DO YOU HAVE HEART PAIN?

Americans are prone to worry about every little heart pain, and to imagine that they have, or are going to have, angina pectoris, or coronary thrombosis.

Prolonged worry or distress often brings on pain in the heart that even extends to the whole left side, and may even affect the arm pit as well as the arm.

Doctor Thomas Fitz-Hugh, Jr., of the University of Pennsylvania, has written an article on the subject in which he says that "a review of 4,000 consecutive private patient records of the past 15 years showed migraine in 22 per cent. About one in every four presents symptoms of 'regular attacks of pain in brief regular intervals resembling angina pectoris.'"

This pain in the chest, instead of in the head, appears as a substitute for the pain in the head. The pain is most often a dull, heavy, boring ache in the region of the lower part of the breast bone. Sometimes it extends into the left arm pit. The dull

type of distress may come and go on days at irregular intervals.

The quickest way to get rid of it is to become interested in other things. As a rule, the pains are fleeting, sometimes lasting for only a few minutes, but may last hours.

The patient may even be seized with air hunger. This inability to get a deep breath is alarming and uncomfortable. When the pain is deep and stabbing, a full breath cannot be taken until the pain passes off.

These symptoms are usually a form of migraine that attacks the heart, instead of the head.

In the migraine, or one-sided headaches, we are not sure of the exact cause, but they seem to be brought on by anxiety and worry, too much mental or physical overwork, which produces nerve tension.

However, we have a very satisfactory treatment for migraine headaches, as follows: Ergotamine tartarate or the breathing in of 100 per cent oxygen will in most cases bring relief.

A point to be remembered by sufferers from heart pains such as have been described is that the patient does not sweat from agony as in true angina pectoris.

WOODWARD

Charles Seifert of Chester, was the guest of Mr. and Mrs. Stewart Haines over the weekend. He is employed by the Westinghouse concern.

Monday morning opened with the mercury reading fifteen degrees above zero. There must have been some snow around the corner.

D. J. Benner's condition is gradually getting worse, especially his mental powers.

A number of our town folks did some gardening last week, mostly setting little onions and sowing lettuce seeds.

Mrs. Harry (Mildred) Brindle is improving nicely. However, she must be very careful in moving about. She must take things a little easy.

We were glad to see Warren Shreckengast and Harold Ard home over the weekend, as also were their home folks. They had the opportunity of meeting and making their acquaintance with the newly appointed pastor, Rev. H. S. Entz, of the Millheim charge, at the Sunday forenoon service. They are now being employed on a federal project just outside the city limits of Washington, D. C.

It was a new experience that the local Grace Evangelical church appointment had on Sunday forenoon in listening to and then making their acquaintance with their newly appointed pastor, Rev. H. S. Entz, but also his companion and their three boys. All seemed glad to meet them and get acquainted. There were about a hundred present.

Remember the services for next Sunday, Sunday school at 9:15 a. m., followed by Christian Endeavor at 10:30, at which time C. E. Kremer, delegate to the recent Conference of the Evangelical church held in Baltimore, Md., will give his conference report. Preaching services at 7:30 p. m. All are heartily invited to these services.

Making new friends is one of the pleasant experiences that make life easier and brighter.

WAACS AT WORK—Waes in motor transportation work know the value of moving supplies. This Waac driver cleans the motor of her ton-and-a-half truck after a day's driving at an Army post.

This Waac driver is responsible for the cleanliness and upkeep of the vehicle assigned to her. At Army posts and stations throughout the country Waac drivers are doing much of the work of driving Army vehicles, releasing able-bodied soldiers for fighting duty. Each Waac driver undergoes an intensive training course in motor transportation and maintenance at a WAAC training center before being assigned to duty.

Planning Your Victory Garden

(Continued from page one)

like corn and beans in rows 30 or 36 inches apart, hand cultivation will be simple and easy.

In laying out the garden, place any perennial crops such as asparagus, rhubarb, or horseradish, at one side where they will not be in the way when the garden is plowed next year. Next to these place those crops which may be planted early: peas, cabbage, early potatoes, onions, lettuce, spinach, early beets, carrots, and parsnips. In a small garden some late crops may be grown after the short-season early crops have been harvested. Later crops may come next in the garden, these being planted in late May or in June.

These include snap beans, lima beans, fall and winter cabbage, late beets, tomatoes, cucumbers, sweet corn and others. This arrangement will make an easily worked garden plan and one which will be economical of time and garden space.

Vegetable Varieties for Victory Gardens. Experienced home gardeners long ago learned that the vegetable varieties which look best in the seed catalog are not necessarily the ones which will do best in their gardens. Selection of good varieties is important, for no amount of care will produce a satisfactory crop if the varieties chosen were not suited for the conditions or purposes of the garden.

Mary Washington asparagus and Macdonald rhubarb are good home garden varieties of these perennial crops. Early peas of the Thomas Laxton variety, and Strides or Alderman varieties for midseason and late plantings should be very good in this locality. Golden Acre cabbage has been a good home garden variety, while Glory, a midseason variety, makes excellent sauerkraut.

For late cabbage to be stored for a variety like Short Stem Danish Ballhead performs very well. Black-seeded Simpson leaf lettuce, Smooth Nobel (early) and Savoy Long Standing (late) plantings spinach and Dwarf Curled Scotch kale are good varieties of the popular leaf crops. Among the root crops, Detroit Dark Red beets, Red Core Chantenay carrots, Hollow Crown parsnips, Scarlet Globe radishes, Yellow globe rutabagas, and Golden Ball turnips will be sure to fill the needs of the average home gardener.

It is not likely that home gardeners will have much choice in selection of onion varieties this year if they are purchasing sets or plants, but Long Standing (late) plantings variety are good, and plants of Utah Valencia either purchased or grown indoors at home will give satisfaction. The stronger flavored Yellow Globe variety may be seeded out-of-doors early in a good soil if neither sets nor plants of the other varieties are obtainable.

As for the Scotia mines, nothing can be found out just what will be done here at present, but their intentions are to operate later on.

Mr. Charles Kooker and two daughters and Mrs. Forest Davison and son Tom, all of Tyrone, spent Sunday afternoon and evening at the Williams home.

Mr. Wallace of Port Matilda, they said they wanted a little information on the best I could, and they informed me that they were getting ready to operate the Grays Dale ore mines again. But on Saturday last I took a stroll over the hill to the mines and things seemed very dead around there, but on a little scouting trip through the mine I noticed that they had sunk a few test holes of which some proved very satisfactory to my estimation, and others were not so good. But there are probably many spots in which good ore can be found.

Mr. Harter is improving and is able to be up after being confined to his bed for over a week. The Jacksonville and Howard 4-H Club held their first meeting this spring at the George Weight home last Tuesday evening. There were sixteen present, some of them being new members. The evening was spent in discussing our project for this year. Each member is doing all he can to make this year our biggest and best year in club work. Our next meeting will be held at the Fred Wensel home at Howard next month, at which time new officers will be elected. We were very glad to welcome the new members into our club which we hope they will enjoy. After the meeting we were treated to some very delicious peanut butter cookies which we all enjoyed very much.
