and it flew to pieces like a clay

#### HANDS OFF, MEN

Sorry men, but those wedding gifts that are given to all married couples in reality belong to your wife. An Allegheny county court jury so ruled when eight men and four women awarded Mrs. Marie Perchy, of McKees Rocks, \$114, plus \$2 interest, the value of wedding gifts which she said her husband refused to surrender when they separated. Perchy maintained that some of the gifts of course, were for his estranged wife, but that, after all, some were meant for both of them. The jury disagreed.

#### NOTHING TO IT

An Atlanta, Georgia, woman, riding home on a bus, suddenly realized she had left a "piggy" bank at the post office while mailing letters. She hurried back to the post office, found the bank on the counter, and then noticed it was heavy. Between the time she'd left the post office and returned, generous Atlantans, thinking it was there for aiding some worthy cause, had put many coins in it.

#### LOST GRINDERS

Corporal Bernie Abrahams of the Royal Regiment of Toronto, who has returned from Britain. tells of an air raid warden trying to hustle an English woman out of her home into a shelter during a bombing: "Wait till I find me teeth." the woman said.
"What do you think they're
dropping, lady, sandwiches?"

#### HIT THE JACK POT

Repairman Frank Holser, of New York, went to the pit of an elevator shaft-and did he get lift! He found \$1,117 in cash.

#### 35-MILE SPEED LIMIT SAVES LIFE AND AUTOS

Savings in life and vital equiptraveling at a slow rate of speed ment, besides rubber, gas, and oil, will be brought about by the nation-wide adoption of the 35-milean-hour speed limit, says Amos E. Neghart, administrative head of the Pennsylvania State College Institute of Public Safety.

The Penn State expert believes that "only a fool" would drive faster than 35 miles an hour on recap tires. He said that accidents are cal dressings and work on the asfewer at a lower rate of speed with a consequent drop in the number of Mrs. Charles Mensch and Mrs. John

"Moreover, at 50 miles an hour or over an automobile usually winds up is urged to report to the Masonic on a junk pile," he observed, "where- building.
