pretty wedding at 4 p. m. Thursday, June 10, when Miss Marguerite Anne Kells, daughter of Dr. and Mrs. Lyman Morse Kells of Annapolis, Md., became the bride of Ensign John G. Keller, son of Mr. and Mrs. J. Orvis Keller, 218 East Prospect avenue, State College. Dr. Neff performed the ceremony. The bride, given in marriage by her father, wore an ivory-colored satin wedding gown, fashioned with a heart-shaped neckline, long bodice, long, close-fitting sleeves, and a train. Her veil of tulle was attached to a coronet of seed pearls. She carried a bouquet of white roses, stephanotis, and sweet peas. Miss Evelyn Rullman of Annapolis, was maid of honor. The bridesmaids were the Misses Marjorie Warren of Blytheville, Ark.; Louisa Easley, Roanoke, Va., former classmate of the bride; Mary Jane Keller, State College, sister of the bridegroom; and Roberta Kells, Washington, D. C. Ensign Harold A. Crimes, of Catawissa, the bridegroom's roommate, served as best man. The ushers were Ensign Jay Stanley Howell and Midshipman George W. Abscher, John J. DeMayo and Richard A. Zvolokski. The traditional arch of flowers was formed for the bride and bridegroom to pass under as they left the church. After the ceremony a reception for 300 guests was given in the Red Room of the Officers' Club. Immediately following the bride and bridegroom left for Jacksonville, Fla., where Ensign Keller reported for active duty. The bride was graduated from Randolph-Macon College in June, 1942, where she was a member of the Kappa Delta sorority. Ensign Keller attended Penn State for one year before entering the Naval Academy from which he was graduated the day before his marriage. While at Penn State he joined the Beta Theta Pi fraternity.

Making 140 Farm Items More Readily Available From now on, farmers will have first chance at buying the shovels, forks, and other supplies they need to meet 1943 food production goals. WPB is seeing to it that its regional offices, newspaper editors, and the County Farm Rationing Committees are up to date on all developments in the program to keep farmers supplied with all necessary items. If they have on questions, farmers—or the dealers who supply them—have only to telephone or drop in at any of these offices. Who May Buy Equipment Briefly, WPB has given everyone who engages in farming as a business by raising crops, livestock, bees, or poultry, or who uses farm supplies in operating soil filling equipment, threshing machines, or similar equipment for farmers priority to buy any of 140 listed farm items. More Supplies Coming To help farmers get their share of the items which are the most urgently needed of the 140, WPB is also directing manufacturers or distributors to produce or set aside for sale for farmers specified quantities of 66 items. As the supply in a given line becomes too large or too small, adjustments will be made. There will thus be a steady, adequate flow of supplies. Buying Method is Simple To obtain supplies, the farmer has only to give his dealer a signed certificate, reading as follows: "I certify to the War Production Board that I am a farmer and that the supplies covered by this order are needed now and will be used for the operation of a farm." The farmer may copy and sign this form himself, or the dealer may have forms printed, for him to sign. However, if a farmer wishes to buy more than \$25 worth of any one item at one time, he must have his certificate approved in writing by the County Farm Rationing Committee. How Dealers Re-Order A dealer may at any time buy new farm supplies to replace those he has sold and has received certificates for from farmers. To place an order with his supplier, he simply certifies that his order, at wholesale does not amount to more than 75 per cent of the retail value of the goods already sold. The difference of 25 per cent represents the dealer's mark-up allowance. If the dealer wishes to stock up on farm supplies immediately, he may do so without waiting for farmers' certificates. In this case, he certifies to his supplier that he expects to sell the goods covered by his order, and that the goods ordered plus the goods on hand do not exceed a month's normal inventory.

