Dr. Wm. J. Schwartz  
Frederick Gardner  
Ralph Daughenbaugh  
Dean Ripka

FROM Titan's fighting men in the Solomon jungle . . . on ships relentlessly pushing toward the Far East . . . on the hot desert of Africa . . . and in the training camps of our country, comes a big "OKAY" on Titan's production achievements.

These boys know the importance of the assembly lines at home, and here they tell how proud they are of the good job Titan's employees are doing in the battle of production:

"The manufacturer is fighting this war the same as we are, and all the Army and Navy needs are the supplies, and I am sure they will not be let down."  
—Pvt. James Bryant

"I am proud to hear that the Company won the Army-Navy "E." It took hard work but when people stick together they can win all the time and that is what it will take to win this war."  
—Pvt. Melvin Fravel

"I guess you all know that we have a job to do, and the sooner we all get our shoulder to the wheel and get it done, the better it will be for us all. Congratulations to the Titan for doing more than its share."  
—A/C Don Johnson

"I can readily see that the Titan is upholding the record for which they received the Army-Navy award. Keep up the good work, fellows, and we boys in the Service will assure you that we will do our part."  
—Pvt. David Hosterman

"My congratulations to all the personnel of the Titan for their fine work."  
—Pvt. Mike Meter, U. S. Marine Corps

"We boys aren't forgetting the swell work being done by you at home and it is sincerely appreciated by all the members of the Army and Navy Forces."  
—Pvt. Boyd Osman  
Somewhere in Aus/ralla

"My congratulations to the employees for their fine showing in the past year, and may this year be just as good if not better."  
—Pvt. Jim Haupt

"It was a great honor to me to work for a Company that is doing so much for this great country of ours. If every company in our great United States was making production like the Titan, I am sure there would be no doubt in any of our minds as to the outcome of this conflict."  
—Pvt. Harry Shope  
U. S. Marines

"The importance of the production of the Titan toward the winning of the war cannot be stressed too much. The importance of this has been clearly shown to me in my short time with the Air Force."  
—Pvt. Edgar Harter

"I would like to say that we in the armed services are confident of victory with the continued backing and support of those on the home front. That the men and women of Titan can and will continue to set new records in the production necessary for that victory, we are equally as confident."  
—1st Lt. W. C. Adams

"Now that I am an ordnance man I can fully understand the meaning of production. Back home in the factories each man has a job to do. He must supply the arms and materials for those in uniform. Keep plugging and don't worry about us for this is really a terrific army."  
—Pvt. Samuel Confer

"It made me proud to learn that Titan Metal has been awarded the Army-Navy "E." I know you are doing everything you can to help us, and if the rest of the country's war production plants do their share, we will surely win."  
—Seaman Neal Johnson

**TITAN METAL MANUFACTURING CO.**  
ESTABLISHED 1915 BELLEFONTE, PA.

A STAR HAS BEEN ADDED TO OUR ARMY-NAVY "E"

"By winning this additional honor you all have demonstrated a solid determination to supply our fighting forces with the materials they must have to bring this war to a successful conclusion."  
C. C. BLOCH, Admiral, USN (Ret.)
