered severe attacks of influenza the previous year and were unable to recover from the effects of their illness. It was believed a change of climate and proper treatment would be beneficial.

Dale S. Shuey, Lemont truck driver, was painfully injured when he was struck a violent blow on the head by the crank of the hoisting apparatus on a truck owned by L. Frank Mayes, of Lemont. Mr. Shuey, employed by Mr. Mayes, was unloading crushed stone and had hoisted the bed. He got in the truck to move it forward and as he did so the catch on the hoist released. When the driver got out of the truck the rapidly whirling crank flew off its axle and struck him on the forehead. He was brought to Bellefonte where examination revealed a slight fracture of the skull in addition to a severe laceration.

FARM CALENDAR

Timely Reminders From The Pennsylvania State College of Agriculture

Apples Rate High—An abundant crop of apples is expected this fall, according to fruit specialists of the Pennsylvania State College. They call attention to the fact that for years the apple has been the popular home-grown fruit. It has so many uses that the homemaker would be lost without apples to serve in feeding her family.

Clean Up Corn Borer—The up-swung of European corn borer damage throughout Pennsylvania during the past three years demands serious efforts of farmers to control it. One method of control is to cut the corn low in the field and put it into the silo. Gather and burn all waste-infested stalks, cobs, and thick stem weeds.

Care of Rubber—Milking machine parts made of rubber should receive the best of care, according to dairy specialists of the Pennsylvania State College. Keep them out of the sunlight and do not sterilize with steam or boiling water.

Prevent Fires—The week beginning October 4 has been announced by President Roosevelt as National Fire Prevention Week. Penn State agricultural engineers recommend the checking of all fire hazards on the farm and a clean-up of premises to eliminate fire causes.

Turkeys Increase—About one per cent more turkeys than in 1941 is estimated for this year, say Penn State poultry specialists. In February, turkey producers intended to increase their flocks 8 per cent but weather conditions and labor shortages cut down the crop.

Grow Hedges on Farm—A variety of hedge plants may be grown on farms for fences and protective purposes, as well as for ornamental purposes, say Penn State ornamental horticulturists.

The Rev. asked the question: What is the quickest way to end this terrible war? The answer is united prayer. Now let all Christian people everywhere begin like Daniel of old to continue in necessary prayer every hour until God sends the answer. Let us not put this important matter off until it's too late. Sunday School Lesson

SAVING FAITH IN CHRIST International Sunday School Lesson For October 4, 1942.

Golden Text: "Being therefore justified by faith, we have peace with God through our Lord Jesus Christ." Romans 5: 1.

Lesson Text: Acts 16: 13-15; Romans 5: 1-11.

This lesson begins a new quarter and a new series. In this series of lessons, our minds will be turned to studies in the Christian life, particular family and church. This particular series of discussions begins with a unit of three lessons: Faith in Christ as our Personal Savior, Loyalty to Christ and Growth in Christ. These three lessons are followed by a temperance lesson, Steps Toward Solution of the Alcohol Problem.

During November, we will have a unit of four lessons which should prove interesting and helpful in this particular time. The Christian View of Marriage, Christian Nurture in the Family, Things That Mar Family Life, and Motives That Strengthen Family Life.

The series is brought to a close in December, with four lessons on the church, the first three Sundays being given over to consideration of The Mission of the Church, The Meaning of Church Membership, The Value of the Church to the Social Order, with the last lesson of the series coming on the fifth Sunday, Dynamic Christian Living. On the fourth Sunday, the lesson will be the Christmas lesson, "The Birth of Jesus."

This very interesting series of lessons opens with a discussion of faith in Christ as our personal savior, which is very appropriate as the opening lesson of such a consideration of Christian living. As a background for such a lesson, we have the story of the winning of the first convert to Christianity in Europe, the conversion of Lydia by Paul on the river bank at Philippi.

After Paul had the vision of the man from Macedonia pleading with him to come over and help them, he with the consent of the Holy Spirit, sailed from Troas to the island of Samothrace and thence to Neapolis. From there, he had a nine mile trip inland on foot to the city of Philippi.

When the Sabbath day came, Paul went down to the riverside expecting to find a place of prayer there, as was customary in places where there were no organized synagogues; and there he found a group of women, among them a prosperous and intelligent woman merchant from Thyatira, named Lydia. Paul spoke to them about Christ and Lydia listened with interest. He gave her his heart to give heed unto the things which were spoken by Paul.

There are two aspects to our Christian faith, and we are in danger of remembering only the one. Faith in Christ is the acceptance of certain truths in regard to him, and it is not enough to believe in him, we must committing oneself to him in perfect loyalty, and endeavoring to follow his teachings and example, and it is an act of the will. An eminent minister has said that "Faith in Christ is this: Such as he is I want to be; his is the kind of character that he has; his is the kind of life I want to live; his is the kind of blessedness I desire for myself and for others; True faith in Christ can mean no less than this, for if we believe in him we believe in his life and his teaching, and this is what he has taught, that we are to follow him, take his yoke upon us, do his will."—Martha Tarbell.

NEWS IN THE WORLD OF RELIGION

BY W. W. REID

Two American doctors and their families who have been in charge of the world's largest leper colony—located on Saturday, one of the islands of the Philippine archipelago, remain there although urged to return to the United States before the outbreak of hostilities in the Far East. Latest reports received by the Leonard Wood Memorial (which provides funds for the colony) indicate that the two families are still there, permitted by the Japanese to carry on, and that they are receiving from America the necessary medical supplies, food, and other requirements for the operation of the colony. Dr. and Mrs. H. W. Wade and Dr. and Mrs. John H. Hanks are the American families, and they are assisted by trained Filipino nurses.

"The chaplaincy in the Army or Navy of the United States offers unparalleled opportunities for Christian service," says Bishop A. W. Leonard of Washington, D. C., chairman of the General Commission on Army and Navy Chaplaincy, in urging young ministers to volunteer for such service. "First, the ranks of labor are not adequately represented in the membership and leadership of the churches; second, church people generally are uninformed concerning the purposes and the problems of the labor movement; and third, the churches are urged to bring laboring people into their membership and to give them positions of leadership, and to use them as counselors to church groups.
