P. R. R. Removes SKING
The Pennsylvania Railroad Company has received permission of the Public Utility Commission to remove two unused sidings along the creek east of the station at Middlebury. The spurs have not been used for more than 10 years, and the track will be used for needed installation on other sections of the railroad.

Hospital Appropriation
Hospital appropriations in Clinton county for the next biennium will remain at \$47,000, as recommended by the appropriations committee of the State House of Representatives. Of this amount Lock Haven Hospital will receive \$38,000, and the Renovo Hospital, \$9,000, the same as in the past biennium.

HONOR ROLL:
For the information of the scores of persons who are complaining about missing names on the Bellefonte honor roll, we're happy to report there is no evidence that Karl E. Kusse, secretary of the Chamber of Commerce, which sponsors the roll, omits names with malice aforethought. In fact, he's anxious to get all names on the roll which properly belong there. So instead of complaining, if you find your son's, your husband's, or your friend's name missing, get to a telephone and dial 2917. Tell Mr. Kusse all about it, and

The derrick. He built fenders, finished the body, and painted the creation a bright red. The winch is so powerful it will pick up an ordinary car with the truck motor idling. It can pick up one end of a ten-ton truck with no effort.

DRAB PICTURE:
If shortwave broadcasts from Berlin are a reliable indication as to the national morale of Germany, the people of that country must live in a dull, spiritless atmosphere, woe, far, doubt and indecision hold sway. The "North American" broadcast from Berlin Good Friday night included detailed reports on the alleged successes of German arms in areas where fighting is little more than skirmishing. The reports from the main theatres of action, Tunisia and Russia, were very brief and told nothing of the fortunes of war. After the news broadcast there was an hour's orchestra program devoted exclusively to four movements of a most doleful requiem.

B FLAT:
Guess it doesn't make any big difference, but all of Bellefonte's four air raid whistles are tuned to a perfect B flat, according to local musicians who have checked on the tone during alarms.

NEW NAME:
Chances are the island above the falls in Bellefonte, for years known as the Gamble Island when it was a part of the Gamble estate, but which has had no name since it became borough property some years ago, may come to be called Duck Island. Mallard ducks swarm over the place; there are innumerable duck nests on the island, and before the summer is out there will be more ducks. The borough-built duck house has been moved close to the water's edge on the eastern shore of the island, and a wire enclosure extends out from it for a distance to enable the young ducks to swim and dive without being carried downstream. The house, originally built for adult ducks, is now closed to all but the youngsters.

Crash at Port Matilda
Cars operated by Mrs. Charlotte S. Wigham of Port Matilda, and Mrs. Robert W. Parks of Tyrone, R. D., collided on Route 220 in Port Matilda last Thursday morning. Although no one was injured, damage to the cars was nearly \$100.

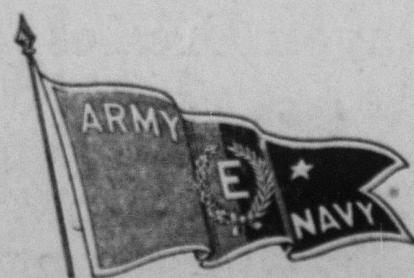

From TITAN to Tojo

In a wire to Titan Metal employes from Major General Echols of the U. S. Army Air forces it was revealed that our army pilots scored 38 out of 40 bomb hits in one raid alone on Jap installations during the Guadalcanal campaign. These amazingly effective raids were carried out by American planes—planes that Tojo and his partners cannot match.

Plane parts made by Titan men and women help account for a large share of the superiority in American planes. These workers are making the most of every minute to increase the present high rate of production.

The Army and Navy are proud of everyone whose skilled workmanship helped put these Japan-bound planes into action . . . To our armed forces, Titan is a trusted source of vital parts—PARTS THAT GO FROM TITAN TO HELP CRUSH TOJO—PARTS THAT HELP BRING VICTORY A STEP CLOSER.

Listen Tojo!

In any war of machines you're playing our game.

No one can beat us when it comes to doing a quick mass production job. Not when we get our minds to it. We know how important it is to destroy you and what you represent . . . that's why we're willing to work harder and save more than ever to buy War Bonds. That's why Titan workers have already invested \$166,487.50 in War Bonds during the past 12 months. With every man and woman putting every spare dollar in War Bonds, and every effort in work—**THAT'S THE WAY WE'LL BEAT YOU AND YOUR PAIS.**