SCOTIA NEWS (By H. M. Williams) The latest report on Mr. and Mrs. George Stevenson of Waddle, is that Mrs. is about the same, but Mr. Stevenson is not quite as well as he had been the past few days. Reuben E. Cronmiller of Bellefonte, visited with Aunt Dora Ghaner last Tuesday and Wednesday. Cpl. James Stine, Jr., who has been stationed at Aberdeen, Md., is spending a few days with his parents, Mr. and Mrs. William D. Stine of Waddle. Mrs. Nellie Behrer is spending a few days at the home of Mr. and Mrs. Dallas Morrison of Scotia. Mr. Morrison, who is employed at Hershey, spent a few days at home and on his return he took his wife with him for a few days, and Mrs. Behrer is taking care of their home until Mr. Morrison returns home. Well it still looks as if the building boom hasn't stopped in and about Scotia yet, as there is still some building going on. One is the erection of a house by Henry Stover who has it pretty well under way, as we can see it from our home. The framework is about all up and it looks as if Henry is making pretty good progress with it. The other building started by Mr. Ghaner has a pretty good hole dug in the ground for the foundation and expects to build as soon as he finishes the foundation. Last Saturday evening while in Bellefonte we ran into a hornet's nest of candidates for election. I don't think we would get stung by voting for any of them as they all seem to be pretty good fellows. Make your promises boys, and then stick with them. As usual we do most of our writing on Sunday afternoon when everything is quiet. So after eating our evening lunch the writer decided to take a little hike in the direction of Scotia. After looking things over around there we walked on towards the old ore washer. As we came there where Jacob Ghaner had his slip repair shop we noticed a large road grader standing there, and the road had been started there and was graded on through towards where the town was, and here we found that they had graded right through the diamond road. One is the street lights are controlled at Beech Creek and that town did not get the signal until the Centre county test was over. Then too, the signals were blown slightly different due to a different air raid warning being on duty. However, there has been no change in signals. The committee sponsoring the honor roll erected on the school lawn has been doing some landscaping which is a great asset to the display. The committee is in need of funds and will soon launch a drive for free-will donations. Miss Jean Kunes returned on Friday from a short visit with friends in Berwick. Merle Smith of Cleveland, Ohio, has been spending a few days with relatives and friends in the community. Mrs. Allen Fletcher and daughter Elaine left on Tuesday for Washington, D. C., where Elaine expects to spend the summer with her uncle and family. Mrs. Eugene Lettick of Lock Haven, was a weekend guest at the John Williams home. Mrs. W. A. Bowes left Monday for a week's visit with relatives in Johnstown. PORT MATILDA (R. D. 1) Mr. and Mrs. M. A. Kerin have returned from Washington, D. C., after visiting with their children, Mr. and Mrs. Robert Williams, and their first grandchild. The little fellow has been named Harold Martin. His mother and son are getting along fine. Mrs. Hattie Snyder is spending a week with her daughter in Pittsburgh. Mrs. Columbia Nebling and son of Pittsburgh, visited with her parents at Dix. John Zerby is home on furlough, visiting with his wife and little daughter. Mr. and Mrs. C. W. Solt and son were Tyrone shoppers on Saturday. Mr. and Mrs. Clyde Ryder of Stormtown, visited with her aunt on Sunday at this place. Mr. and Mrs. Tomer Merriman and family were Tyrone shoppers Saturday. The Ladies' Aid of Hannah, met at the home of Mrs. William Wink on Wednesday. Blistering Paint Blistering of paint is usually the result of dampness, although it is sometimes due to excessive painting or sappy or resinous wood and the sun shining on it. If the cause is dampness, it must be thoroughly removed before satisfactory painting can be done. Usually the burning off of all the old paint is the best procedure. Sunburned Panama Hat If the Panama hat has become badly darkened by the sun, make a solution of one teaspoonful of oxalic acid to one pint of water and apply with a brush. Just as soon as the hat has bleached, rinse the solution out thoroughly. Cleaning Sponges A sponge can be thoroughly cleaned by allowing it to soak for several hours in cold water to which a liberal quantity of ammonia has been added. Rinse well in lukewarm water and dry in the open air.

PENN STATE COWS MAKE GOOD RECORDS Three Holstein-Friesian cows in the Pennsylvania State College dairy herd recently completed high production records on a 365-day basis. Penstate Inka Doris produced 859 pounds of butterfat and 20,053 pounds of milk. She was milked four times daily and was 4 years, 9 months old when she began her test period. Penstate Inka Veeman Topsy, 3 years, 11 months old at the beginning of her test period, also milked four times daily, produced 757 pounds of butterfat and 19,361 pounds of milk. In 1942, Pennsylvania potato growers experienced the worst late blight in the history of the state. With 157,000 acres of potatoes, about the same as in the 1941 acreage, they got only 17,800,000 bushels compared with a crop of 20,500,000 bushels in 1941. A program of continuous and thorough spraying with bordeaux mixture insures the grower against late blight and promises the best possible crop that other conditions will allow.

Random Items (Continued from page one) other than pure hoghishness for adding 17 1/2 cents to the price of his strawberries, we'll be happy to retract every word of this and publish his explanation. AGAIN: If anyone is even faintly interested—this corner is back in full membership in the "I've Quit Smoking Club." There is nothing in the world more obnoxious than the fellow who insists on telling you how many days and hours it is since he's had a smoke. But with our case we feel it is different. It has been, let's see, just nine full days, come midnight Thursday, since we've touched tobacco. Isn't that just dandy?
